

Property Disposal Directive Report

Department of Transportation & Public Facilities
Division of Facilities Services

Date: [Update_2020](#)

Executive Summary and Directive Background:

The February 12, 2019 Property Disposal Directive directed all Commissioners to investigate options available for reducing the State's assets by identifying properties that could be sold, or sold and then leased by the State, in order to realize short- and long-term cost savings.

This report contains information provided from each Department on candidate buildings to consider divesting. The appendix includes the original OMB Directive, slides for each **"Consider"** candidate building, high-level guidelines for divestment, and a summary of buildings, each with department provided justifications to retain.

Initiation, Work Group, and Key Events:

Outreach was made from DOT&PF Commissioner MacKinnon to all Commissioners, proposing DOT&PF facilitate completion of the Directive through its Division of Facilities Services. A multi-departmental workgroup was formed, inclusive of State Facility Council members and project managers from the Division of Facilities Services. The following departments and team members participated in the Workgroup:

Participating Departments*	Team Members
Administration	Cheri Lowenstein, Rob Daly, Melissa Hurley- Marvin, Katie Spears
Corrections	Dan Aicher
Education & Early Development	Lisa Golisek, Neil Steininger
Environmental Conservation	Patryce McKinney
Fish & Game	Samantha Gatton, Dave Mitchell
Governor's Office	Shelly Willhoite, Adam Bryan
Health & Social Services	Amy Burke, Keith Stephens
Labor & Workforce Development	Hannah Lager, William Endicott, Paloma Harbour
Military & Veterans Affairs	Robert Carr
Natural Resources	Marlys Hagen
Public Safety	Benhur Kothapalley
Transportation & Public Facilities	Mark Davis
Project Managers (DOT&PF)	Christopher Hodgins, Anna Harrison
Executive Sponsors (DOT&PF, Governor's Office)	Mark Davis, Mary Siroky, John MacKinnon, Amanda Holland,

**Participants did not include agencies outside of the Executive branch (University, the Legislative Branch, and Alaska Court System).*

Workgroup collaboration commenced in March 2019 and continued through November. A briefing with the House Legislative Affairs Committee was held April 30th with OMB Management Director Amanda Holland and Division of Facilities Services Director Mark Davis to describe the Directive intent, progress and methodology.

An interim report was submitted to OMB June 2019 describing **Consider**, **Future Analysis**, and **Do-Not Consider** candidate buildings for each department. The Workgroup continued July 2019 through October to further vet the **Future Analysis** set into either the **Consider** or **Do-Not Consider** categories.

Property Disposal Directive Report

Department of Transportation & Public Facilities

Division of Facilities Services

Methodology:

Methodology for fulfilling the Directive was developed by the workgroup, proposed to OMB, and approved by OMB on April 10th. For this report, Departments were asked to categorize properties into the final two classifications to determine initial candidates:

Consider: These buildings were identified by departments as candidates for divesting. Candidate buildings may be appropriate for demolition, space consolidation, or selling. Each respective candidate building will require individual project efforts and resources associated with their divestiture. Some candidates are already in process of divestiture by their respective departments.

Do Not Consider: These buildings were identified by departments as non-candidates. Departments were asked to provide standard justifications for each non-candidate building. Justification are contained in the appendix.

In categorizing candidate buildings, Departments considered criteria such as: *any known site or building contamination, federal funding limitations, potential sell value, historic significance, utilization, title issues, a building's ability to generate revenue and more.*

Consider Department Summary:

The summary of individual Departments **Consider** lists are as follows:

Department	# of Consider	# of Do Not Consider	Comments
Administration	0	14	
Corrections	0	138	
Education & Early Development	4	13	
Environmental Conservation	0	1	
Fish & Game	2	367	
Governor's Office	0	3	
Health & Social Services	0	39	
Labor & Workforce Development	0	17	
Military & Veterans Affairs	60	236	
Natural Resources	12	332	
Public Safety	1	38	
Transportation & Public Facilities	18	582	
TOTAL	96	1,781	Building total = 1,877

Total Consider Square Footage: 196,307

Total Consider Estimated Replacement Value: \$103,407,778*

*Replacement values are based from last available estimates from Risk Management. Replacement values indicate estimates for reconstruction of properties and their contents, and are **not** reflective of the market, retail, or surplus value. In most cases, replacement values will be two to three times the market or retail value of the property. Determining the market or retail values is based on local supply and demand, property conditions, land valuation, and comparable property sell trends. Current true reflective market values will require professional assessments by real estate professionals.

