2019 State and Local Spending (\$ Per Capita)

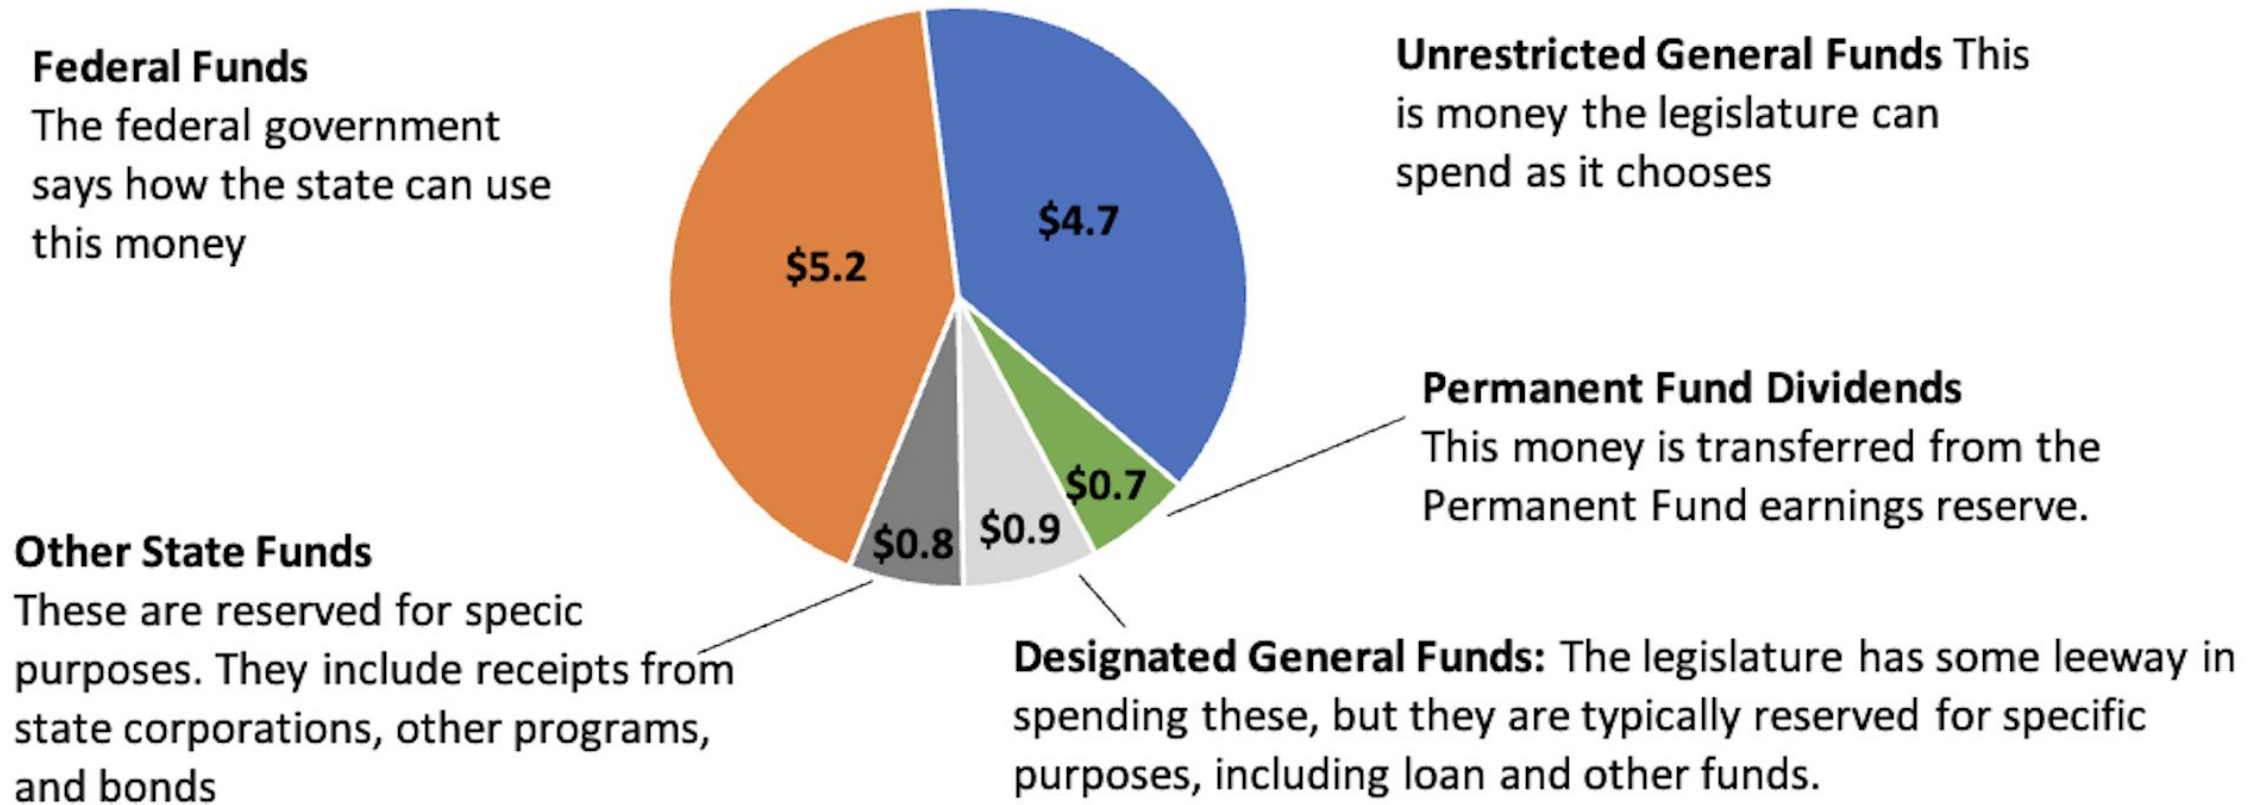

Data Source: Expenditures: U.S. Bureau of the Census, General Government Expenditures, State and Local Government Finances, 2019.

Breakdown of State v Local Spending (\$ Per Capita)

