2. 'Earnings' reflect wages paid to the claimant in the first four of the last five completed calendar quarters before the claimant files.
3. Under Federal Pandemic Unemployment Compensation (FPUC), eligible individuals received an additional \$600 per week in benefits between March and July 2020, and additional \$300 per week in benefits starting in January 2021.
4. 'Average wage replacement' is calculated by dividing the weekly benefit amount by the average weekly wage from the previous year.

NOTES

1. 'Total dollars paid' includes Regular Unemployment Benefits and federally-funded Extended Benefits. It does not include federally-funded Pandemic Unemployment Assistance (PUA).

2. 'Earnings' reflect wages paid to the claimant in the first four of the last five completed calendar quarters before the claimant files.

3. Under Federal Pandemic Unemployment Compensation (FPUC), eligible individuals received an additional \$600 per week in benefits between March and July 2020, and additional \$300 per week in benefits starting in January 2021.

4. 'Average wage replacement' is calculated by dividing the weekly benefit amount by the average weekly wage from the previous year.