Property Disposal Directive Report

Department of Transportation & Public Facilities

Division of Facilities Services

Consider Candidate Next Steps:

Next steps include:

- OMB discussions with individual Departments on the **Consider** candidates, any further cost benefit analyses, and approvals of selected **Consider** candidates
- Determining proper resources and project management to implement approved selected property disposals
- Resourcing and implementing the disposal of the approved properties

Executive branches follow an established process for divesting excess buildings managed by the Department of Administration (Appendix C), with exception of:

- Buildings on airport land under DOT&PF authority (AS 02.15.060.070)
- Buildings acquired by DOT&PF from the acquisition of land for highway projects (AS 19.05.070)
- Education Buildings (AS14.07.030)
- DNR Buildings which improve state lands (AS 38.05.035)
- Federally funded buildings, in which each federal agency has its own rules and may require federal funds to be refunded. For example, DMVA federal use or funded armories, in which DMVA is following federal guidelines in their current facilities divestment program.

For those facilities with little value or unlikeliness to sell, other factors for consideration include suspension of all maintenance and repair costs, liability associated with vacant structures and demolition costs.

Do Not Consider Department Summary:

Departments were asked to provide justifications for their **Do Not Consider** buildings and facilities. The summary of Department **Do Not Consider** buildings justifications are as follows:

Do Not Consider Justifications									
Row Labels	Essential Facility in use by Dept	Federal Fund Obligation or Other	Historically or culturally significant	Houses personnel or equipment deemed mission critical (i.e. Trooper Housing, Road Maintainers, Fully utilized, etc.)	Houses personnel deemed as mission critical (i.e. Trooper HQ, Housing, etc)	Facility required by statute/law i.e. correctional facilities/hospitals	Facility itself has critical infrastructure i.e. server rooms, command centers, facility built specifically to meet mission, etc.	Facility provides a public service i.e. public use cabins, campsites, etc.	Grand Total

Governor Michael J. Dunleavy
STATE OF ALASKA

MEMORANDUM

TO: All Commissioners
Donna Arduin, OMB Director

FROM: Michael J. Dunleavy
Governor

DATE: February 12, 2019

SUBJECT: Property Disposal Directive

The Executive Branch of the State of Alaska owns, or has management responsibility for, numerous facilities and properties. Through this memorandum, I am directing your respective Department to investigate options available for reducing the State's assets by identifying properties that could be sold, or sold and then leased by the State, in order to realize short- and long-term cost savings.

Please provide a report to the Director of the Office of Management and Budget by June 1, 2019 which includes, at a minimum, the following information:

- Compiled inventory of State-owned properties
 - Facility name
 - Owned or leased
 - Facility type
 - Location, including community and street address
 - Approximate percent utilization (by whom, if used by multiple agencies)
 - Square footage
 - Estimated retail value
 - Replacement value
 - Date constructed
 - Comments, such as any work needed prior to selling
- Estimated cost savings, by property
 - To sell the property
 - To sell and then lease back the property
 - Explanation of the benefits to sell or to sell and lease back
- Recommendations for cost saving actions that could be taken, in priority order

The Office of Management and Budget will review all agency reports and work with affected departments through their respective Administrative Services Directors, to provide an aggregated report to me by June 30, 2019, which will include findings and recommendations.

A template for the report is attached.

As of: September 10, 2019

Owned

Stratton Library Building Sitka, AK

Department: Education
and Early Development

Concept: The Department purchased this Stratton Library building in 2010 with the intent of supporting operations of the Sheldon Jackson Museum. The plan was to use the second floor for storage and lease the first floor to defray the cost of operation. The facility is not utilized to it's full potential due to lack operating and maintenance funding as well as a lack of funding to finish necessary upgrades to make it leasable.

Advantage:

- Eliminates need for capital to complete necessary upgrades;
- Eliminates operation and maintenance costs;
- Eliminates insurance or property liability expenses;
- Interest from non-profit Sheldon Jackson Campus partners in owning the facility;
- Subject to appropriation sale proceeds could be directed to pay for land and expansion of Sheldon Jackson Museum.

