Dear Senate Finance Committee:

Please approve with a do pass recommendation SB32, SB33 and SB34.

These bills properly define misdemeanors and felonies, end catch & release without a realistic bail, and properly sentence convicted criminals to appropriate sentences. Alaska has unbelievably high levels of property crimes and theft. Alaska has repeat offenders being repeatedly released and committing new crimes. Alaska has a far to high failure to appear rate. Alaska has become a criminal haven. These bills appropriately and functionally address these problems. These bills should be sent for a full Senate vote with a strong do pass recommendation.

Thank you for your efforts on the behalf of Alaskans!

Johnny Murdock iPad
