Dear Legislators,

Please vote YES on SB14 for Judicial Reform for Alaska.

SB 14 proposes many revisions to the way we select, evaluate, and retain judges in Alaska. I will change t how judges are chosen for the Court of Appeals and the District Courts. Right now, those positions can only be filled by choosing from a list submitted by the Alaska Judicial Council (AJC)

The AJC provides, in effect, a short list of 'insider candidates' which excludes qualified attorneys who are passed up because of their non-affiliation with the AJC or their conservative beliefs.

The Alaska Judicial Council is dominated by liberal lawyers who are selected by the Alaska Bar Association (ABA), a professional guild. Incredibly, the ABA members aren't required to be appointed by the governor or even confirmed by the legislature. Our current system gives a trade group of elite lawyers virtually unlimited power to control the Judicial Council, which in turn has unlimited power to control one-third of our government.

We shouldn't be surprised that Alaska has so many far-left judges who are full of contempt for the other two branches of government (not to mention conservatives) that are chosen by the people.

Please support SB 14 as it gives elected officials, chosen by the people, a greater voice in choosing judges, rather than the unelected and unaccountable Alaska Judicial Council.

Greetings Senator Reinbold,

As an Alaska resident and someone who truly cares about the government of our great state, I urge you to support SB14. For too long has the judicial branch of Alaska's government been an outlier, leaving constituents in the state scratching their head as to how these judges could pass down a continual stream of decisions that goes counter to the values and voice of the vast majority of people in our state.

Ultimately, a constitutional amendment is needed to remove the selection power of Supreme Court and Superior Court justices from the unelected, liberal trade organization, the ABA. It's crazy that this group was ever allowed to have to power to require our executive to select only their pet favorites. However, changing this process for District Courts and Court of Appeals, which is within the power of the legislature, is a step in the right direction. The ABA should serve in an advisory capacity only, just like any other private, trade group in the state.

I strongly support this action to make the rogue Alaska Judicial system accountable to the people

Very Respectfully,

Benjamin D. Hunt

I am a constituent of Shelley Hughes and have been a lifelong resident of Wasilla, Alaska. I support Senator Shower's bill, SB14. It is time to change the process of selecting judges so it includes more transparency and accountability by including the governor and state legislature. The Judicial Council has too much power. The power needs to transfer back to the people, and by passing it through the legislature, our voices can be heard through our elected leaders. That is what a representative government should do.

Thank you for your time and consideration. Please feel free to include my statement as public testimony for the hearing later today.

Thank you senators. Just like SB9, review of the judicial appointments and the judicial council is critical work of revamping and updating statutes, and the like, that have been needed it for a long time. I understand that it takes a lot of work. Hopefully a dent can be made on this critical issue this year.

I understand the alcohol and drug statutes took a long time. Hopefully judicial will not take so long, but I for one appreciate this long and hard work. I told Senator Micciche staff I thought a project like this was needed to come forward every few years, or one such project every session to be finished up in 3 or 4 sessions. I also think it should include a sunset clause for periodic audit and possible sunset.

I listened in to a judicial council or conduct session on zoom fairly recently. I think it was in January. After they voted to literally call the supreme court on the carpet and ask them to account for themselves, I was very surprised when Marla Greenstein said she would not merely send the invitation for them to come and discuss the subject with the council.

I believe that Judicial council could use some serious legislative direction for their work. Somehow it does not seem right that they can just flip off the public and act like dictators.

Again thank you for doing this housekeeping renovation work. Christine
