Northern Region Winter Storm Event

On April 2, 2021, Northern Region experienced an unprecedented winter event that the National Weather Service reports set a new record for the most snow fall in a single event during the month of April and is the second-highest snow fall event on record for the area. This event resulted in 12-22 inches of snowfall within approximately 48 hours, followed by unseasonably high winds. This caused extreme drifting, avalanches, closed several roadways, and put many of DOT&P's roadways in a very difficult or hazardous driving condition. The temperatures at the time of the event hovered around 32 degrees, making the snow composition high in moisture content.

Following the heavy snowfall and high winds, temperatures dropped significantly within 24 hours to well below zero, freezing much of the remaining snow and ice to the roadways. This caused additional safety concerns for traveling public and made it incredibly difficult to remove. In order to promptly respond to this event, address roadway safety, and return the infrastructure to pre-storm condition (including protecting infrastructure from damage during spring thaw), the region was required to leverage additional resources (materials, overtime, and contractor services).

GA 218 4/20 Airport Security Plan Federal FAA CARES Funds

This Federal authority will allow the utilization of FAA CARES revenue for operational updates to the Airport Security Plan (ASP), for the departments' 15 Category III rural airports (jet passenger service), which is ineligible for standard AIP funding as it is operational in nature. The Transportation Security Administration requires the department to update these plans.

Tasks include:

- a standardized, statewide ASP template
- six fully rewritten ASPs (Gustavus; Petersburg; Wrangell; Yakutat; Sitka; and Dillingham)
- nine updated ASPs (Adak; Kodiak; King Salmon; Bethel; Barrow; Cordova; Nome; Kotzebue; and Deadhorse)
- the creation of two security guidebooks, one for airport tenants and one for leasing staff training

- training

Fire Suppression, Land & Water Resources

Mining, Land & Water

GA 217 4/1 Advancing State's Rights in Navigability and
Revised Statute 2477 (FY22-24)

Advancing State's Rights in Navigability and RS2477 (Revised Statute 2477) is focused on maximizing Alaskans' access to, and use of, the lands and natural resources of our state. This strategy/initiative will advance state sovereignty by advocating for and protection of the rights the State acquired at statehood, review of federal land use plans and rulemaking to ensure State projects and access to our resources remain on track.

Division of Mining, Land & Water (DMLW) intends to accomplish this strategy/initiative of managing uplands, developing resources and increasing Alaskans ownership of land consistent with the unique federal and state laws by focusing on:

- Filing additional Recordable Disclaimer of Interest (RDI) applications for navigable waters with the Department of Interior to highlight how significant their backlog and delay of these actions has been. These will target high profile navigable waterways crossed by the A2A Rail (Alaska-Alberta) project and along the Amber road route, for example.
- Engaging with the Delegation to request a prioritization of significant resources ostensibly allocated to these purposes in the federal budget, of which the State has seen no results.
- Litigation in both new and ongoing matters, where the State can continue to push to expand the existing legal precedents confirming state ownership of submerged lands.
- Undertaking an effort to require and secure state permits for federal activities on submerged waters, confirming State ownership.
- Providing comprehensive and detailed information to the public about the status of navigable waters (public service announcements, online maps, etc.), and how to work with the State to secure their access rights.
- Participating in federal land planning processes and conducting state land planning processes to assert and describe state management intent for submerged waters.

In order to accomplish these goals, DMLW will need three full-time positions, their focus will be:

- Provide for more aggressive field work and data gathering, assertion of management rights by undertaking efforts to require and secure state permits for federal actions, documentation of state-owned waterbodies and support the increased workload for advancing state's rights via navigability and RS 2477 work within the department.
- Provide support and subject matter expertise to the Program Support Section by assisting with federal rulemaking and plan revisions, federal coordinated reviews, a single point of contact on behalf of all 16 sections of the Division for large project coordination in the Office of Project Management and Permitting (OPMP), regulation packages, training, and support to the entire division.
- Provide support the increased workload in advancing State's rights for navigability and RS 2477 work within the department. The Public Access Assertion and Defense Unit (PAAD) has maintained a recurring Reimbursable Service Agreement (RSA) with the Office of History & Archaeology (OHA) for Historian work on these issues. Attaining this position on the PAAD Unit Team will be a more effective approach in managing staff working on RS 2477 matters and preserving public access to lands and resources and enable the State to meet its constitutional mandate to make its resources "available for maximum use consistent with the public interest."

In addition to personal services costs, contractual costs will be necessary for navigability and RS2477 field work, data gathering, assertion of management rights, documenting state-owned waterbodies and RS2477 trails, and a more extensive use of 3rd party technical and legal experts to successfully secure federal court rulings and

Oil and Gas Tax Credit Fund

Credit Fund

The Governor's FY 2022 budget included the full statutory \$60 million for oil and gas tax credits under the Fall 2020 revenue forecast oil price of \$48, using ADEA receipts as a fund source. The Spring 2021 forecast price of \$61 results in an increase to the statutory calculation for oil and gas tax credits to \$114 million. This amendment removes the \$60M from ADEA receipts and appropriates the \$114M with general funds.