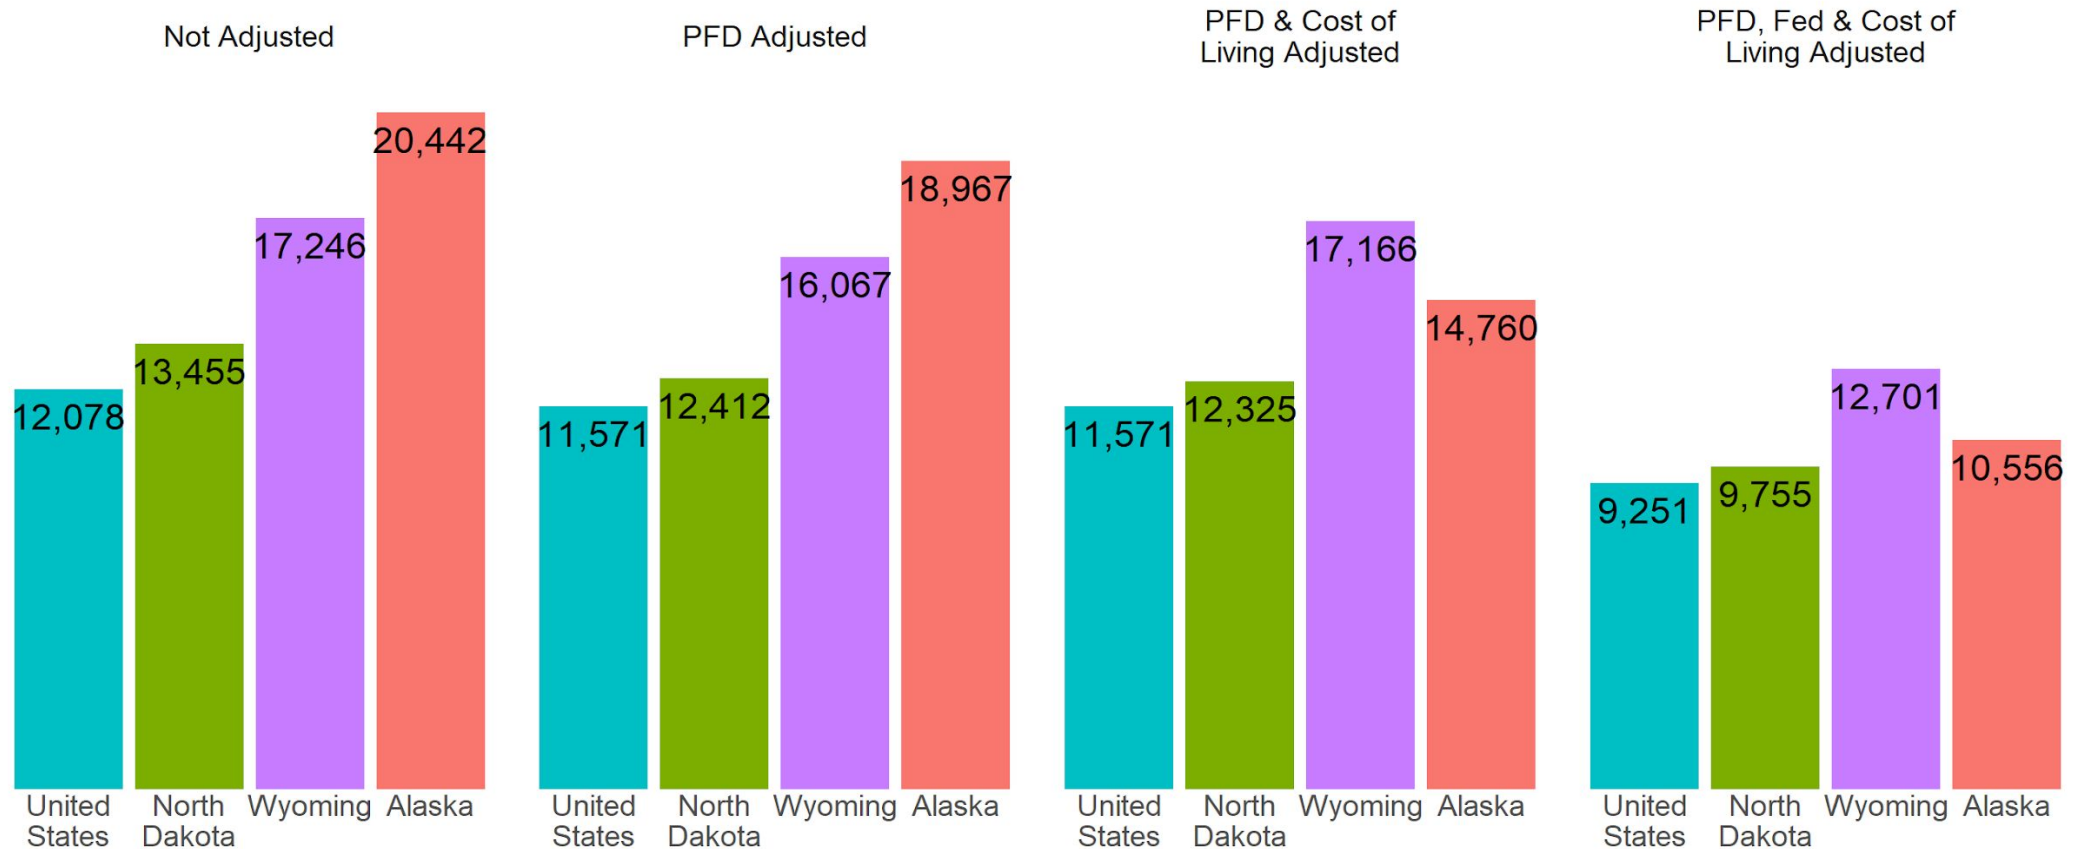

What's in the State Budget?

(FY 2022 Appropriations, in Billions of Dollars)

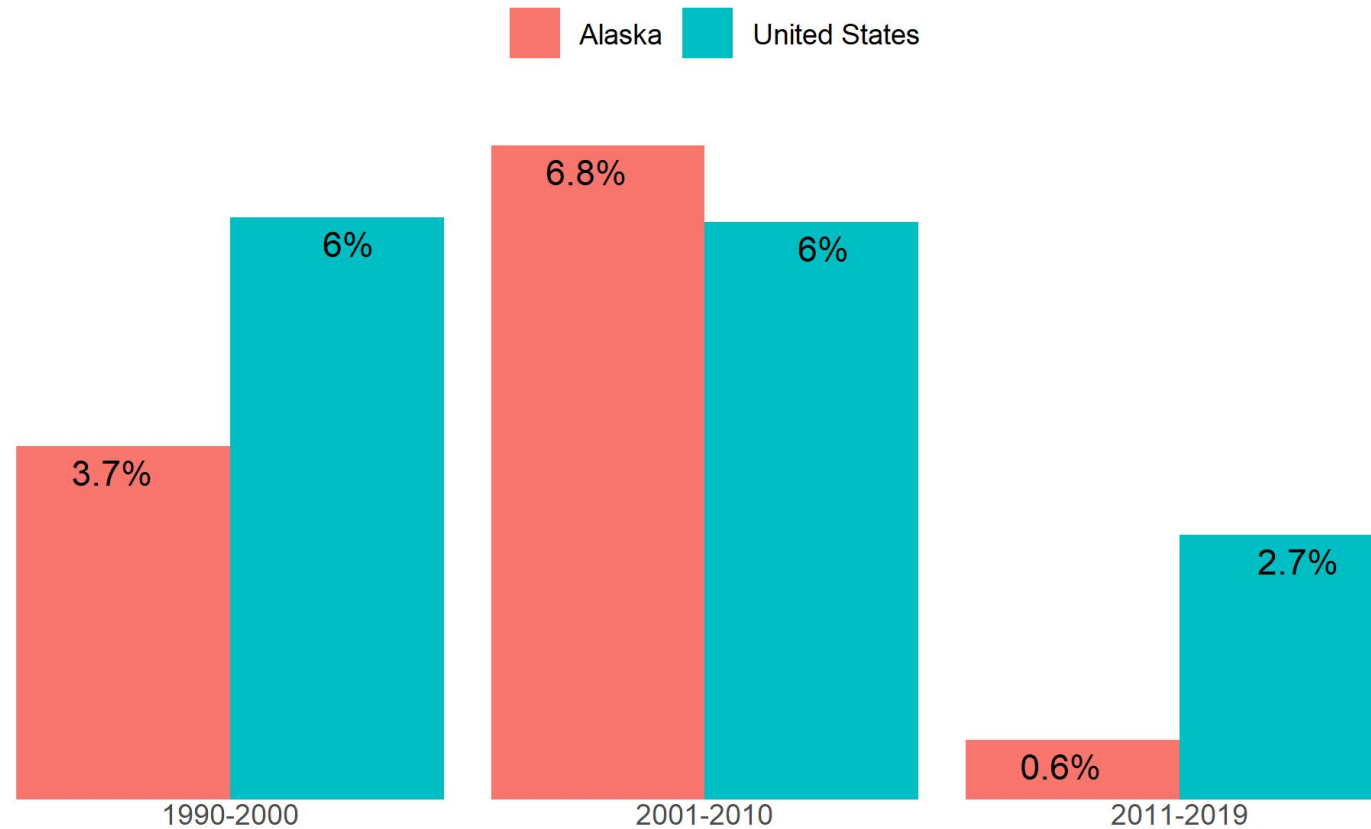

2019 State and Local Spending (\$ Per Capita)

Per capita spending in Alaska is high, but much closer to the US average when adjustments are made for the PFD, cost of living, and federal grants

