Hello Legislature,

I am giving my input as a citizen and not as a staffer of Representative Vance.

I propose that all of the proposed appointees be confirmed to the board of fisheries.

They each seem to have a particular back ground, very different from one another. This may seem to be incompatible, but I see it as representation from all different fields of fishing.

If they can be adults and work together through differences, then I think each fishing industry will have adequate representation at the table. And if they don't work out, then they get replaced in a few years. Thats democracy.

I'm willing to give them all a try. Confirm all of them.

-Adam Levi Hykes