Disadvantage:

- The Sheldon Jackson Museum (SJM) loses valuable and essential storage in close proximity (Stratton is next door to the museum).
- Revenue loss - lost opportunity to lease the first floor that would offset the cost of operating the facility and cover the cost of additional storage space for SJM.
- Sale cements a \$2,000.0 loss for the State: State paid \$2,500.0 (Dec 2010) and invested \$900.0 in capital for replace roof, insulate base, and deck over and wall off the second floor balcony. Current appraisal is \$ 1,500.0 (Aug 2019).

Expected benefit:

ROM or Professional Estimate: \$1,500,000.00 Horan & Company, real estate appraisal, August 23, 2019

Approved by: Dr. Michael Johnson,

Commissioner

Point of Contact: Lisa Golisek,

Mgr.

Priority Level: 1 of 4

As of: September 10, 2019

Owned

Mt. Edgecumbe – Dormitory (Building 286)

Department: Education
and Early Development

Concept: The Department leases this building to SEARHC. The building has not actively been used by DEED for at least 30 years. The roof system is reported to be compromised and the interior heating pipes are covered with friable ACM (asbestos containing material).

Advantage:

- Building is abandoned;
- Eliminates derelict property from State inventory;
- No insurance or property liability expenses;
- Mitigates risk of asbestos exposure;
- No maintenance or costly roof repairs.

Disadvantage:

- May require of costly abatement and disposal of ACM, prior to sale.

Expected benefit:

ROM or Professional Estimate?

Commissioner

Point of Contact: Neil Steininger,
Admin. Services

Director

Priority Level: 2 of 4

As of: September 10, 2019

Owned

Mt. Edgecumbe – Warehouse (Building 288)

Department: Education
and Early Development

Concept: The building has not actively been used for 20 years. The roof is starting to cave in and the interior heating pipes are covered with friable asbestos containing TSI (thermal system insulation).

Advantage:

- Building is abandoned;
- Eliminates derelict property from State inventory;
- No insurance or property liability expenses;
- Mitigates risk of asbestos exposure;
- No maintenance costs;
- Property (lot) is valuable, once the building is demolished.

Disadvantage:

- May require of costly abatement and disposal of ACM, prior to sale.
- May require repairs to roof prior to sale.
- Should not be sold prior to attempting to acquire Federal funding to tear down the facility.

Expected benefit:

Director

Priority Level: 3 of 4

Glennallen Cold Storage

Glenn Highway, Glennallen, AK 99588
2,618 Square Feet
State Owned

As of: May 30, 2019

Concept:

Identified due to condition and lack of use. Building is currently being evaluated for hazardous materials. Building is not structurally sound and has become a community hazard.

Advantages:

1. Reduced risk management and liability to the state.
2. Complies with the spirit of the Property Disposal Directive.

Disadvantages:

1. Loss of potential building site to support Departmental Operations in the future.

Expected benefit:

Removing this property from the State roles will reduce potential liability to the State in the event of a trespass accident and helps meet the goal of the disposal directive.

Department: Fish & Game

Elim Armory

Elim, AK 99739

2,815 Square Feet (2 buildings on campus)

State Owned

As of: May 30, 2019

Concept:

The Department is actively working on disposing of land, facilities, and properties that are no longer fulfill the Alaska Army National Guard mission requirements. These assets are no longer fiscally supported by National Guard Bureau. The transfer of ownership are being completed in accordance with Federal laws and National Guard Bureau regulations.

Advantages:

1. Department will no longer be responsible for the cost to operate & maintain the facility.
2. Department will no longer have insurance or liability costs associated.
3. Assets being divested are being transferred to the appropriate entities within the community, to be benefited by citizens of Alaska.

Disadvantages:

1. None known.

Expected benefit:

Save annual, deferred maintenance and utility costs.

Department: Military & Veterans Affairs

Divestiture of this property is in progress.

Fort Yukon Armory

Fort Yukon, AK 99740

1,200 Square Feet

State Owned

As of: May 30, 2019

Concept:

The Department is actively working on disposing of land, facilities, and properties that are no longer fulfill the Alaska Army National Guard mission requirements. These assets are no longer fiscally supported by National Guard Bureau. The transfer of ownership are being completed in accordance with Federal laws and National Guard Bureau regulations.

Advantages:

1. Department will no longer be responsible for the cost to operate the facility.
2. Department will no longer have insurance or liability costs associated.
3. Assets being divested are being transferred to the appropriate entities within the community, to be benefited by citizens of Alaska.

