Dear Representative on the House State Affairs Committee,

I am opposed to HB239 An Act establishing a state lottery for the following reasons:

1. Lotteries of this sort are often used by those who can afford them the least
2. I fear that these lotteries will take a bite out of funds raised by nonprofits who are already at a disadvantage in the State because of less charitable giving by individuals and corporations.

Thank you for this opportunity to comment.

Sincerely,
