To: House Education Committee Members

Subject: Updated amendments and process for Committee Substitute for HB 164 Version G

Last year in the House Education Committee we received a total of 65 amendments to House Bill 164 version I, which was drafted to match SB 111 which is currently in the Senate Finance Committee.

The amendments which were adopted last year have been incorporated into the draft committee substitute, version G, which you received in your committee packets for today's meeting.

The remaining amendments have now been redrafted to match the draft committee substitute version G.

Of those remaining amendments, several were duplicative, and some were no longer germane to the new CS.

This leaves us with 17 amendments still to consider, now numbered 1-17 in your recent committee packet.

Please note that in each case we have matched each newly numbered amendment with its previous counterpart in order to avoid any confusion about which amendments remain to be taken up.

Please review the documents and let us know if you have any questions. We would like everyone to feel fully engaged in the continuing amendment process.