Disadvantages:

1. None known.

Expected benefit:

Once facility is removed from the site, the land will be available for use.

Department: Military & Veterans Affairs

Divestiture of this property is in progress.

Gambell Armory

Gambell, AK 99742

2,720 Square Feet (3 buildings)

State Owned

As of: May 30, 2019

Concept:

The Department is actively working on disposing of land, facilities, and properties that are no longer fulfill the Alaska Army National Guard mission requirements. These assets are no longer fiscally supported by National Guard Bureau. The transfer of ownership are being completed in accordance with Federal laws and National Guard Bureau regulations.

Advantages:

1. Department will no longer be responsible for the cost to operate the facility.
2. Department will no longer have insurance or liability costs associated.
3. Assets being divested are being transferred to the appropriate entities within the community, to be benefited by citizens of Alaska.

Disadvantages:

1. None known.

Expected benefit:

Save annual, deferred maintenance and utility costs.

Department: Military & Veterans Affairs

Divestiture of this property is in progress.

Holy Cross Armory

Holy Cross, AK 99602

1,500 Square Feet

State Owned

As of: May 30, 2019

Concept:

The Department is actively working on disposing of land, facilities, and properties that are no longer fulfill the Alaska Army National Guard mission requirements. These assets are no longer fiscally supported by National Guard Bureau. The transfer of ownership are being completed in accordance with Federal laws and National Guard Bureau regulations.

Advantages:

1. Department will no longer be responsible for the cost to operate the facility.
2. Department will no longer have insurance or liability costs associated.
3. Assets being divested are being transferred to the appropriate entities within the community, to be benefited by citizens of Alaska

Disadvantages:

1. None known.

Expected benefit:

Save annual, deferred maintenance and utility costs.

Department: Military & Veterans Affairs

Divestiture of this property is in progress.

Kaltag Armory

Kaltag, AK 99748

1,232 Square Feet (2 buildings)

State Owned

As of: May 30, 2019

Concept:

The Department is actively working on disposing of land, facilities, and properties that are no longer fulfill the Alaska Army National Guard mission requirements. These assets are no longer fiscally supported by National Guard Bureau. The transfer of ownership are being completed in accordance with Federal laws and National Guard Bureau regulations.

Advantages:

1. Department will no longer be responsible for the cost to operate the facility.
2. Department will no longer have insurance or liability costs associated.
3. Assets being divested are being transferred to the appropriate entities within the community, to be benefited by citizens of Alaska

Disadvantages:

1. None known.

Mountain Village Armory

Mountain Village, AK 99632

1,200 Square Feet

State Owned

As of: May 30, 2019

Concept:

The Department is actively working on disposing of land, facilities, and properties that are no longer fulfill the Alaska Army National Guard mission requirements. These assets are no longer fiscally supported by National Guard Bureau. The transfer of ownership are being completed in accordance with Federal laws and National Guard Bureau regulations.

Advantages:

1. Department will no longer be responsible for the cost to operate the facility.
2. Department will no longer have insurance or liability costs associated.
3. Assets being divested are being transferred to the appropriate entities within the community, to be benefited by citizens of Alaska

Disadvantages:

1. None known.

Expected benefit:

Save annual, deferred maintenance and utility costs.

Department: Military & Veterans Affairs

Divestiture of this property is in progress.

Noatak Armory

Noatak, AK 99761

3,816 Square Feet (3 buildings)

State Owned

As of: May 30, 2019

Concept:

The Department is actively working on disposing of land, facilities, and properties that are no longer fulfill the Alaska Army National Guard mission requirements. These assets are no longer fiscally supported by National Guard Bureau. The transfer of ownership are being completed in accordance with Federal laws and National Guard Bureau regulations.

Advantages:

1. Department will no longer be responsible for the cost to operate the facility.
2. Department will no longer have insurance or liability costs associated.
3. Assets being divested are being transferred to the appropriate entities within the community, to be benefited by citizens of Alaska

Disadvantages:

1. None known.

1. None known.

Expected benefit:

Save annual, deferred maintenance and utility costs.

Department: Military & Veterans Affairs

Divestiture of this property is in progress.

