I support SB 136 along with my State Senator and Co Sponsor David Wilson. The right to bear arms is an essential American right under the constitution of the United States and the State of Alaska. The constitutions of both are not documents to be shredded when elected leaders or appointed government employees decide they want to. Changes or modifications to the constitution must go through the proper legal process. SB136 protects our rights from the potential tyranny and over reach of any level of government. As a Disabled Veteran I take protection of the rights of myself and my fellow American citizens as a very serious responsibility.

I strongly support SB136 protecting our Second Amendment rights at all times especially when we need them the most. It's ridiculous we even have to do this but it seems we must.
