Department of Corrections

Mission

We provide secure confinement, reformative programs, and a process of supervised community reintegration to enhance the safety of our communities. AS 44.28.020

Measures by Core Service (Additional performance information is available on the web at https://omb.alaska.gov/results.)

1. Secure Confinement

2. Supervised Release

3. Reformative Programs

Major Department Accomplishments in 2020

- Developed and deployed a department-wide COVID response plan by March 2020. This plan met, and in some cases, exceeded all of the Center for Disease Control (CDC) recommendations. This plan was fully deployed with the first positive case of COVID-19 within a facility in May 2020. It is updated regularly in accordance with CDC and Public Health guidelines and has helped guide the department through multiple outbreaks in facilities across Alaska. This plan is posted on the Department of Corrections (DOC) website.
- Negotiated three free weekly calls for inmates due to Novel COVID-19 and the suspension of visitation and contact within the institutions.
- Entered into a new contract for the Parkview Community Residential Center (112 beds) in Anchorage, to
 expand furlough re-entry opportunities to eligible prisoners and aid in population management amidst the
 COVID-19 pandemic. In the interest of public safety, the Sentenced Electronic Monitoring Unit was relocated
 to the Parkview Center providing Officer presence during business hours.
- Received large project delegation to directly oversee the Hiland Mountain Correctional Center Mental Health
 and Medical remodel project from the Department of Transportation / Public Facilities. With this delegation,
 DOC finalized the designs, issued contracts and began construction on the project which is expected to be
 complete in early spring 2021.
- Entered into agreements for the reopening of the Palmer Correctional Center with the Department of Transportation / Public Facilities (DOT/PF) to oversee the necessary maintenance, repairs and renovations associated with the reopening. According to DOT/PF, contracts are in place with construction to be completed during FY2021.

FY2022 Governor Department of Corrections

- Recruited and processed more than 1,000 conditional hire approvals for various department vacancies (officer and support positions) which included; new applicants, promotional opportunities and transfers resulting in 271 new appointments during FY2020.
- As part of the recruitment process for Alaska Police Standards Council (APSC) certified positions, processed more than 780 APSC backgrounds for new correctional (CO) and probation (PO) officer applicants of which 135 applicants passed all background, psychological and medical testing phases and were appointed into a vacant CO or PO position during FY2020.

Secure Confinement:

- Manufactured over 200,000 cloth masks for distribution to all DOC prisoners and employees; all regional jails
 and halfway houses; other state employees including the court system and children interacting with the Office
 of Children's Services; schools around the state; the Special Olympics; and several communities that
 requested assistance. The mask project has been a major factor in stopping the spread of COVID-19 in
 Alaska.
- Continued to offset correctional facilities food costs, donated excess produce to multiple charitable organizations, and supported a Heart Healthy diet for prisoners through produce production at Point McKenzie Correctional Farm (PMCF) and Wildwood Correctional Center (WCC). PMCF actively farms one square mile of land, producing approximately 1,604,044 lbs of fresh vegetables and saving DOC over \$400,000 in food costs annually. In addition, PMCF donated approximately 124,000 lbs of produce to charitable organizations in FY2020. WCC operates a greenhouse and hydroponics project, yielding approximately 5,000 lbs of food and saving nearly \$13,000 dollars annually.

Reformative Programming:

• The department continued to manage the \$1 million Second Chance Grant for Reentry which provides in-reach and case management services to releasing offenders. Offenders releasing to Anchorage, Juneau, Fairbanks and the Mat-Su Valley are connected with specially trained Reentry Probation Officers inside the institutions who assist them with releasing planning. Upon release, their individualized reentry plans are transferred to a Reentry Probation Officer in the field.

Supervised Release:

- During FY2020 the Alaska Court System postponed many hearings due to the Novel Covid-19 pandemic and, when appropriate, directed defendants to Pretrial Supervision in efforts to keep defendants out of a congregate setting (i.e. jail). During this timeframe, defendants on pretrial supervision increased by 16.6%, defendant's on pretrial electronic monitoring increased by 31.8% and made up 55% of the overall pretrial population. It is important to note that the department successfully monitored this significant increase in workload without additional resources and without jeopardizing public safety.
- Completed updates in the Alaska Corrections Offender Management System (ACOMS) module as part of the
 changes due to HB49 legislation and needs of the division. This included changes in regard to Earned
 Compliance Credits (ECC), the Pretrial Enforcement Risk Assessment Instrument (AK-2SR), the Inter-Rater
 Reliability email notification, Pretrial desktop report and the addition of the domestic violence tracking report
 and Pre-Sentence Investigation listing report. Continue to coordinate efforts with stakeholders of other
 criminal justice agencies and departments to help maximize the effectiveness of these changes and
 requirements.