Old Geologic Materials Center

18205 Fish Hatchery Road, Eagle River
16,988 Square Feet (6 buildings on campus)
State Owned

As of: May 30, 2019

Department: Natural Resources

Concept:

The old Geologic Materials Center is a campus of 5 buildings. It has been replaced by a new facility in Anchorage and is no longer needed. A decision for a public and charitable (P&C) sale of the land and improvements to the Municipality of Anchorage (MOA) was issued March 1, 2019. The MOA must complete an appraisal within one year. The MOA plans to conduct a Phase II Environmental Site Assessment due to environmental liabilities.

Advantages:

1. P&C sale underway expedites sale
2. Public input generally favors P&C sale
3. Sale removes security or maintenance needs
4. Avoids possible asbestos/lead exposure

Disadvantages:

1. None known.

Expected benefit:

No more liability exposure for potential injury to trespassers.
Avoids complications from undocumented waste water and storm water systems.
Reduces liabilities from potential fuel contamination from former underground fuel tanks. Potential revenue from sale; appraisal of property is pending.

Old Fire Support Facility

South Big Lake Road, AK 99652

4,008 Square Feet (4 buildings on campus)

State Owned

As of: May 30, 2019

Department: Natural Resources

Concept:

The facility is an old fire support facility and is no longer used. One building is in poor condition and the other was burnt down. Forestry wants to retain an adjacent helicopter pad and data collection site. DNR is currently researching the project, the land may be disposed through DNR's normal land disposal methods, as-is and where-is.

Advantages:

1. No security or management concerns.
2. Reduces potential risk to human health.
3. Avoid possible asbestos/lead exposure.
4. Avoid environmental contamination liability.

Disadvantages:

1. Potential clean up costs.
2. Land may be devalued due to current state.

Expected benefit:

No more liability exposure for potential injury to trespassers.
Potential revenue from sale; requires appraisal
Resolves legal access issues pertaining to South Big Lake Road.

Chena River State Rec. Area

Mile 33, Near Two Rivers (Northeast of Fairbanks)

1,744 Square Feet (2 buildings on campus)

State Owned

As of: May 30, 2019

Department: Natural Resources

Concept:

Information is provided on this facility because it is underutilized in the winter and could be shared by another entity or possibly used by a private sector vendor to provide winter recreational opportunities. DNR plans to issue a concession RFP shortly. **Note:** This facility is within the Chena River State Recreation Area, a legislatively designated park under AS 41.21.490 and cannot be sold or disposed of without a statutory change by the legislature.

Advantages:

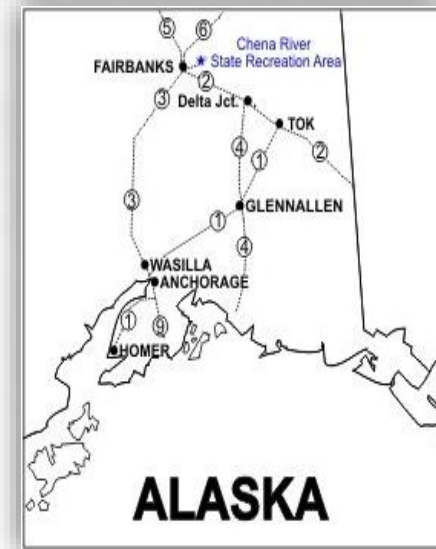

1. Better utilization of excess “capacity” at this facility.
2. Potential revenue to the State.
3. Concessionaire responsible for minor maintenance.
4. Four season recreation opportunities for all users.

Disadvantages:

1. Additional staff time required to manage concession contracts & oversight.
2. Potential conflicts between Park Operations and concessionaire operations.
3. Requires statutory change to dispose.

Expected benefit:

Potential revenue to the State if DNR is able to share costs with another entity.

Northway Rural Trooper Housing

1260 Alaska Highway, Northway, AK 99764

1,200 Square Feet

State Owned

As of: May 30, 2019

Department: Public Safety

Concept:

Northway Rural Trooper Housing is a state owned facility. Dept. of Public Safety (DPS) has transferred the PCN to Tok. DPS shall provide services in Northway from Tok DPS post. As a result, DPS does not need the trooper housing facility.

Advantages:

1. Reduce maintenance costs to protect the asset.
2. Reduce utility costs to keep the house in habitable condition.
3. Reduce disaster damage liability costs.

Disadvantages:

1. Loss of potential housing facility to support any future trooper housing needs. Reduce utility costs to keep the house in habitable condition.

Expected benefit:

Save annual, deferred maintenance and utility costs.

