**To:** Rep. Kevin McCabe  
**Subject:** Front license plates

I fully support removing the requirement for a front license plate. In my opinion it is not a useful tool any longer and given the fact it will reduce state spending I am all for it. Thank you

Mel Roe

Yay!! No front license plate. You have my support!

My XK8 Jaguar does not have a place to put a license plate, and would ruin the pristine front Jag nose with drilled holes and blocking the airflow!!
