I support a full PFD following the traditional Permanent Fund dividend formula. I know it does not matter to you in any way shape or form that's why I'll also be voting for a constitutional convention in 2022. Congratulations you can will be known as the legislatures who screwed the people so bad we had to step in and rewrite our constitution.

F\*\*\* You very much Carrie Harris

P.S.

Alaska history is required to be taught in schools and they're going to be teaching who what and why the Constitution had to be rewritten. You guys are about to make history.

I haven't received a full PFD since 2016, 2017, 2018, 2019, 2020 and now we may not even get one in 2021?

It's really sad that what Alaska has been through with the pandemic we are really hurting Alaskans even more. When will the madness stop? My small family relies on that money, we actually use it for rent, utilities and school clothes and food, repairs etc. I'm sure a lot of other Alaskans would agree with me on that statement.

\$2350 per person in my small family would pay off debt we incurred during the covid shut down. As I didn't qualify for a lot of aid during that time and racked up credit cards for groceries and utilities, though I'm back to work I got behind.

Please please make a decision, give us our PFD

Thank you

It has come to a point where the voters have no other option than to clean "house." Due to your inability to provide the citizens of Alaska a reasonable PFD, it is time to vote everyone out of office. It's time to replace you with people who represent the all people, not just the very rich or the very poor.

Legislators:

I want you to pay Alaska residents a statutory PFD and pay back the PFDs that have been stolen from us the past several years.

I am 100% in favor of gutting govt spending. That is GUTTING, not just cutting. The govt in alaska is bloated and has no sense of fiscal responsibility.

The constitution is the law of the land, not appointed advisors. Quit trying to over reach your authority.

Stop trying to make Alaska like the lower 48. Things that work there DO NOT work here. Think like Alaska. Stop trying to be like DC.

Do a forensic audit of our elections. I want to know which members of the left AND right are subverting the will of the people.

I also want legislative sessions to be on the road system to keep you all from hiding from public scrutiny.

Stop the raid on the pfd! At the very least make half of it untouchable for government use. It should have been set aside for the people in the constitution long ago to keep you from stealing it. Those of you voting to take it from the people are going to go down in history as the worst legislators in Alaska history.

Committee,

I do think we should get our full PFD and the back pay for the last five years. We the working average class could use it to help us. I also think it could boost our economy in many ways because we would end up using within our community. So please think about what you guys are doing. And if anything I think you folks should leave it up to a people's vote, we deserve at least that..

Obviously, the government has taken enough from the Alaska residents, and proven to be irresponsible with their own budget, so why should they be trusted with the money that constitutionally belongs to the people?

The constitution is not a suggestion, it is the law and while you expect the residents to follow the laws, maybe you need to start setting an example and do the same.

Its time to put up or shut up. Do your job lawfully or resign your position. It really is just that simple!

Senators on the Finance Committee:

I was not able to call in today as I had to watch my youngest granddaughter. I did view the hearing later in the day. What deeply concerns me is all the misinformation in the public mind pertaining to the PFD. Unfortunately there probably isn't much that can be done to enlighten those folks on the truth. I do lay blame at the feet of legislators who campaigned and continue to insist on a full PFD and to pay all the back PFD's. You/we need to think about the future of this State. Like it or not we derive the majority of our funding for the State budget from an endowment. You/we must ensure that the temptation for over drawing the PF will have detrimental effects for generations to come. I don't want my granddaughter to ask me one day "Why did that happen Opa?" Thank you.

Sincerely,

Robert M. Redlinger

I'm writing today for my family, for my children, for my neighbors, for my parents and for all other Alaskans who have been waiting for news on the PFD... We NEED a full Statutory PFD. The original formula worked for years and with the rate the PF is growing, would still work today and for many years to come. The PFD was always for the people and we need it. People are leaving Alaska, our state will fall if we don't make these corrections now.

Consider what you are taking from the people who keep this great state running.  
Pay us our rightful PFD!! You should have never taken from it to begin with. This is not up to you!

I'm for a full PFD. Never understood how you have lied to Alaskan by saying Alaskan could not get a full PFD. If they did, it would bancr8the PFD. The full amount was withdrawn, just that government kept more and gave citizens less. Either give the full PFD or give mineral rights back to individual Alaskans

Stop taking the PFD from Alaskan families. You keep taking more and more without a vote from the people. You know if this was voted on the dividend would be made permanent and at the level it was at when it started. This money is not for you representatives to take and spend at your whim. It was meant for the people and should stay for the people. Stop making changes to the PFD without a vote from the people you are suppose to represent!!!

The people of Alaska have told you over and over to pay out the full PFD. PAY IT!! If the people of Alaska tell you to jump, you ask how high. If you can't or won't do what the people want, QUIT.

If we continue to 'give away' a portion of our PFDs each year to cover the state's deficit, when will it ever end? Similar to the Federal government using our Social Security monies for the same purpose. At this point, I will be lucky to get any social security benefits at all. Deficits never end. What needs to happen is to find a way to curtail spending and live within our means, the same way each of our families is expected to handle our personal budgets. The only difference is that the state/government operates on a much larger scale. To this end, dipping into the PFD to satisfy the state's debt will only diminish it to the point of nonexistence. The state's budget deficit was not created by us so why punish us for it? The solution belongs to those who created the problem. Let them solve it without taking from the little guy in the process.
