

ALASKA STATE SENATE

Explanation of Changes of CSSB 27 (L&C) Version A to B “Alaska Grown Industrial Hemp”

Page 3, lines 9 through 15 :

Amends AS 03.05.010(c) to allow that the Commissioner of the Department of Natural Resources may issue a stop sale order to a person found to be producing industrial hemp over 0.3 percent delta-9-tetrahydrocannabinol. Previous language was overly restrictive and did not allow the department to work with a good actor to recondition their crop. The new language allows the department to determine whether someone was acting in good faith or not prior to issuing the stop order.
