Another regressive tax. Good ol Click. How about an income tax before good ol Click beats us to abject poverty.

Thanks

Subject: Oppose SB 115

My name is Mike Coons, and I'm speaking as the President of the Matsu Chapter of AMAC Action.

We oppose SB 115.

One bright spot during this Chinese Corona Virus and what the Russians and Saudis are doing is a major drop in gasoline and diesel prices at the pump. Latest news is the Saudi's are ramping up this situation and they believe the price of oil will stay in the \$20-\$30 range for the next several years.

So, what this bill does will jack up the prices of fuel, while we don't really know how long the fight between the Russians and Saudi's will really last, not to mention the economic impact of the Chinese Corona Virus situation. Sadly a perfect storm that you don't grasp or don't really care about because of your over-riding need for big government.

Add to that this legislature's total disregard of the economic well being of all Alaskans by stealing our money from the ERA for that big government. This committee refused Rep Tilton's try to bring up the passage of the bill to get the \$1300 plus from last years PFD. Now this committee and legislature will most likely disregard what we the people are telling you as to not passing SB 115 and thus bring even more harm to our people and economy!

What this bill, along with the actions of the majority in the house will do in the coming days are going to be well remembered come 3 November.

Sadly, we the people of Alaska will bear the brunt of your disregarding common sense and good solid economic direction by this Governor and the outstanding legislators whom stand for the Constitution and the people of Alaska.
