FISCAL NOTE ANALYSIS

STATE OF ALASKA
2020 LEGISLATIVE SESSION**Analysis**

This bill amends AS 08 relating to business and professions by adding a new chapter 08.69 to enact and enter into the Multistate Nurse Licensure Compact. The bill establishes the framework for the Alaska Board of Nursing to join the compact which would allow registered nurses and licensed practical nurses from other states to work in Alaska under their current state licensure in lieu of the current requirement to gain licensure in Alaska. Through this bill Alaska would adopt the licensure requirements under the compact which exceed those in present statute, including the requirement for a national criminal history record background check.

Under the authority of AS 12.62.160 and AS 12.62.140, the Department of Public Safety (DPS) receives and processes requests for state and national criminal history record checks for noncriminal justice licensing or employment purposes, including licensure to practice nursing. From 2017 through 2019, DPS conducted 2,975 applicant criminal history record checks on prospective nurses.

Should this bill pass, licensed nurses from other states would not need to submit to a new criminal history record background check to gain licensure in Alaska, thereby reducing the number of requests submitted to DPS. Fewer criminal history background check submissions would reduce workflow in line with the reduction in revenue from the fees DPS receives for these requests. The fiscal impact of this legislation cannot be determined because it is unknown how many fewer record check requests DPS will receive and therefore cannot estimate the reduction in associated revenue.