Former Trooper Housing

Ft. Yukon, AK 99740

1,632 Square Feet

State Owned

As of: May 30, 2019

Department: Transportation & Public Facilities – Northern Region

Concept:

The Former Trooper Housing Building in Ft. Yukon burned down approx. 10 years ago and the lot remains vacant. The NR ROW section is currently undergoing discussions on vacating this property.

Advantages:

1. Dispose of property not currently being used thus removing any potential liability from the State.
2. Other City or Tribal entities are interested in the property and would allow them to utilize it for their intended use.

Disadvantages:

None known at this time

Expected benefit:

Stop paying risk management fees for the site as it is not utilized.

Cold Storage

Aniak, AK 99557
1,920 Square Feet
State Owned

As of: May 30, 2019

Concept:

Very old building that is no longer needed for operations. A new 8,100 SF maintenance station was constructed in 2007. *Building being demolished as part of current project in Aniak.*

Advantages:

1. Remove buildings from inventory

Disadvantages:

1. None

Expected benefit:

Reduction in liability and any unnecessary maintenance efforts associated with unused building.

Department: Transportation & Public Facilities – Central Region

Old DOT Shop

Gustavus, AK 99862
3,900 Square Feet
State Owned

As of: May 30, 2019

Concept:

The old DOT&PF M&O shop in Gustavus is collapsing. Currently this building is being used as dry storage for misc. items. Alternate storage is available.

Advantages:

1. Safety of employees
2. Avoid unstable facility

Disadvantages:

1. Less storage space
2. Alternate storage is outside
3. Unknown demo costs with potential HAZMAT or Asbestos

Expected benefit:

Reduction in liability and any unnecessary maintenance efforts associated with unused building.

Department: Transportation & Public Facilities – South Coast Region

Maintenance Shop

5148 N. Tongass Highway, Ketchikan, AK 99901
5,300 Square Feet
State Owned

As of: May 30, 2019

Department: Transportation & Public Facilities – South Coast Region

Concept:

Southcoast Region currently occupies two locations for three components within the region which includes M&O, Construction and SEF. The Construction office has been a trailer which has deteriorated beyond repair and it is not in an acceptable condition employees should be working in.

Co- locating all three within vacant space located at the AMHS Engineering building will reduce costs for both Southcoast Region and AMHS and will provide staff adequate working conditions.

Advantages:

1. Reduced operating costs by sharing facility operations across three areas.
2. Improved efficiencies having M&O, Construction and SEF in one location.
3. Improved working conditions for staff

Disadvantages:

1. Unknown start up costs.
2. Disposal of previous location could contain Hazmat or Asbestos

Expected benefit:

Unknown operating savings will be realized however there is the assumption a savings will occur.

Utilizing existing space and reducing the building inventory.

Maintenance Shop & Warehouse

Ketchikan, AK 99901
4,430 Square Feet
State Owned

As of: May 30, 2019

Department: Transportation & Public Facilities – South Coast Region

Concept:

Southcoast Region currently occupies two locations for three components within the region which includes M&O, Construction and SEF. The Construction office has been a trailer which has deteriorated beyond repair and it is not in an acceptable condition employees should be working in.

Co- locating all three within vacant space located at the AMHS Engineering building will reduce costs for both Southcoast Region and AMHS and will provide staff adequate working conditions

Advantages:

1. Reduced operating costs by sharing facility operations across three areas.
2. Improved efficiencies having M&O, Construction and SEF in one location.
3. Improved working conditions for staff

Disadvantages:

1. Unknown start up costs.
2. Disposal of previous location could contain Hazmat or Asbestos

Expected benefit:

Unknown operating savings will be realized however there is the assumption a savings will occur.

Utilizing existing space and reducing the building inventory.

Cold Storage (Large and Small)

412 B Street Seward, AK 99664

1,800 SF and 140 Square Feet

State Owned

As of: May 30, 2019

Concept:

Buildings are 1930s era building and no longer needed for operations. They were decommissioned in 2014 after construction of a new Seward Highway Maintenance Station at Crown Point.

Advantages:

1. Remove buildings from inventory
2. Would remove a safety hazard.

Disadvantages:

1. Possible contaminated soil.
2. Possible Historic Building Preservation protocols.

Expected benefit:

Reduction in liability and any unnecessary maintenance efforts associated with unused building.

