FISCAL NOTE ANALYSIS

STATE OF ALASKA
2021 LEGISLATIVE SESSION

BILL NO. HB 5

Analysis

House Bill 5 reclassifies and redefines certain conduct as sexual abuse of a minor in the first and second degrees depending on the specific conduct and the age difference between the offender and the victim (secs. 1-2), adds a new definition of "consent" that will apply for sexual assault cases (secs. 3-4), makes that new definition apply in other offenses involving sexual crimes (secs. 5-7), and shortens the time period within which a law enforcement agency must ensure that a test is conducted on a sexual assault examination kit (sec. 8).

The court system anticipates that the changed definitions, and the broader scope of conduct that may be included in the definition of sexual assault crimes, may lead to an increase in the number of sexual assault cases that are filed with the court, and also will lead to an increase in the number of felony sexual assault trials. The increases in filings and trials in felony sexual assault cases is expected to occur in the areas of the state where the number of sexual assault cases is higher, which can involve areas of the state that cause increased jury costs for the court system.

Though House Bill 5 is expected to change the number of sexual assault case filings and trials, the amount that it will affect the court system's workload and costs is not able to be determined. The court system therefore submits this indeterminate fiscal note.