Key Department Challenges

Secure Confinement:

FY2022 Governor Department of Corrections

- Recruitment and retention of well-trained staff to maintain safe and secure facilities
- Delivery of essential mental health services to keep up with the rise in acuity and increase in the number of incarcerated mentally ill
- Containment of health care costs for an aging offender population, increased chronic health conditions, and increased acute cases
- Elimination of contraband and drug use within prisons to address overdoses and commensurate need for medical attention
- Identify and implement prison industries programs for job skill development and rehabilitation programming
- Maintenance and upkeep of aging correctional facilities and obsolete security systems

Supervised Release:

- Recruitment and retention of well-trained staff to maintain public safety and successful offender reentry
- Increase the number of applicants for special medical, discretionary, and early parole termination
- Increase eligibility of offenders for community placement who are currently limited by regulation, policy and municipal ordinances
- Expand the number of applicants for housing assistance under the Tenant-Based Rental Assistance Program
- Elimination of contraband and drug use within the Community Residential Centers to maintain stable transitional housing for offenders releasing to the community
- Increase Community Residential Centers and Electronic Monitoring placements

Reformative Programs:

- Recruitment and retention of well-trained providers to meet offenders' reformative needs for successful reentry and reduced recidivism
- Identify, coordinate and implement prison industry programs to provide job skills development and rehabilitation for the productive engagement of offenders while incarcerated
- Transitioning offenders from institutional treatment programs to limited community based treatment options and referrals, including community residential center beds, sex offender management programs and treatment providers, and residential substance abuse after care programs
- Ensure the department is providing habilitative programs that aid offenders with successful reentry into Alaska's communities; and
- Identify, develop, and modify all offender programs to ensure the department is providing recognized evidence-based practices in both institutional and community settings

Significant Changes in Results to be Delivered in FY2022

Administrative Services - Establish 2 Internal Audit & Review Positions

Risk management and internal controls are essential to State government. These positions will provide quality assurance and persuade the overall integrity of the Department's internal controls and fiscal procedures. They will perform a full range of functions including analysis and recommendations of agency operations, internal management, fiscal, and accounting controls, as well as provide technical assistance to management on the application of policies and procedures.

Management is not always in the best position to provide skilled and impartial opinions on internal controls; however, fully qualified internal auditors are well positioned to provide valuable support and assurance to the department. These positions will assist management in fulfilling their responsibilities by bringing a systematic, closely controlled approach to assessing the effectiveness of the design and implementation of internal controls and risk management processes as opposed to utilizing existing staff members who have other responsibilities and who lack necessary training and experience.

Physical Health Care - Reestablish the Palmer Correctional Center (PCC) Medical Staffing

Restore six positions and funding decremented in the FY2021 Governor's Budget. These positions were decremented in efforts to realize savings through housing inmates in an out-of-state contract. The department cancelled the Request for Proposal and is moving forward with the reopening of the PCC resulting in these positions needing to be reestablished in the budget for medical services/support.

FY2022 Governor Department of Corrections

Community Residential Center - Increase Parkview Contract 112 Beds

A policy determination was made in FY2020 which resulted in terminating the out- of-state RFP and reopen the Palmer Correctional Center and Parkview Community Residential Center (CRC) increasing the number of community placements by 112 beds to assist the Department in managing the in-state offender population.

With the increasing population, these beds provide a viable alternative to institutional "hard" beds and allows an offender to be monitored within the community. This also gives the offender the opportunity to be employed, meet family and financial obligations, and is a source for reintegrating offenders back into society.

Electronic Monitoring - Add GPS Tracking for Community Residential Center (CRC) and Pt MacKenzie Correctional Farm (PMCF) Placements

Add additional authority to allow for the use of GPS tracking of up 389 offenders placed in the Cordova or Parkview CRC and the PMCF. This request is specific to Electronic Monitoring efforts to expand and add the GPS monitoring and would be used to support track those placements and will enhance public safety by utilizing available technology and allow the department to monitor an offender's location in real time while they are transitioning back into the community.

Consolidate the Community Residential Center (CRC) and Electronic Monitoring (EM) components into the Population Management RDU

In FY2020 the department's CRCs and EM components were moved from the Population Management RDU to stand alone single component RDU's. The creation of these two units to stand alone further complicates the management of the budget by restricting the department's ability to move funding between those functions and other units within the Population Management to meet where the offenders are housed and where the costs are incurred resulting in the inability to make the best use of funds. Transferring CRCs and EM back to Population Management will enable the department to better manage the inmate/offender population as a whole and meet the expenditures associated with where offenders are housed. Offenders move through the system with a great deal of fluidity. They can transition from pretrial, to an institution, to a CRC, back to an institution, to EM and parole. Maintaining the flexibility to move funds to where the offenders are housed is a priority to be able to meet the overall expenditures of the department.
