Senator Natasha Von Imhof
Legislative Budget & Audit Committee
Alaska State Legislature
VIA EMAIL

Dear Senator Natasha Von Imhof,

I had the privilege to serve as the Executive Director/CEO of the Alaska Permanent Fund Corporation from October 28, 2015 until I was terminated on December 9, 2021. I write to provide additional information that may be helpful to the Committee's understanding of recent events at APFC.

I am so proud of the many things that APFC accomplished during my tenure and in 2021 including:

- Delivered record returns in 2021, solidly outperforming one year and five year benchmarks
- In the 6 years of my tenure, added a cumulative \$5.7 billion over and above benchmarks, demonstrating how much management decisions have added in Fund value.
- Implemented a comprehensive risk system, thereby creating a platform for understanding the amount of risk within each asset allocation and the portfolio as a whole, ensuring the Board has the information needed to not just "maximize return" but to also "preserve principal" in accordance with AS 37.13.020
- Implemented and received funding for an incentive compensation program for investment staff, believed to be a cornerstone for recruiting and retaining talent.
- Implemented a flexible remote work policy that has allowed staff to have safe, productive work environments that work for themselves, their families and APFC.

- Named a 2021 Best Place to Work in Money Management by Pension & Investments based on a survey with an over 80% staff response rate and independent research comprising 25% of the score.
- Implemented and activated cybersecurity and business continuity plans with no fraud nor ransomware attacks to date.
- Testified in 21 legislative hearings and presented to 20 distinct Alaska groups around the state in 2021, educating all stakeholders in accordance with Board resolutions and direction.

It is important to note that the Board changed often and members brought their own ideas as to what APFC's priorities should be. The only way I felt APFC and the Fund could be successful was to have the Board articulate those priorities in their public meetings. The Board is subject to the Open Meetings Act and as such has to give that direction in board meetings. I could not and did not do everything a trustee directed in private but rather requested that they bring it for full Board consideration consistent with APFC's obligation to transparency and accountability.

The timeline below gives not only a sequence of how frequently board members changed, but also highlights the Board's publicly stated priorities. I believe it is also important to recognize how much changed for the Fund and APFC over that same time period. When I started, APFC managed a \$52.8 billion fund with a public equity portfolio of just over \$20 billion and a private equity portfolio of just over \$5.2 billion. By the close of 2021, the Fund had grown to \$81.9 billion with \$30.6 in public equities and \$15.3 billion in private equity. That type of growth, especially in labor intensive asset classes like private equity, necessitated ongoing resource needs - personnel, data, risk, technology - to maintain the performance. Not to mention, by FY2021, the Fund became responsible for providing 70% of the State's unrestricted general fund revenue.

03/15/2018	Chair Bill Moran Vice Chair Carl Brady DOR Commissioner Sheldon Fisher DNR Commissioner Andy Mack Marty Rutherford Craig Richards	Special board meeting to discuss and adopt Resolution 18-01 that in particular requires "(5) That the Board of Trustees directs the Executive Director to distribute this Resolution and Resolution 2017-1 (regarding inflation-proofing) to the Members of the 30th Alaska State Legislature and offer to testify in support of the need to follow a rules-based framework"
05/24/2018	Chair Bill Moran Vice Chair Carl Brady DOR Commissioner Sheldon Fisher DNR Commissioner Andy Mack Marty Rutherford Craig Richards	Adoption of Resolution 18-02 recognizing: "All employees of the Alaska Permanent Fund Corporation ("APFC") are valued and essential to

		<p>fulfilling APFC's mission to deliver sustained compelling investment returns as the United States' leading sovereign endowment manager, benefiting all current and future generations of Alaskans. In fulfillment of this mission it is imperative that APFC is in a position to attract, incent, and retain staff at all levels and in all positions. The APFC Board of Trustees Charters and Governance Policies, therefore, obligate the Board to establish human resources policies and procedures necessary for the effective management of the Permanent Fund, including a compensation and benefits policy. Because the level and complexity of internal investment management at APFC and the value-added and savings achieved by this internal management has grown significantly in the last five years, the Board feels strongly that fair and competitive compensation for APFC staff needs to evolve and grow to acknowledge and foster this successful result."</p>

	Bill Moran Steve Rieger	terminated and was offered the professional courtesy of resigning, effective immediately.
--	----------------------------	---

Improving communication and communication style is a theme that appeared in performance reviews since 2019. One of the steps I took was to send a biweekly email to the Board informing them of various activities – legislative testimony, investment actions, etc. The feedback I was given by all board members is that they found these communications to be very helpful to understanding what was happening at APFC between board meetings.

I set a very high bar for both myself and the staff that work for me. We affirmed in staff meetings and retreats that we view ourselves as investment professionals working for a company that is owned by the State of Alaska – not as state workers that invest money. We are all career finance professionals. This vision produces a culture of excellence but can also make certain staff uncomfortable and unhappy with the correspondingly high levels of dedication and performance expected of them.

At no time over the past six years, was I ever given specific, quantifiable metrics for performance. I believed I was required to procure resources as close to the budget adopted by the Board as possible, leverage those resources as much as possible, and deliver outstanding returns on the Fund. I strongly believe I was successful in doing so as demonstrated by the Fund's performance.

I believe my removal to be political retribution for successfully carrying the Board's mandate to protect the Fund and advocate against any additional draws over the POMV spending rule in front of the 30th, 31st and 32nd Alaska State Legislatures which is contrary to Governor Dunleavy's agenda. It is this direct conflict of agendas that contradicts the statement made by Chair Richards to the Senate and House Rules on December 15, 2021 that "politics had no part in the [Board's] decision.

I have been honest and transparent in my communications to the Board, the Dunleavy and Walker Administrations and the Alaska State Legislature. I have testified in accordance with the Board's requirements and as a CEO I felt it was my responsibility to give the Board my input on various topics but once the Board made a decision, it was my job to follow through and ensure the Board's decisions were implemented.

I have attached all of the documentation I received with regard to my 2021 performance along with my self-assessment and response to the Board for your review.

Sincerely,

Angela Rodell
