To Whom this concerns,

Do not mess with 2A.....if you do, you are The People's enemy and will be dealt with accordingly. If you stand with us, be loud and bold. The Law of the Land is the Constitution. Abide by it, or you will be dealt with accordingly. Understand that We the People are finished with your old ways. Change that now.

Thank you,
Nathan Warren

I SUPPORT SB136! When calamity events occur, criminals start taking advantage of the situation. Citizens must be able to protect themselves.

Senators,

I support SB136 and appreciate your continued preservation of our Constitutionally-protected human rights. However, I suggest you amend the bill to strike references to "for personal use". As you know, the US Constitution states that our rights to keep and bear arms shall not be infringed and it does not qualify the purposes not require any proof of those purposes. Please consider this amendment and make it a priority to pass this important bill this session.

Thank you,

Colleen Evanco

Good evening,

I support SB136 to ensure firearm protections of citizens, even in times deemed an emergency. Please make it so.

Thanks,

Kalb Stevenson

> Do not mess with our second amendment or any other amendments as far as that goes. Do your job and cut the budget and fix the fngame and follow the law with the pfd. Do what's right! Quit trying to take our rights away continually. If that's you please resign and let someone else in your position who will do what they're elected to do. For those of you standing for the people thank you oh so much. You're highly appreciated! Please everyone voice support for this bill to keep our second amendment rights since we have to do it again. Send it to senatestateaffairs@akleg.gov and thank you.

I STRONGLY SUPPORT SB136.

If we've learned anything from the past few years, it is that no government should ever be allowed the authority (no matter if it's an emergency, disaster, or any other reason) to EVER come between the people and their rights granted under our State or US constitutions.

Government works for the people. This Bill should pass unanimously.

I support SB136 and don't believe the government or any powers should be able to RESTRICT our 2nd amendment rights even in times of disaster. The world is seeing how tyrannical control of citizens is playing out with the Canadian Government imposing Emergency or "Disaster" powers on its people!!

Kirk
