

# People of Alaska Petition Their Government

## [Constitutional Freedom Fighters](#) started this petition to [Constitutional Freedom Fighters Alaskans](#)

Government in America was instituted to secure the unalienable rights of “life, liberty and pursuit of happiness,” and citizen’s inherent rights are guaranteed in the Constitution of the United States of America, inclusive of the Bill of Rights, the Declaration of Independence, and the Constitution of the State of Alaska. Freedom is worth fighting for; our liberty is under siege by the highly restrictive, many unconstitutional health mandates relating to the recent COVID-- 19 disaster declaration. Under these numerous mandates, has your right to liberty and your pursuit of happiness been infringed upon?

We the people of Alaska implore the Executive branch of the State of Alaska to immediately repeal all unconstitutional health mandates pertaining to the disaster declaration.

**BE IT RESOLVED** by the Citizens of the Great State of ALASKA:

**WHEREAS**, the 1st Amendment in the Constitution of the United States clearly states the following, “Congress shall make no law respecting an establishment of religion, or

prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press, or the right of the people peaceably to assemble, and to petition the

Government for a redress of grievances.” As the violations are too numerous to be listed in their entirety, one egregious example is the people’s inability to traditionally assemble and celebrate religious holidays and services without the threat of actions being taken against them. Religious freedoms are also guaranteed in the State of Alaska Constitution Article 1, Section 4 “Freedom of Religion-- no law shall be made respecting an establishment of religion or prohibiting the free exercise thereof.” In general, the People’s Right to freely Assemble for celebrations, meetings, in restaurants and so much more, are clearly being violated with tight restriction in many of the health mandates; and

**WHEREAS**, the Constitution of the State of Alaska, and the Constitution of the United States of America, inclusive in the Bill of Rights, and the Declaration of Independence are the Supreme Law of the land for all Alaskans. All elected officials take an oath to “support and defend the Constitution of the United States and the Constitution of the State of Alaska” and every elected official must be held accountable to their oath; and

**WHEREAS**, under Article 7, Sections 1, 4, and 5, the Constitution of the State of Alaska, Section 1 states “The Legislature shall by general law establish and maintain a system of public schools open to all children of the State...” without the consent of the legislature, the executive branch issued mandates suspending attendance at public and private schools, universities etc. The mandates are creating disruptions in deliverance of education, are affecting the students social and emotional welfare and impacting parents work schedules; and

**WHEREAS**, under Article 2, Section 13 in the Constitution of Alaska, the Legislature is the appropriating body of government and must be involved in helping distribute funds to those impacted by COVID--19 or the mandates that have impacted their livelihoods; and

**WHEREAS**, Many Alaskans do not support the surveillance, including but not limited to, personal phone devices that the Department of Health and Social Services is wrongly monitoring without the consent of the governed. Article 1, Section 22 in the Constitution of the State of Alaska states “the people’s privacy is recognized and shall not be infringed”; and

**WHEREAS**, the 5th Amendment in the Constitution of the United States clearly states the following, “No person shall... be deprived of life, liberty, or property, without due process of law; nor shall private property be taken for public use without just compensation.” And the Constitution of the State of Alaska Article 1, Section 18 “Private property shall not be taken or damaged for public use without just compensation.” The mandates are not only being arbitrarily applied, Alaskans are being deprived of their

guaranteed rights, without due process, and corrective action must be taken immediately; and

**WHEREAS**, it is imperative that the government balance the health and welfare of Alaskans, including the importance of jobs and a strong economy, by performing an economic cost benefit analysis, and use of peer reviewed scientific studies including reviewing opposing findings and only perform actions that do not violate Constitutional Unalienable Rights; and

**WHEREAS**, In addition to Constitutional violations with many of the health mandates, the Governor is in direct violation with A.S.18.15.385 pertaining to isolation and quarantine. Corrective action regarding the mandates needs to be taken immediately; and

**WHEREAS**, The Executive branch is subverting the constitutional authority of the Legislature throughout many of the issued health mandates, and in some cases subverting the Judicial branch, while governing the State in a quasi-- Martial law like manner. The Governor has failed to declare Martial law, provided for in the Constitution of the State of Alaska, Article 3, Section 20, which states "The Governor may proclaim Martial law when the public safety requires it in case of rebellion or actual or imminent invasion. Martial law shall not continue for longer than twenty days without the approval of a 2/3 majority of the members of the legislature in joint session." Even if the Governor had declared Martial law, these health mandates have gone far longer than 20 days, and he has wrongly done this without required Legislative approval in joint session; and

**WHEREAS**, the Executive branch health mandates 3, 4, 5, 6, 7, 9, 10, 11, 12, 13, 15 and 16 violate the following: The Constitution of the State of Alaska, Article 1, Sections 1, 7, 15, 18 and 22; The Constitution of the United States of America, Article 1, Section 10, and Amendment 1, 5 and 14. In addition, the mandates undermine local control and the valued expertise of highly trained Boards and Commissions that oversee these professions; and

**THEREFORE BE IT RESOLVED**, that the citizens of Alaska, implore the Executive branch of the State of Alaska, immediately repeal all Executive branch health mandates that are in violation of the Constitution of the State of Alaska, the Constitution of the United States of America inclusive of the Bill of Rights, and the Declaration of Independence. In addition, we ask the Executive branch to honor the distinct responsibilities outlined in the Constitution of the State of Alaska for the Legislative and Judicial branches and insist the Executive branch not violate any inherent rights of our citizens, nor intrude on any rights reserved for the people of this Great State.

Further, be it resolved, that any of the unconstitutional mandates set out by the Governor of the State of Alaska and his Administration, shall not be used as precedence in the future, where they clearly violate the Supreme Law of the Land and undermine the purpose of our Constitution that our Great State was founded upon, set

out in the Preamble: “We the people of Alaska, grateful to God and to those who founded our nation and pioneered this great land, in order to secure and transmit to succeeding generations our heritage of political, civil, and religious liberty within the Union of States, do ordain and establish this constitution for the State of Alaska.”

The Constitution of the United States preamble states “We the People of the United States, in Order to form a more perfect Union, establish Justice, insure domestic Tranquility, provide for common defense, promote the general Welfare and secure the Blessings of Liberty to ourselves and our Posterity, do ordain and establish this Constitution of the United States of America.”

Many Alaskans are deeply concerned with the highly restrictive health mandates, issued by the Executive branch under a “perceived” disaster, that are unconstitutional, must be repealed, and will not help secure tranquility and political, civil and religious liberties for future generations.