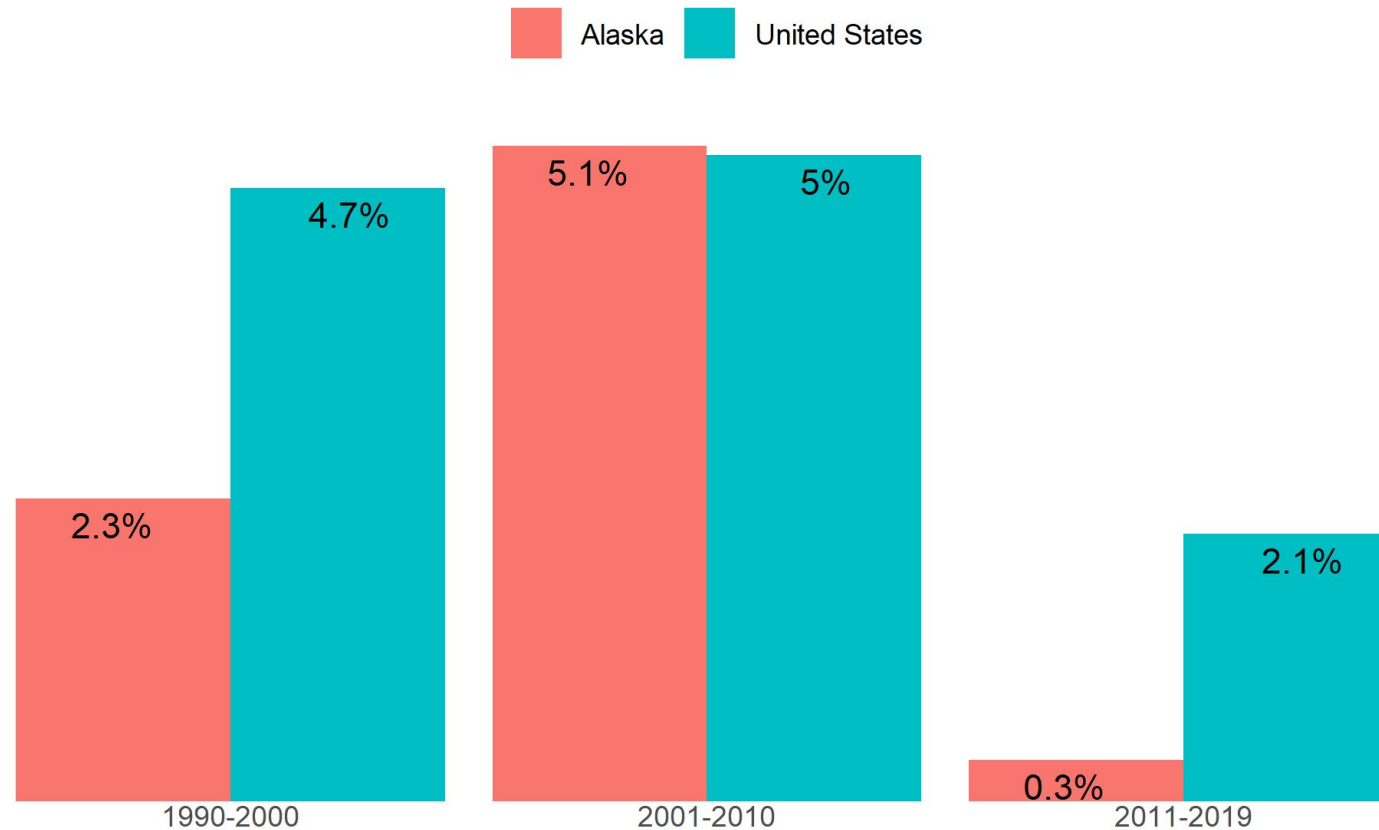

Data Source: Expenditures: U.S. Bureau of the Census, General Government Expenditures, State and Local Government Finances, 2019; Cost of living data from Council for Community and Economic Research, 2010. Figures for cost-of-living differences are for cities, not entire states, and are based on Anchorage, AK, Laramie, WY, and Bismarck, ND

