Approved By:	Leslie Isaacs, Director	Date:	02/12/21
Agency:	Office of Management and Budget		

## FISCAL NOTE ANALYSIS

STATE OF ALASKA  
2021 LEGISLATIVE SESSION**Analysis**

This proposed legislation will allow the Division of Risk Management (RM) to reduce costs by increasing the maximum reserve level for the Catastrophic Reserve Account. This change will enable RM to self-insure property loss, which is estimated to save \$3 million in the first year and up to \$6 million within four years.

In FY2021, the State experienced a 30% increase in its property loss premiums and is expecting another 5-8% increase for FY2022 unless changes are made. In response to these increasing property premium costs, RM conducted an analysis of the past ten years of claims and developed an average cost per year for anticipated claim costs. Based on this analysis, RM determined that self-insuring property losses would result in a savings of \$3 million per year and increase to up to \$6 million per year by fiscal year 2025 depending on actual claim experience.

The State cannot self-insure property without an adequate balance in the Catastrophe Reserve Account (CRA) to cover potential losses. This legislation will increase the maximum allowable fund balance in the CRA to \$50 million which gives RM the safety net necessary for large unexpected losses while also allowing flexibility in managing claims resulting in better management of property losses. The CRA balance is currently capitalized by operating budget appropriations of lapse balances at the end of the fiscal year.

RM's budget authority is based on inter-agency billing to other departments. The savings enabled by this legislation will result in reduced RM charges to other agencies.
