Executive Order – Benefits to Division of Health Care Services

Governor Dunleavy has introduced a new Executive Order (EO) on the first day of the 2022 legislative session to restructure the Department of Health and Social Services (DHSS) into two departments.

Benefits to agencies and employees:

- Consolidation of contracts previously split across divisions, to address shared tasks and reduce duplicative costs.
- More attention and focus with Commissioner Office in innovating the Medicaid program to include additional savings.
- DHSS staff, its programs, contractors, providers, and the general public will benefit from two Commissioner Offices with more specialized expertise/focus and fewer competing priorities.

Benefits to the public, department clients, and partner organizations:

• Respond to provider associations more effectively due to consolidation of similar programs.