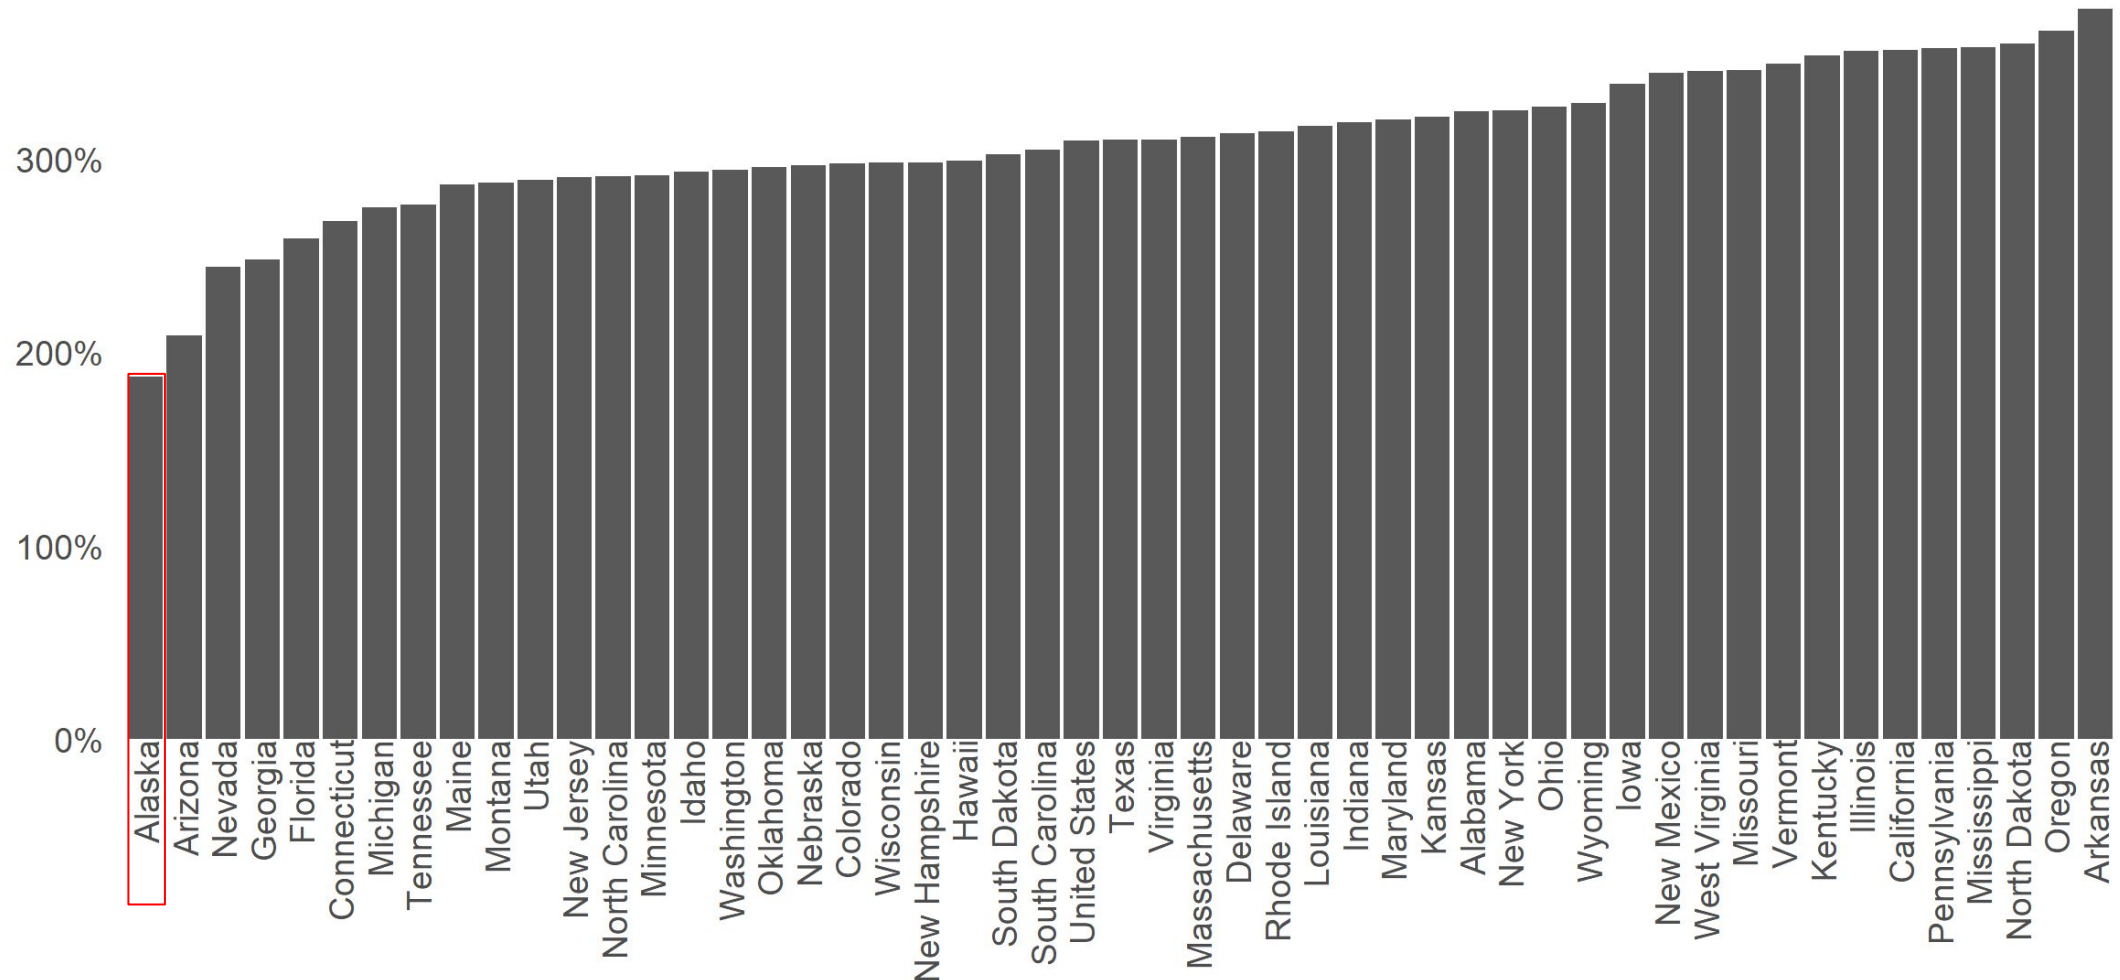

Average Annual Growth in State & Local Spending in Different Periods

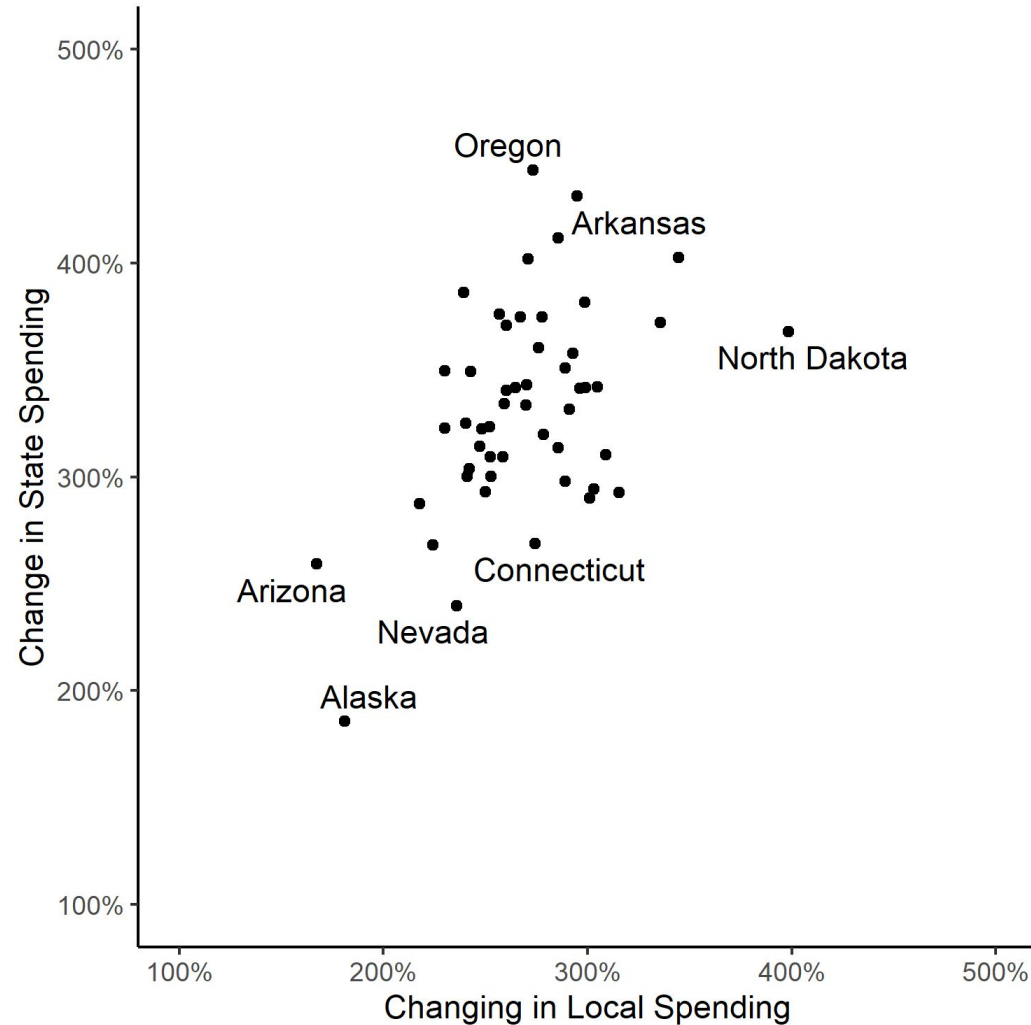

Average Annual Growth in State & Local Spending in Different Periods, Adjusted for Population

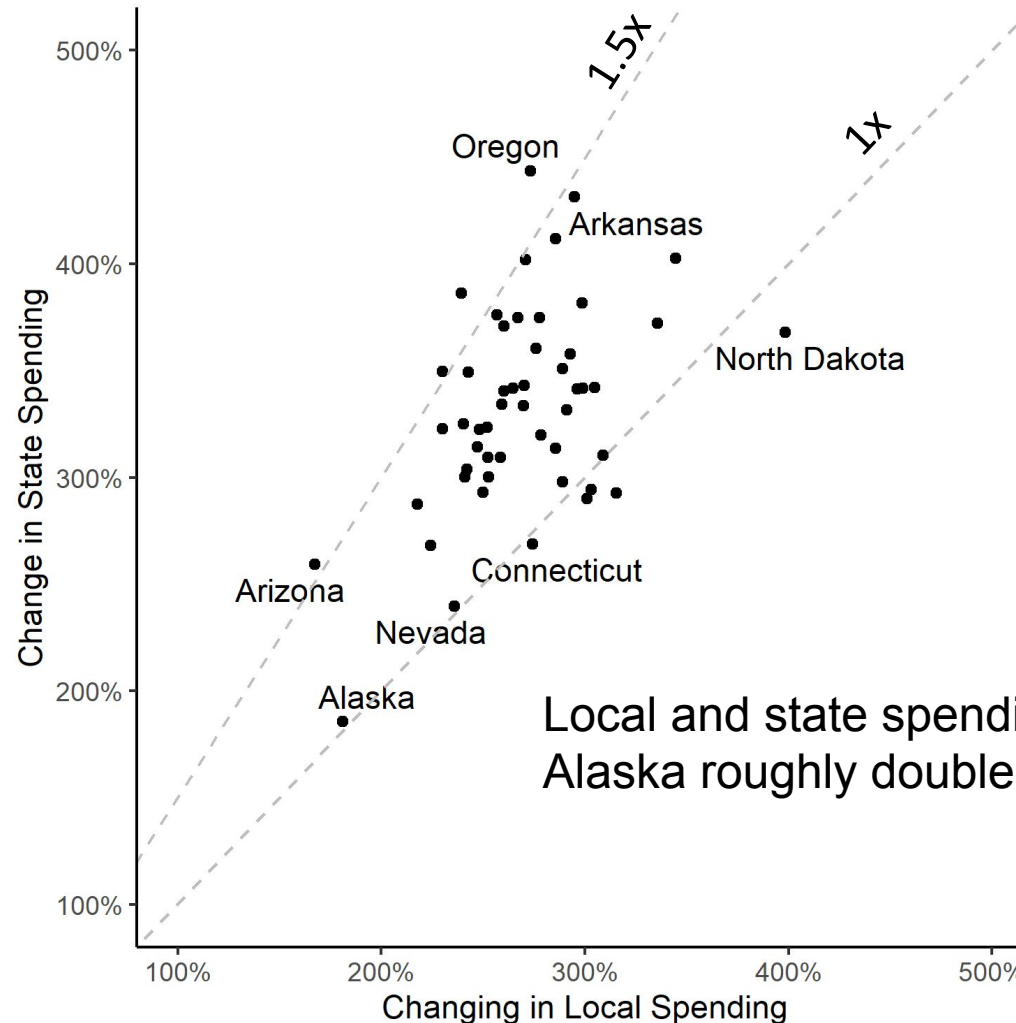

% Change in Nominal Per Capita State & Local Spending, 1990 to 2019

% Change in Nominal Per Capita State & Local Spending, 1990 to 2019

% Change in Nominal Per Capita State & Local Spending, 1990 to 2019

Oregon state spending grew at more than 1.5 times local spending.

