Restore the PFD and constitutionally protect it from future meddling. No Taxation Without Representation.

HB1005

Kenneth Cunningham <cuban.ken@gmail.com>

Thu 5/23/2019 9:01 AM

To: House Finance <House.Finance@akleg.gov>;

Categories: Lynn

House Finance Committee.

I'm a resident of Palmer and I believe that this should be passed and put to the floor. The cut on the PFD is a dis-proportionate tax on many Alaskans. The simple fact that a flat dollar amount is removed from households versus a percentage is outlandish and unfair.

Thanks

Ken Cunningham

Please enter into the record the testimony below to HB 1005 in HFIN dated 5/23/2019

Constituent: Heather Koponen, Fairbanks

The Permanent Fund Dividend should NOT be at \$3000.00 this year. The PFD should be set at a sustainable level now and in the future.

Testimony submitted to:

Jennie Hafele

Fairbanks Legislative Information Office

1292 Sadler Way Suite 308

To the body of "leaders" that appears to be following the blind.

We the public are so tired of what seems to us as sheer incompetence mixed with a degree of dangerous arrogance that some of you in this legislative body have had over the last few months. Is your leader Gary Knopp or Tammy Wilson Bryce Edgmon ?

How about a renewed commitment and concept, engage again with your conscience and your constituents and act accordingly. We are sick of your pathetic actions and results. This is a note to Tammy Wilson. Two months ago you stated on the Mike Precarro show that you wanted to get on the finance committee to push forward the Dunleavy agenda specifically his budget. Well what the hell happened since you got your way miss Wilson? Yesterday the Dunleavy administration came out and said that you are a roadblock to them.

A note to Gary Knopp . Every time you get called out Gary your defense is a lot of people are supporting me. I know you are insecure and defensive. You will not be back next year I would bet money on that.

A note to George Rauscher Step up to the plate and swing at the ball representation takes courage fortified with guts

Lastly you all will be in the valley next and we're all looking to be with you

We expect you to support bill 1002 the original PFD formula not Tammy Wilsons version

Thank you

Dave maxwell and family

The PFD program has been, and will continue to be, one of the most successful programs of it's kind in the world; except for one thing; you. I'm getting tired of this process and I'm sure that , on some level, that is exactly what you want, otherwise, why would you continue to go after it, year after year, oblivious it seems, to the will of the majority in this state. Leave the PFD and the original formula alone, and furthermore, put it in the state constitution, so we can take it off the table, when you finally are forced to do your job and balance the states spending the same way every Alaskan citizen must. This is about the fiftieth email I have sent. You are winning, I'm getting tired.

HB1005

Mike Sampson <mike.sampson@northhaven.onmicrosoft.com>

To: House Finance <House.Finance@akleg.gov>;

Categories: Lynn

Enough already!!! You we sent down to Juneau to represent all of the people. You all should consider yourselves lucky that all of the people can vote the vast majority of you out. Pay out the PFD in the way it was intended, then figure out how to live within the limits of the States income. Only then will you realize that we need to stop getting pillaged by big oil. This land is our land and they are making bank off of it while we suffer. Not that it is any of your concern but we don't buy tv's and snow machines with the PFD we use it to pay for fuel, electricity to make it through the winter without going broke.

For all those 1%ers down there, we the people realize that this piddly amount doesn't impact you that much but for most of us it most certainly does. We have had a large taken from us, money we are owed and it needs to stop now and not be messed with going forward.

Don't try and disguise hb1005 as a great deal just so you can come back and steal in the future. We've all seen the votes and many of us are keeping lists and you will be ousted at re-election time some even sooner.