Department: Transportation & Public Facilities – Central Region

Old SRE Building

Kalskag Airport, AK 99607
1,104 Square Feet
State Owned

As of: May 30, 2019

Concept:

Building could be demolished. The building is no longer needed for operations and could be demolished. Maintenance has attempted to excess the building.

Advantages:

1. Removing 1,104 SF building from inventory

Disadvantages:

1. Possible contaminated soil.
2. Not a viable candidate for selling.

Expected benefit:

Reduction in risk management costs and liability. Reduction in unnecessary maintenance.

Department: Transportation & Public Facilities – Central Region

Equipment Storage

Red Devil Airport, AK 99656
800 Square Feet
State Owned

As of: May 30, 2019

Concept:

Building constructed in 1981. Building no longer needed for operations and is a candidate for possible disposal. A replacement new double SRE building was constructed in 2005.

Advantages:

1. Remove buildings from inventory

Disadvantages:

1. Possible contaminated soil.
2. Not a viable candidate for selling.

Expected benefit:

Reduction in liability and any unnecessary maintenance efforts associated with unused building.

Department: Transportation & Public Facilities – Central Region

Griffin Building

316 Mission Road, Kodiak, AK 99615
7,200 Square Feet
State Owned

As of: May 30, 2019

Department: Transportation & Public Facilities – South Coast Region

Concept:

The Kodiak Griffin building is only 56% occupied by the Department of Health and Social Services. All other tenants have vacated this location.

Advantages:

1. Savings in operational costs.

Disadvantages:

1. The Department of Health & Social Services would need to relocate approximately 2,647 square feet.

Expected benefit:

In FY2019 based on the approved lease rate methodology Southcoast Region collected \$35,299 in lease revenue for this building. It is estimated it will cost approximately \$62,000 to operate.

Kodiak Regional Office Building

211 Mission Road, Kodiak, AK 99615

10,440 Square Feet

State Owned

As of: May 30, 2019

Department: Transportation & Public Facilities – South Coast Region

Concept:

The Kodiak Regional building is only 56% occupied by the Department of Health and Social Services, Dept. of Corrections, and Department of Labor . All other tenants have vacated this location

Advantages:

1. Savings in operational costs.

Disadvantages:

1. The occupying agencies would have to find another location for their offices.
Approximately 5,010 square feet.

Expected benefit:

In FY2019 based on the approved lease rate methodology Southcoast Region collected \$57,837 in lease revenue for this building. It is estimated it will cost approximately \$101,000 to operate.

Telephone Hill Property

Juneau, AK 99801
State Owned

As of: October 15, 2019

Department: Transportation & Public Facilities – South Coast Region

Concept:

1971 The Alaska State legislature authorized funds to purchase Telephone Hill properties.

1983 CBJ entered into a Cooperative Use Agreement with the State to acquire properties on Telephone Hill for the purpose of a new capitol building. CBJ input was \$2 million.

1984 DOT&PF ROW acquired 15 properties for \$4.6 million; all but one of which was through condemnation.

The construction of a new capital building complex has never materialized, DOT& PF has been tasked with the management of the property, structures, and tenants since the property was acquired. This was intended to be an interim arrangement but has become very long term.

The plan for the use of this state owned property needs to be reevaluated.

Advantages:

1. DOT would no longer need to manage the properties.
2. Current condition of residential properties are less than ideal and require potential expensive repairs (i.e. roof replacement, electrical and asbestos remediation)

Disadvantages:

1. Possible lengthy litigation if disposed of
2. AS 35.20.070- land may revert back to original owners.
3. Details of cooperative use agreement with CBJ would need to be addressed. The State will be obligated to pay CBJ \$6.4 million
4. Available land in downtown Juneau is scarce, disposal of this property would reduce options available to the state to expand its facilities in Juneau in the future.
5. The probable loss of the resource, including the initial investment and legal fees.

Expected benefit:

DOT&PF Property Management will no longer be tasked with overseeing the properties. This is a prominent location in Juneau . The property is potentially high value and may be underutilized in its current configuration. Disposal may lead to development and use of the property for something that has more value to the state and/or the community.

Old Power Plant

Takotna, AK
State Owned

As of: October 15, 2019

Concept:

This facility is an old, abandoned power plant. It is no longer operational and not in use.

Advantages:

1. DOT would no longer need to manage the properties.
2. Reduce overall risk associated with property and reduce liability concerns.