North Dakota local spending grew more than state spending.

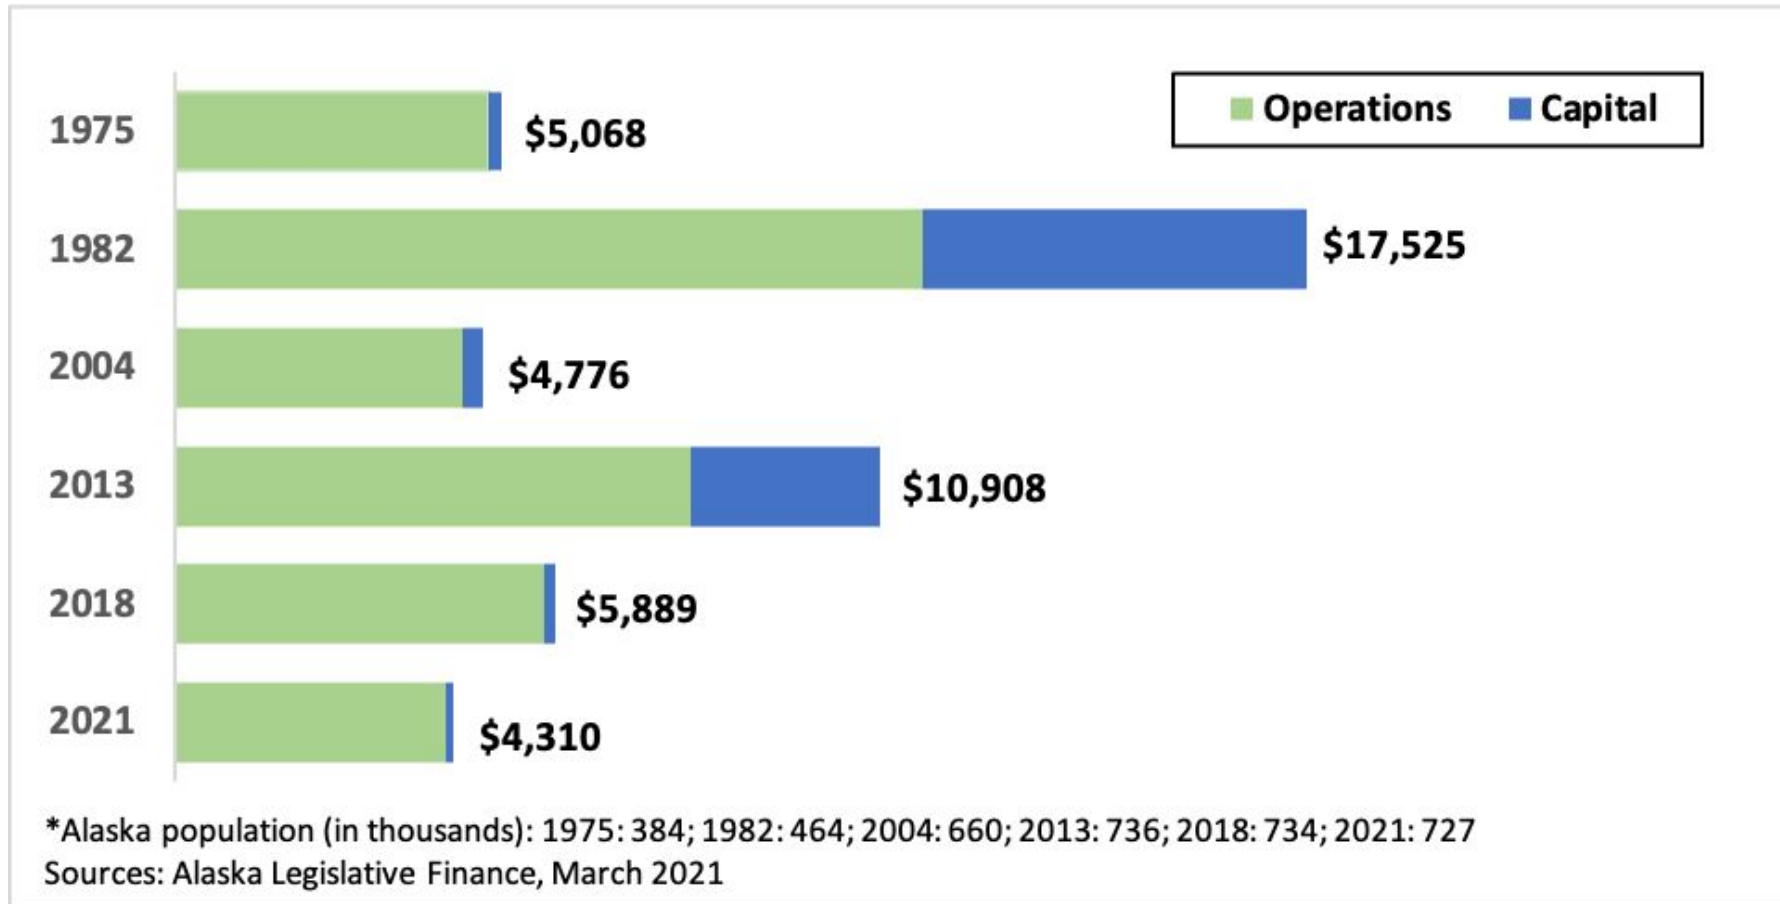

Local and state spending in Alaska roughly doubled.

Real Per Capita State and Local Spending Alaska & US Average (1990=100)