A statutory formula, AS 43.55.028(c), provides a calculation for the deposit to the oil and gas tax credit fund. The calculation is based on a share of taxes levied under AS 43.55.011, the production tax statute, and calculated at 10 percent of revenue when the Alaska North Slope (ANS) price for the fiscal year is forecast at \$60 per barrel or higher and 15 percent of revenue from taxes levied when the ANS price for the fiscal year is forecast at below \$60 per barrel. The oil and gas tax credit fund is used to purchase transferable production tax credits and certain corporate income tax credits.

* Sec. 22. FUND CAPITALIZATION. (x) The amount equal to 15 percent of all revenue from taxes levied by AS 43.55.011 that is not required to be deposited in the constitutional budget reserve fund (art. IX, sec. 17(a), Constitution of the State of Alaska) estimated to be \$114,000,000 [\$50,000,000], is appropriated from the general fund (receipts of the Alaska Industrial Development and Export Authority (AS 44.86)) to the oil and gas tax credit fund (AS 43.55.029).

Longrange
Adopted

1. Ensure all supplementals and reappropriations have appropriate effective dates
- Sections 4 through 27 should have an immediate effective date, with the exception of the following reappropriations that should have a 6/30/21 effective date:

- Sec. 11
- Sec. 20
- Sec. 34(h), RPLs for community direct payments
- Sec. 35 DOC federal man-day carryforward
- Sec. 36(b) DEED grants to educational entities and nonprofit and nongovernment organizations
- Sec. 45(m)(2) Medicaid reappropriation for School Bond Debt
- Sec. 47(i) Medicaid reappropriation for REAA

2. Add supplemental section for Insurance (matches Sec. 6 from the Governor's fast-track supplemental HB 68).
3. Change Section 26 (Community Block Grants) to an estimate and match the Governor's request (instead of "not to exceed")
4. Add section 7 (supplemental capital section) to capital lapse section
5. Remove erroneous transfer of \$47,200 from numbers section associated with DHSS split
6. Remove inadvertent double funding of Blood Bank Grant (\$2,300 UGF from Numbers section)
7. Corrected AHFC Dividend funding in FY21 to avoid \$16,100 over-appropriation

AMENDMENT

Offered in: Finance Committee By: Rep. Rasmussen
To: HB 69

Fiscal Year:
FY21 Supplemental

Agency:
AIDEA

Project:
Large Energy Project Study (Statewide IID 1-40)

Amount:

\$5,000,000

Funding Source:

AIDEA Rept (1102)

Explanation:

Understanding the current state of energy production, transportation, and consumption in rural Alaska, a long-term, viable, cost effective solution to those challenges must be found.

Alaska needs a statewide energy vision, plan, and implementation strategy that incorporates a holistic view of statewide energy sustainability which serves all Alaskans similarly. The interconnection of rural communities into regional electrical transmission grids develops economies of scale, creates efficiencies, reduces redundant infrastructure costs, and develops a greater potential for alternative energy projects.

Nearly 80% of rural communities are dependent on diesel fuel for their primary energy needs. In order to mitigate the high cost of energy in rural Alaska, dependency on diesel consumption must be reduced through increased efficiencies and utilization of economically viable alternatives.

Alaska should strive to eliminate the need for the Power Cost Equalization Program by reducing the electric rates paid by rural consumers.

Linkage: Allocation - Correctional Academy

Wordage

It is the intent of the legislature that the new position created in this allocation be an experienced Correctional Officer who works consistently and extensively with the Recruitment and Retention unit. While the position may also be available to perform training duties or to work in Correctional Institutions during vacancies or emergencies, the purpose of the FY22 increment is to add to the Recruitment and Retention team an individual with current experience as an Alaska Correctional Officer. If the position description and classification cannot achieve that purpose, it is the intent of the legislature that the position will remain unfilled and the funding unspent.

Explanation

The department has a significant Correctional Officer vacancy problem that results in excessive overtime expenditure and security challenges, which also contribute to morale and retention difficulties.

The addition of an experienced Correctional Officer to the Recruitment and Retention team will contribute significantly to recruitment success.

The legislature created the Recruitment and Retention unit in FY21 with three positions which the department filled as an Administrative Officer and an Administrative Assistant with the remaining \$65.0 Personal Services funds directed to revolving, temporary duty assignments of Correctional Officers, Probation Officers, healthcare and other staff to assist with job fairs and outreach to those applicant groups.

2021 Session Operating Budget Amendment

This amendment is proposed in the belief the team will benefit from the addition of a Correctional Officer who has personal experience working in Alaska institutions. If the position description and classification process prevent use of a Correctional Officer in this role, the purpose of the increment will not be achieved and the \$137.0 UGF funding should lapse unspent.

