House Joint Resolution 15 – Constitutional Amendment: Votes needed for veto override

I support HJR15 and urge the entire Legislature to approve it so that the issue can be placed on a ballot. Our constitution has many more good points but on this issue, the framers got it wrong and it's past time for an adjustment. I believe in government having checks and balances; our current veto threshold is far too high and gives our governor too much power. Please support HJR15.