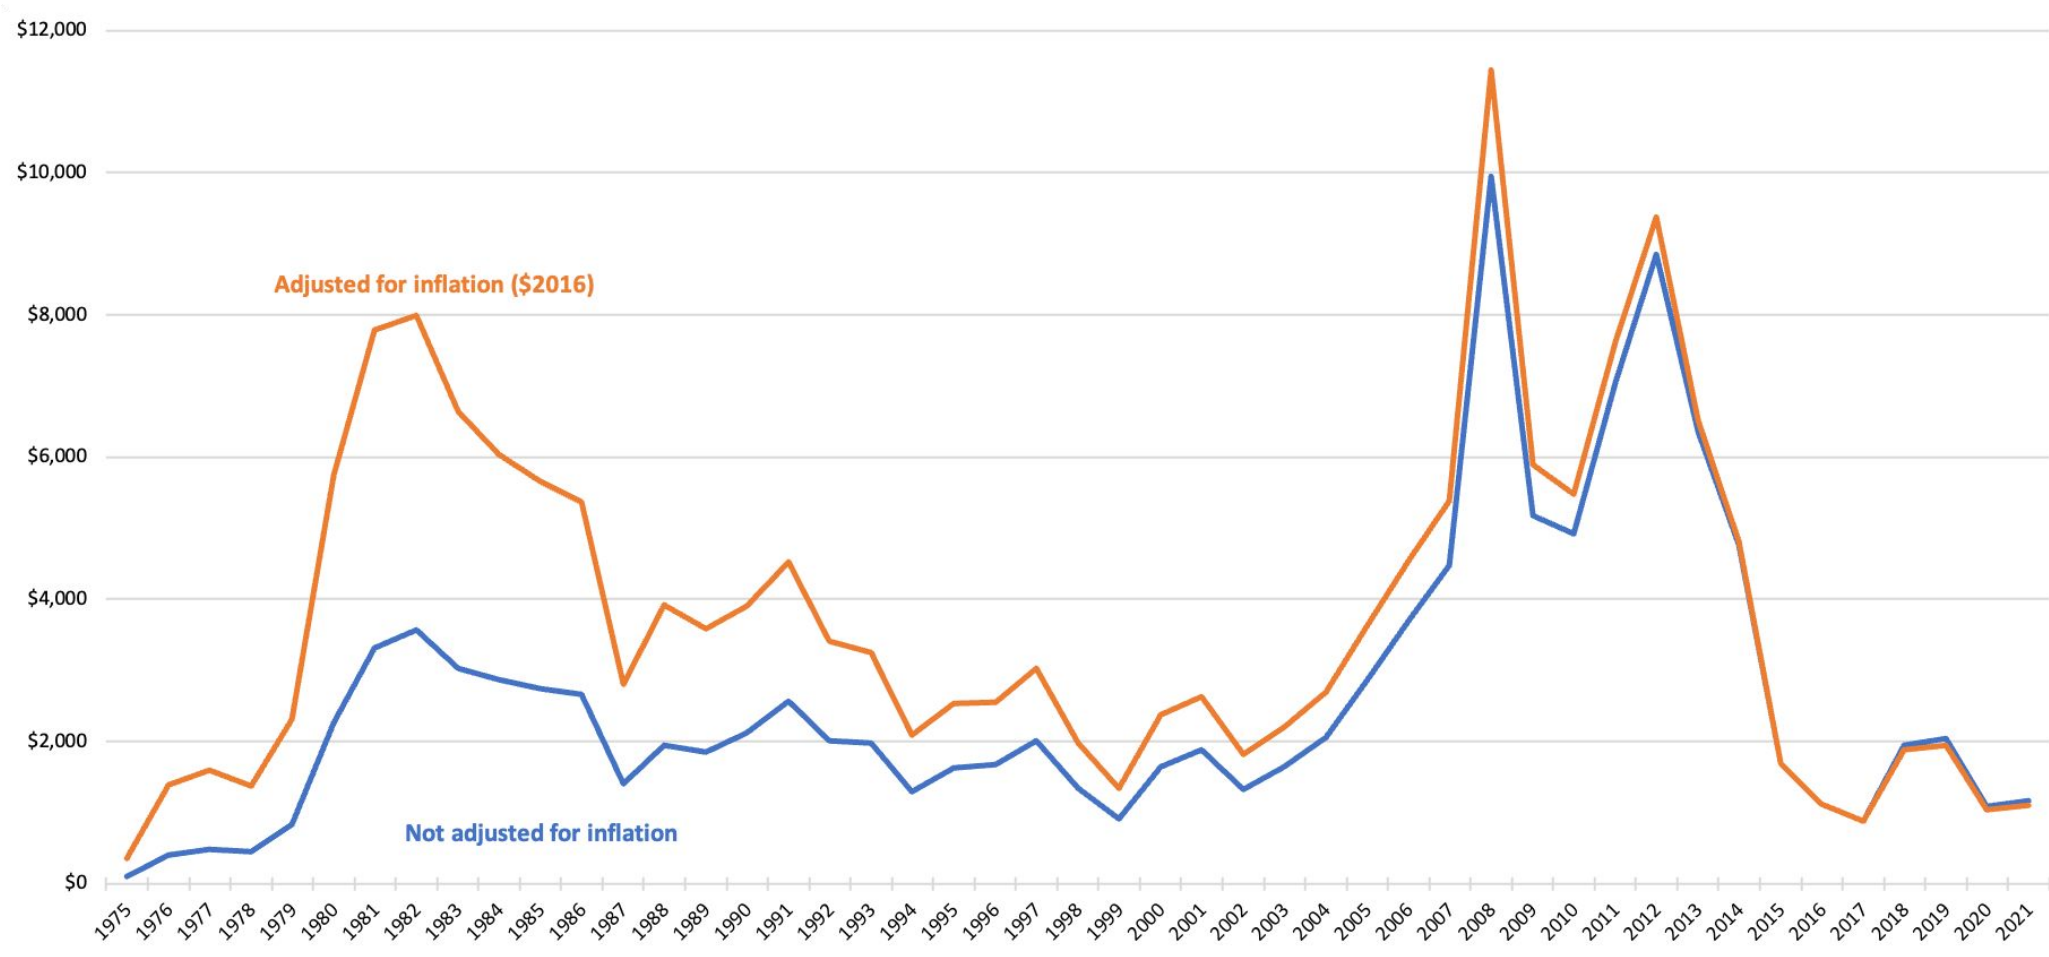

Data Source: Expenditures: U.S. Bureau of the Census, General Government Expenditures, State and Local Government Finances, 2019. Population data from U.S. Bureau of Economic Analysis, Personal Income and Outlays, 2021. Consumer Price Index from U.S. Bureau of Labor Statistics, 2022.

Real Appropriations Per Person,* Unrestricted State General Fund (Adjusted for Inflation to 2016 Dollars)