H DEC 3 - Fund Change for Shellfish Funding

Offered by Representative Rasmussen
Replace Commercial Passenger Vessel Environmental Compliance (CPVEC)
fees with a combination of Undesignated General Fund and Designated
General Funds.

This proposal recommends a 50/50 split between GF and DGF.

The current use of the CPEVC for shellfish testing is not a designated use of the
fund. Shellfish and shellfish growing waters would require testing whether or not
there was a cruise ship industry, and the tests are required regardless of
whether there is nearby cruise ship activity.

Agency: Department of Fish and Game

Sport Fisheries

H DFG 1 - Funding for Crystal Lake and
DIPAC Hatcheries.

Adopted
Offered by Representative Ortiz

Crystal Lake hatchery is contracted by the Department of Fish and Game. It previously received a portion of funds generated by the sport fish license surcharge that was created to pay off the bond debt obligation for the construction and maintenance of two state owned hatcheries. This surcharge sunset in 2020 and a new bill to reinstate it is making its way through the Legislature. The Department reports that this legislation, if passed this year, could potentially generate over \$5 million in additional Fish and Game fund revenue for Sport Fish in FY22.

DIPAC Hatchery suffered considerable loss of stock due to system failures caused by storms this past winter. Of this funding, \$150.0 is intended for DIPAC to help recoup any additional operating expenses they incurred because of this.

There is an ample amount of funds in the Fish & Game fund to cover this one time increment.

Offered By: Representative Rasmussen

Agency: Health & Social Services

Appropriation: Children's Services

Allocation: Front Line Social Workers

Transaction Details

Title: Recruitment and Retention Intent Language

Wordage Type: Intent

Linkage: Allocation - Front Line Social Workers

Wordage

It is the intent of the legislature that the department establish a recruitment and retention incentive plan and adopt a termination of service agreement for an Office of Children Services employee's recruitment or retention incentive payment.

Explanation

Funding was added in the HSS Subcommittee process to address critical and longstanding problems with recruitment and retention of caseworkers in the Office of Children's Services by adding targeted funding for retention bonuses, behavioral health support, and tuition reimbursement for caseworkers. This funding and corresponding intent language will help ensure longevity within the Office of Children's Services and provide the necessary sidebars to protect both the agency and employees.

For example, before receiving a recruitment or recruitment incentive, an employee must sign a written agreement to complete a specified period of employment with the agency. The service agreement must specify the length, commencement, and termination dates of the service period; the amount of the incentive; the method and timing of incentive payments; the conditions under which an agreement will be terminated by the agency; any agency or employee obligations if a service agreement is terminated (including the conditions under which the employee must repay an incentive or under which the agency must make additional payments for partially completed service); and any other terms and conditions for receiving and retaining a recruitment incentive. The agency may not commence a recruitment incentive service agreement while an employee receives

Adopted

Military and Veterans' Affairs

HMVA 1 - Restore Civil Air Patrol Funding

Offered by Representative Josephson
In FY21, the legislature funded the Civil Air Patrol at \$250.0 UGF, which was a decline from \$500.0. The Governor vetoed all FY21 funding. This amendment would restore the legislature's support for the Civil Air Patrol.

The Civil Air Patrol (CAP) is a nonprofit, volunteer organization and the official auxiliary of the United States Air Force whose primary purpose is search and rescue operations.

When conducting search and rescue as an asset of the Air Force or other federal agencies, the costs for the CAP missions are paid by those agencies.

The state appropriation will pay for utilities and insurance at facilities where CAP aircraft are stored and fuel for nonemergency operations such as proficiency flights for pilots and crew.

The Civil Air Patrol locates emergency beacons and assists in dozens of search and rescue missions in Alaska each year. CAP aircrews from the Alaska Wing provided aerial support and transport platforms to the U.S. Coast Guard during the Covid pandemic.

The relatively small amount of state funding provided through this amendment will support a significant volunteer contribution to the safety of Alaskans.

Funding

1004 Gen Fund	54,000.0
---------------	----------

Explanation

This amendment would provide the statutory minimum level of funding for the oil and gas tax credit fund, estimated to be \$114 million total, based on the 2021 Spring Revenue Forecasts updated projected per barrel oil price above \$60/bbl. The funding would come from AIDEA receipts and the General Fund. Funding at the statutory minimum ensures that the \$744 million of outstanding oil and gas tax credits available for state purchase

2021 Session Operating Budget Amendment
would be retired fully by FY2027.

2021 SESSION OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: HB 69 / HB 71

OFFERED BY: Rep. Carpenter

FISCAL YEAR: FY22

DEPARTMENT: Law
APPROPRIATION: Civil Division Except Contracts Relating to Interpretation of Janus v AFSCME

STRUCTURE: Restore title of Civil Division appropriation to "Civil Division"

EXPLANATION: The agency has indicated that it is unlikely to expend substantial additional funds on outside contracts in relation to the interpretation of Janus v. AFSCME, so it is unnecessary to maintain this modified structure title.
