

Representative Andi Story

Alaska State Legislature

House District 34

Mendenhall Valley
Auke Bay
Out the Road
Sunny Point
Juneau Airport

Explanation of Changes

House Bill 116 – Renewal or extension of aquatic farming and aquatic plant and shellfish hatchery site leases

The only change made between original House Bill 116 (ver. A) and sponsor substitute for House Bill 116 (ver. U) was the replacement of the original bill title:

"An Act relating to the renewal or extension of aquatic farming and hatchery site leases."

with the bill title found in the sponsor substitute:

"An Act relating to the renewal or extension of site leases for aquatic farming and aquatic plant and shellfish hatchery operations."

This change was made to clarify that HB116 would impact renewals of site leases of hatcheries dealing with the propagation or production of shellfish and aquatic plant genetic material, and would not impact salmon hatcheries in any way.
