Hello,  
Thank you for working on SB136.

I am hearing some concerns on it. Like the word May in 1.a) is not strong enough.  
Perhaps change it to Shall.

Also, what about a phrase like "The State of Alaska has no power to violate the second amendment, not even under emergency orders."

Thank you for your time.

Senators, I support SB136 and appreciate your continued preservation of our Constitutionally-protected human rights. However, I suggest you amend the bill to strike references to "for personal use". As you know, the US Constitution states that our rights to keep and bear arms shall not be infringed and it does not qualify the purposes not require any proof of those purposes. Please consider this amendment and make it a priority to pass this important bill this session.

Thank you,

H. O'Claray

Please leave our gun rights alone. 2nd amendment is there for good reason & it would be incredibly irresponsible for anyone to tamper with them.

To whom it may concern,

Although maybe conceived in a good heart SB136 lacks commitment to the constitution of the United States and although it claims to be anti infringement of the 2nd amendment actually allows for infringement at the discretion of the government. Page 1. 13-15 is actually just strengthening the governments ability to close all businesses. Closing any business for an emergency matter is an infringement of the 14th amendment. Please change the wording of this bill in order to more accurately represent the will of the people and the constitution of the United States.

I previously emailed support for SB136 and I would like the record to reflect that we DO NOT support SB136. We already have Constitutional laws that say laws cannot be applied arbitrarily, as well as our 2nd Amendment rights that say "shall not be infringed upon". We do not want our Constitution re-written!!

Please quit wasting time and resources, as well as Conservatives time to respond, on these type of matters.

Please change the wording from "May" to "Shall".

It needs to be unbreakable restriction on the State.

Thank you

I support SB 136.

On page 1, line 6, should read "cannot issue or adopt an order... etc"

Instead of "may not issue or adopt an order... etc"

Choose the rule of law in a republic and the United States constitution. As it was originally intended to serve the people.