Disadvantages:

1. Possible contaminated soil on the property.

Expected benefit:

DOT&PF Property Management will no longer be tasked with overseeing the properties and will reduce overall cost and liability for the department.

Department: Transportation & Public Facilities – Central Region

Old Maintenance Shop

Takotna, AK
State Owned

As of: October 15, 2019

Department: Transportation & Public Facilities – Central Region

Concept:

This facility is an old maintenance shop that is no longer used by the Department of Transportation & Public Facilities. This facility can be removed from inventory.

Advantages:

1. DOT would no longer need to manage the properties.
2. Reduce overall risk associated with property and reduce liability concerns.

Disadvantages:

1. Possible contaminated soil on the property.

Expected benefit:

DOT&PF Property Management will no longer be tasked with overseeing the properties and will reduce overall cost and liability for the department.

SRE Building #1

Nikolai Airport, AK
State Owned

As of: October 15, 2019

Department: Transportation & Public Facilities – Central Region

Concept:

This building was relocated off airport property and is being used by the City of Nikolai. It should be formally transferred to the City and removed from the State of Alaska inventory.

Advantages:

1. Public records would reflect accurate owning agency.

Disadvantages:

None identified.

Expected benefit:

DOT&PF Property Management will no longer be tasked with overseeing the properties and will reduce overall cost and liability for the department.

Aviation Storage

Koliganek Airport, AK
State Owned

As of: October 15, 2019

Department: Transportation & Public Facilities – Central Region

Concept:

This building is unknown to Central Region. They believe they only own a SREB in this location.

Advantages:

Disadvantages:

Expected benefit:

SRE Building #1

Chauthbaluk Airport, AK
State Owned

As of: October 15, 2019

Department: Transportation & Public Facilities – Central Region

Concept:

This is an old airport equipment storage building that has been replaced by a new building and is no longer required for airport maintenance services. It is on airport property so the building must be moved or demolished.

Advantages:

1. DOT would no longer need to manage the properties.
2. Reduce overall risk associated with property and reduce liability concerns.

Disadvantages:

Possible contaminated soil.

Expected benefit:

DOT&PF Property Management will no longer be tasked with overseeing the properties and will reduce overall cost and liability for the department.

Property Disposal Directive Report

Department of Transportation & Public Facilities

Division of Facilities Services

Appendix C

High Level Guidelines for Divestment:

Per the State of Alaska, Property Control Manual, the Department of Administration holds the responsibility for the disposal of excess buildings with the following exceptions:

- Buildings on airport land under the authority of the Department of Transportation and Public Facilities (AS 02.15.060-070).
- Buildings acquired by the Department of Transportation and Public Facilities from the acquisition of land for highway projects (AS 19.05.070).
- Buildings under the authority of the Department of Education and Early Development (AS 14.07.030).
- Buildings classified as improvements to state owned land (AS 38.05.035) unless prior approval is granted by the Department of Natural Resources, Director of Lands.
- Certain buildings constructed with federal funds or a combination of state and federal funding. For example, DMVA must follow federal agency guidelines to determine how a building is divested and who may benefit.
- Alaska Housing Finance Corporation

Excess buildings remain the responsibility of the excessing department until the disposal is complete or the building is transferred to another state agency.

Departments wishing to dispose of their facilities should complete the Electronic Property Form. The link is shown below for reference. In addition to completing the online form, additional corresponding IRIS forms will be completed.

<https://www.jotform.com/70934998395174>

Departments should be prepared to provide the following basic information about the facilities they wish to dispose of:

- | | | |
|--|---|--|
| • Legal Description of Property | • Location of keys and contact information. | • Maintenance and Utility Records |

| • Maintenance and Utility Records | • Photographs of the property/buildings. | |

Once a building is declared excess by a department, it may not be further used, cannibalized, or moved from its reported location without prior written approval from the State Property Manager.

Excess buildings will be reviewed for state Executive Branch use prior to disposal unless direct disposal is determined to be in the state's best interest by the Department of Administration. Disposal of properties outside of state governments must be approved by the Commissioner of the Department of Administration or approved designee. Once the approval is obtained the sale or disposal becomes the responsibility of the Property Management Office.

Department	Region	Building Name/Description	Address	City	State	Zip Code	Gross SF	Estimated Value	Property Disposal	Justification	If you selected other, please describe:	Original Comments
