Subject: House Bill 202

Chairperson Ivy Spunholtz,

I write to offer my comments in support of this legislation. For over 30 years I have actively worked through civic organizations to create a fiscal plan for the state of Alaska. While on the boards of the Anchorage Chamber of Commerce and Commonwealth North, I've supported an environment where there is predictability and sustainability

**Subject:** No to HB 37 & 202

Representative,  
Im are writing in opposition to HB 202 and HB 37.

HB 37 would establish an income tax to rob the people of Alaska and give their money to special interests--all because the Legislature and Administration have once again Failed to live within their means. We the people have to live within our incomes--without taking from others to do it. State government--the government of the people, by the people, and for the people must do the same!  
NO NEW TAXES!