Public Testimony

Jim Moberly <jetstar3@mtaonline.net>

Thu 5/23/2019 5:10 PM

To: House Finance <House.Finance@akleg.gov>;

The following is an email (with a few additions) I sent to my representative David Eastman a few moments ago. I then thought I would also sent to you as my public record testimonial to my thoughts on our state budget and PFD. Please read the following:

Representative David Eastman, thank you for your steadfast representation. I just read adn report: <https://www.adn.com/politics/alaska-legislature/2019/05/23/house-lawmakers-offer-dividend-bills-in-hopes-of-breaking-special-session-deadlock/>

Stand fast to your PFD formula, that money belongs to Alaskan Residents, not North Pole politicians. Between North Pole past representatives creating lack of crime SB91, and the fight to take our PFD for state bloated funding. I wonder what is in the water up there? Tammie Wilson North Pole rep. just doesn't get it. So I'll give you some fire power to inform her, and others with. The state operating budget, and permanent fund is being crippled by Sean Parnell's SB21, state over spending in UA bloat, and un-audited state wide K-12 education funding for only aproximatley 350,000 registered public school students state wide. Our state budget is not being crippled by State services. It is not the responsibility of PFD receivers to give up our PFD to fund oil tax incentives or UA campuses located redundantly all over this state. K - 12 uses the same "use or loose" funding we did in the military. That needs to stop. SB21 is currently returning most taxes we collect on federal leased oil production as incentive to explore, drill, and produce oil. Alaska does not collect royalties from federal leased wells, the federal government does. We collect only tax on oil produced from federal leased mineral rights. Then the state pays federal income tax on the taxed income we collected! Our state has the highest state income tax of any other state for this very reason. President Trump has eliminated the need for SB21 to continue to return such insanely high tax incentives, simply because Trump did the incentives for us! North pole and some Anchorage politicians need to stop threatening cutting services that only affect the poor or retired. Sean Parnell's continued influence on our governor is shameful, unethical, and a conflict of interests having such close legal history with big oil here in Alaska. SB21 must be eliminated, and Sara Palin's tax plan needs restored. That will fix the budget and the permanent fund issue. BP alone reported first quarter profits of 1.7 billion this year! They claimed it was mainly due to new oil in Alaska. Mainly due to Trump, not our self destructive oil tax incentives. You really think they are going to pack up and leave with Trump opening everything to oil production? I damn sure don't.

Stick to your guns on our PFD, its ours. Its not a free ride! If that was true then I call the bluff those that say that. Give us back our mineral rights, and with that the entire permanent fund be divided to all the land owners that would then have un-severed mineral rights. I am a mineral right owner in another state. There is no way in hell I would call my sale of my minerals a free ride. Neither would anyone else in America.

Sincerely your constituent
James Moberly

Honorable Representatives,

Please do the right thing for we the people you represent and pass HB1002 and discontinue all support for HB1005. Now is the time to stop the current recession in AK and restore the fortunes and futures of it's citizens. The PFD is a huge part of most people's discretionary spending and without it being pumped back into the private economy more businesses will leave and so will people. Without businesses and people we have a nice National Park instead of a thriving state.

Thank you for your time,

Mark Prentice

Legislators,

I'm writing in today to let my voice be heard. This Alaskan DOES NOT SUPPORT HB1005, nor the cutting of the PFD formula in ANY form in the future.

I DO support HB 1002 that fully funds the dividend and implements NO cuts to the formula.

Alaskans are concerned with the current state of affairs in our great land, and are watching the decisions being made in office. Our voice will be heard loud and clear, come election time.

Thank you,

Amy

My name is James Squyres

I am from Rural Deltana

I am opposed to HB1005

You should pay the full PFD in accordance with current statute and appropriate the full PFD as in HB1002 with out further delay. HB1005 is NOTOTIOUS and is a bait and switch diabolical bribery plan not being properly vetted through the committee process with only one committee in a special session. The fact that HB1002 was given three committees of reference and simply strives to pay the full PFD is evidence of this.

NO on HB1005.

James Squyres

Ok, you guys need to get your act together and do something for the **PEOPLE** of Alaska, who **DULY ELECTED** you to do a job, which you are not doing. If you guys were getting a grade right now, most of you would get an F.

Learn to budget, the bank is closed. Quit spending on your special interest crap, and quit playing games. If you cannot do your job, then quit and let someone who wants to, do your job.

The PFD helps many Alaskans, In many many ways. If you do not need it, then donate yours to a good cause. Help out someone less fortunate. But way to many people need this money for winters. For medical bills, for many things they other wise would struggle for.

Over all, you guys should be ashamed of yourselves for what you are doing. Or not doing. **No More Games.**
