

I support SB136.

I also do not support crimes against humanity and what lunatic leftists support, therefore I fully support Nuremberg 2.0! Let's goooo us 😊

Teach the leftist nazis (redundant) about Nuremberg, what they've done, and what they actually support.

DISGUSTING.

Thank you for doing the right (non-lunatic leftist) things.

I am sending this email in support of SB136. I don't think this is even up for debate as the 2nd ammendment only restrains the government, not the citizens. We have always had the right from birth.

To Whom it may Concern,

Please pass HB 136. The last two years have shown that our second amendment rights are paramount and should not be restricted. An Emergency order or declaration can be abused by those in charge and restricting a person's right to protect themselves during an emergency is down right cruel. Please support HB 136

Kind regards,

Patty Wilbanks
