Subject: HB259 Permanent fund split

I know it's getting too late for action, but I support HB259 giving 25% of a 5POMV withdrawal from the permanent fund earnings reserve to the PFD program. This is a sustainable PFD. The legislature would have the option to augment this PFD with various relief checks from the general fund if warranted.

Subject: HB259 25/75 split

I am a strong supporter of a 5POMV withdrawal from the permanent fund and 25% of that dedicated to PFDs and 75% for essential government services we all depend on. This is a good balance between individual and community benefit.