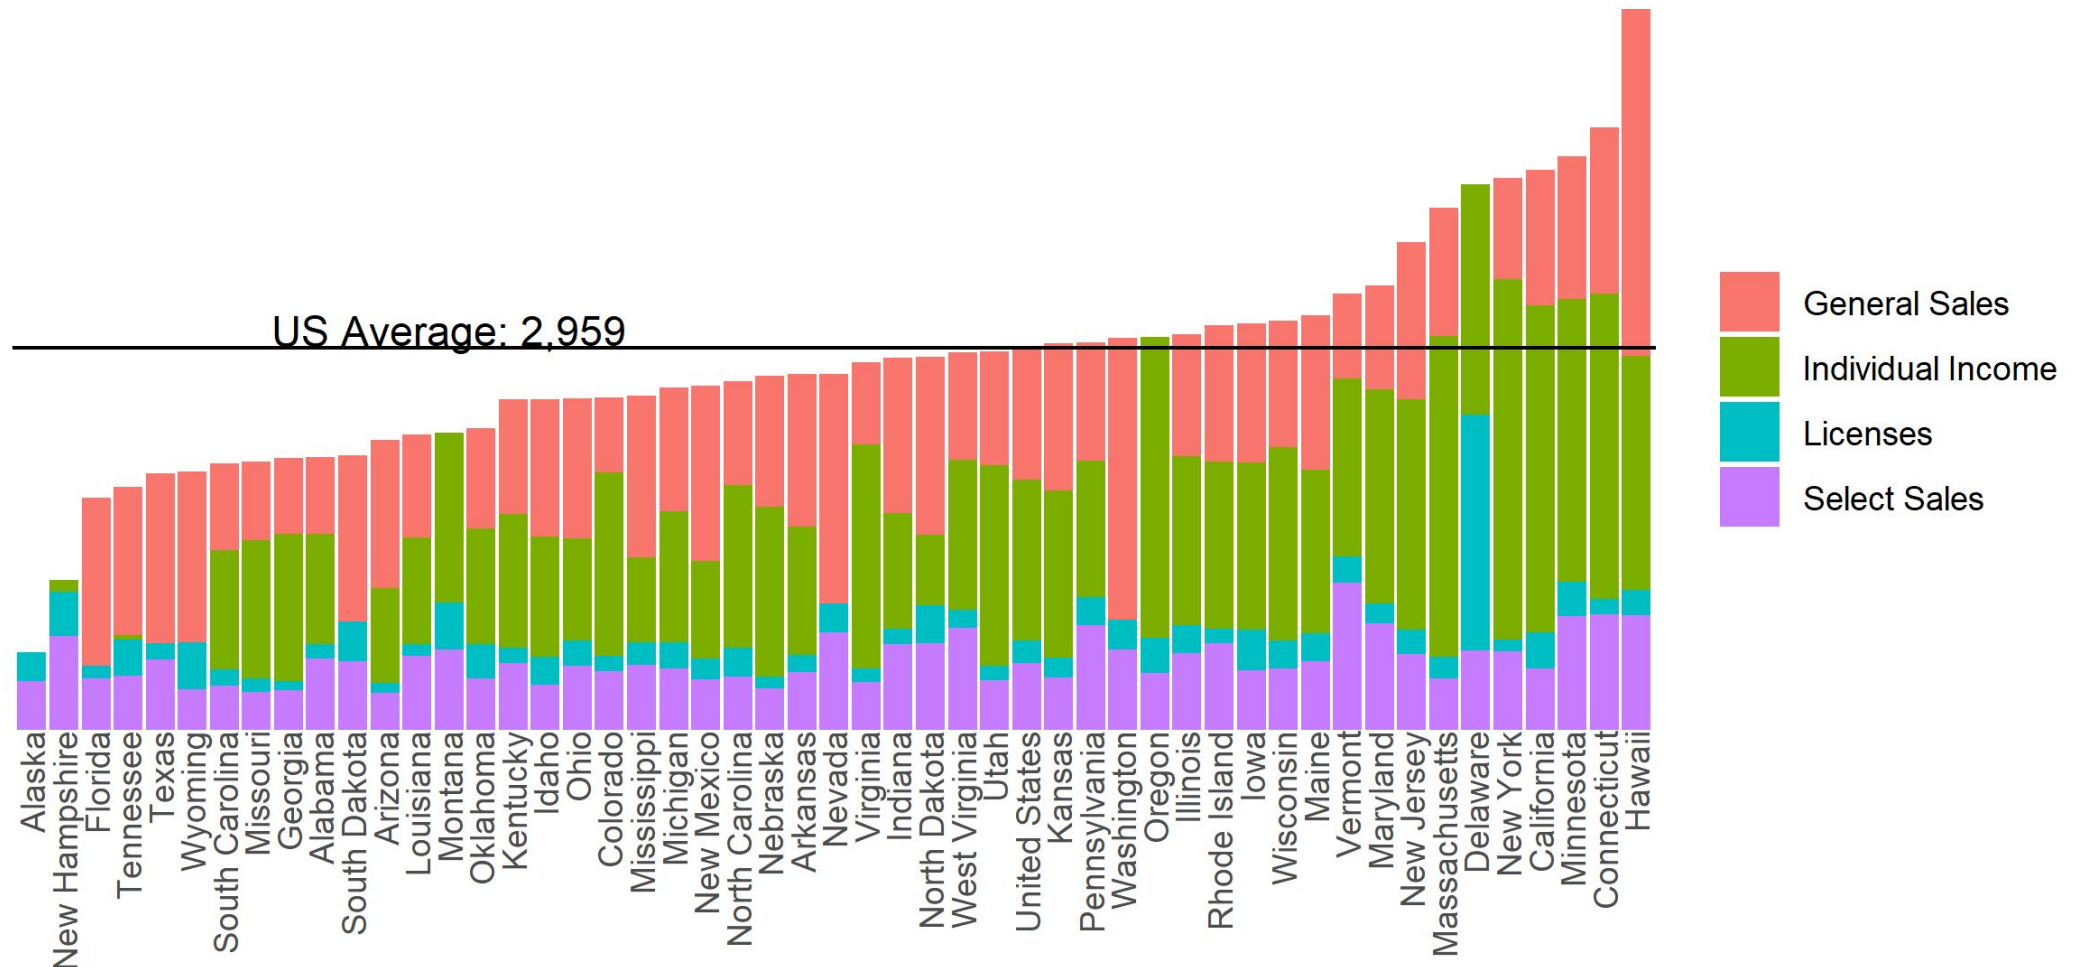

Unrestricted General Fund Petroleum Revenues, FY 1975-2022 (in Millions of Dollars)

