To whom it may concern,

My name is Lynx (say Link)Mullen. I have a herd share. I have struggled with my health for years and for me goats milk is what my body likes best. It is the only milk that I feel good drinking. As in I do not have a stomach ache after breakfast. The fresh local milk I get is amazing and I love it. It has been an intradgrul part of my recovery. Please support the herd share Bill. It will create security for those of us who depend on this resource. Every time I hear that my milk is threatened or could be it is just one more stress. To loose my milk would be devastating. Oh and the cheese while we do not get it often is such a treat. It is so amazing. Wish I could send you all some it would be the best argument for protecting the Herd Share system.

Thank You for your time.

Lynx Mullen.
