Since testimony for HB 202 is by invitation only there is no real opportunity for the public to come forward and speak before the House Ways And Means Committee concerning this bill.

I would like for you to consider the thoughts and feelings of those who you have been elected to represent. If you believe that each Alaskan wants a small PFD Distribution amount and will be well pleased with your decision you should support Representative Merrick's Bill.

Thank you,

I 100% reject to bill HB202 and stop the PFD theft.

When did our elected official get to chose for us and have the right to steal from Alaskan citizens ...

Sounds like we the people need to clean the house and get TRUE Alaskans that listens to the people ... not decide for the people and steal from the people ... remember who you work for ... the Alaskan Citizens ... not yourselves ... hear our voices!!!

Dear Senator,

I'll get straight to the point. I do not consent to your theft of our PFD funds. These monies were guaranteed to us as payment for our mineral rights and as such do NOT belong in the State budget in any way, shape, or form. The PFD has its own account that the monies are withdrawal from, yearly, to pay We The People. It is not paid with State tax monies. It is not a slush fund for you to abuse.

Please, vote NO on HB202. You were elected to represent the best interests of We The People, NOT the special interest groups many of you have sold your souls to. We are watching what you do. We are tired of being marginalized and taken advantage of. We will not tolerate this behavior much longer.

Represent The People,

Elaine Rasher

Dear Committee Members,

This bill has come to my attention. I am shocked and saddened to hear that not only is this bill being fast tracked but it is being rushed through WITHOUT public comment.

This is the Alaskan's fund for our mineral rights. You have already stolen from us Why would you elected representatives continue to try to legislate without comment of the public?

Stop this political wrangling. Be people of good character.

Find a new way to run the finances of the state. Perhaps actually CUT the budget?!