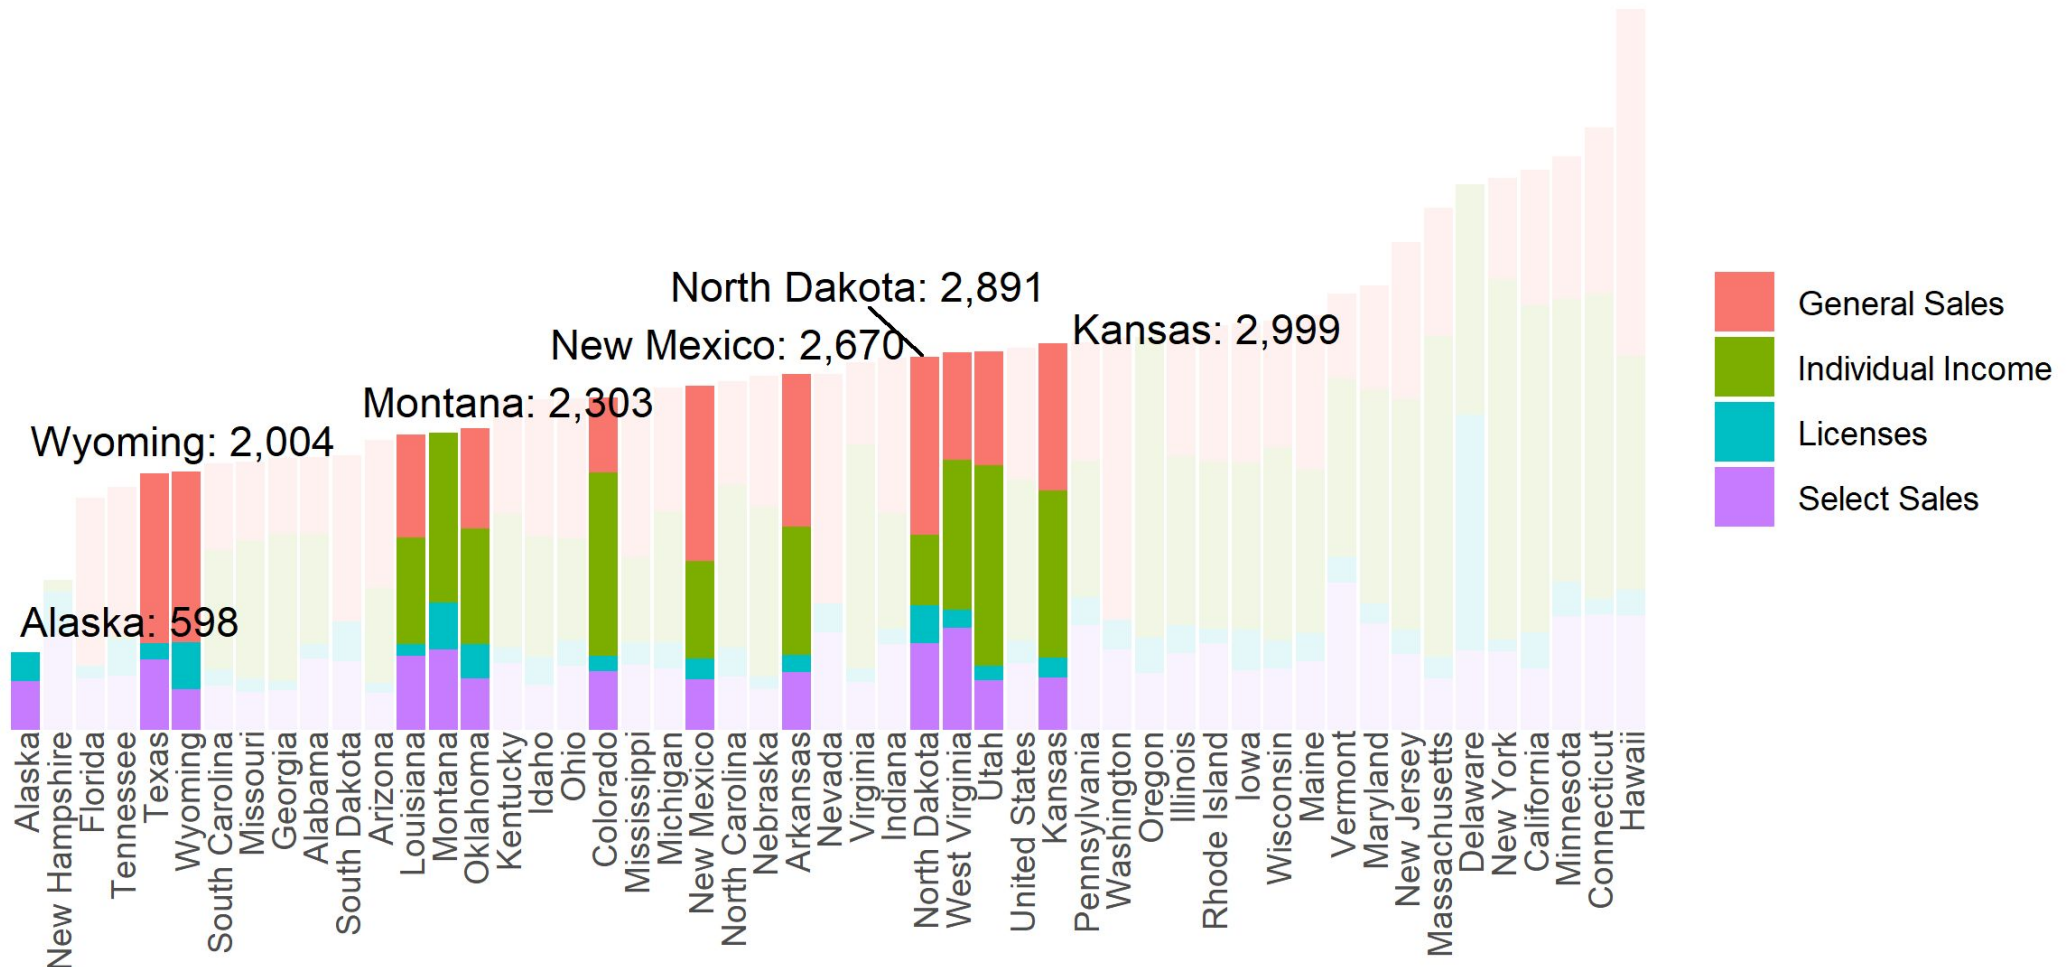

Data Source: Alaska Legislative Finance, 2022

2019 Broad Based State Taxes (\$ Per Capita)

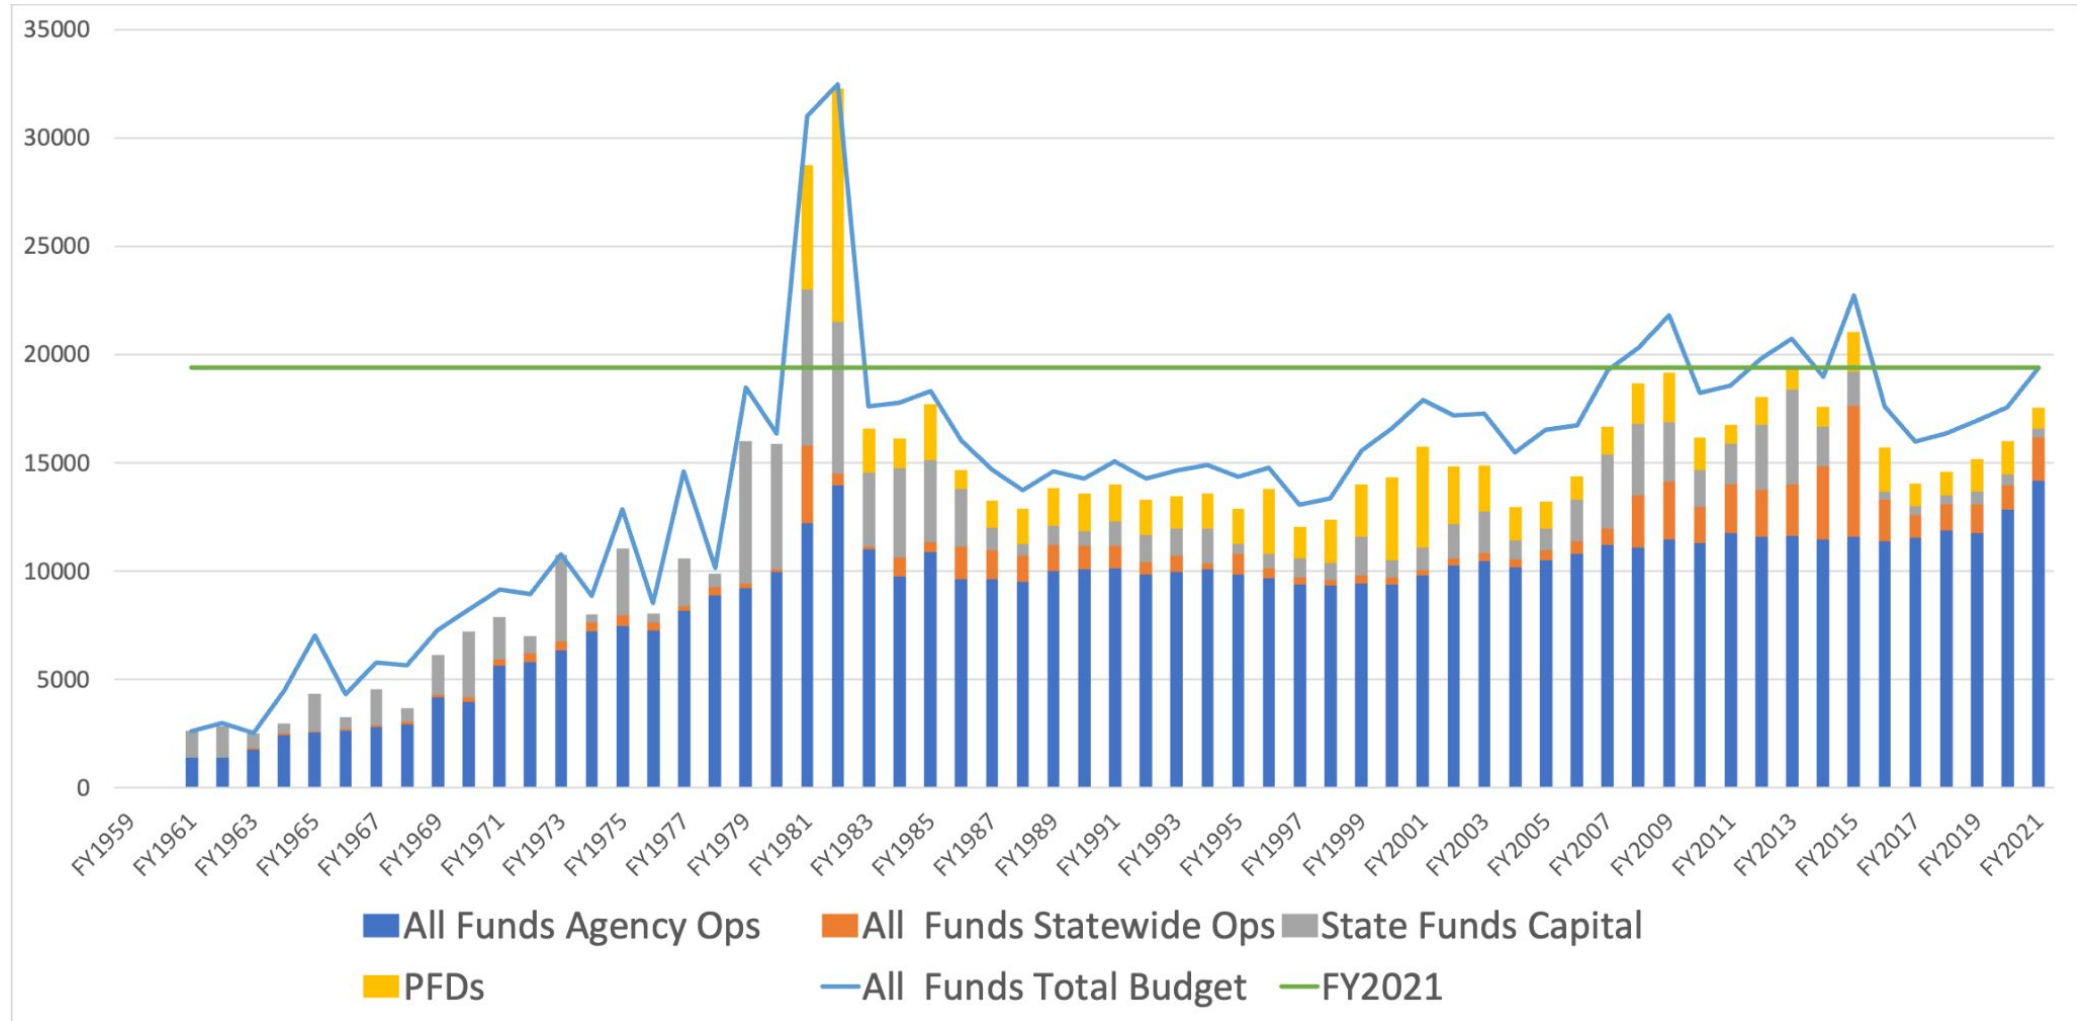

Data Source: Revenues: U.S. Bureau of the Census, General Government Expenditures, State and Local Government Finances, 2019. Population data from U.S. Bureau of Economic Analysis, Personal Income and Outlays, 2021.

2019 Broad Based State Taxes (\$ Per Capita)

Data Source: Revenues: U.S. Bureau of the Census, General Government Expenditures, State and Local Government Finances, 2019. Population data from U.S. Bureau of Economic Analysis, Personal Income and Outlays, 2021.
