

Senate Bill 156

To all the Alaska State Senators,

Please support senate bill 156.
It is time to stop the mandates and let people be free once again.
STOP the nonsense.
Support the bill.
Let people be accountable for their own choices.

Thank you for your time and for your service.

Sincerely,
Laura Walter

Subject: I support HB 156

Senate State Affairs Committee:

Alaska should set the example for America and the world as the place where the right to life is protected and celebrated from conception to natural end of life. That right to life includes the freedom and liberty to live without coercion from employers, schools, the healthcare establishment, and the government.

I support SB 156 and the prohibition of vaccine mandates and the requirement to share any of my private healthcare information.

I urge you to vote in favor of protecting my life, liberty, private healthcare information, and vaccine status. Vote yes on SB 156 today.

From: Murry Keith [REDACTED]
Date: February 10, 2022 at 11:13:36 PM CST
To: Senate.State.Affairs@akleg.gov
Subject: No mandatory vaccinations

Dear Senators

I am writing asking for your support and voting to pass Senate Bill 156 which would make all vaccine mandates and immunity passports unlawful in the state of Alaska.

No one should be forced by our government to take a vaccine to keep a job or to be able to attend school.

People have many sincere and legitimate reasons for not wanting to be vaccinated including medical and religious reasons. There have been over 10,000 deaths in our country attributed to vaccine adverse reactions and many people don't believe it's worth the risk to prevent a virus that has a 99.5 recovery rate. All Alaskans should have this right to make their own personal health decisions!

Thank you so much and looking forward hopefully to this bill passing and giving all Alaskans the ability to determine their own destinies without government interference.

Sincerely,
Murry Keith

Chairman Shower, please find attached my written testimony for SB 156 and below two articles on countries and States dropping their mandates and one on government experiments on citizens. Thank you, DENNY KAY WEATHERS

<https://www.adn.com/alaska-news/2022/02/09/alaska-reports-21-more-covid-19-deaths-and-declining-hospitalizations-as-omicron-surge-continues-to-flatten/>
<https://www.adn.com/nation-world/2022/02/10/mask-mandates-are-falling-nationwide-heres-why/>

Throughout history, the U.S. government has managed to keep secrets hidden from the public. When they release these secrets, many are quite surprised and astonished at everything they've managed to get away with. Countless conspiracies involving programs such as Area 51 and MKULTRA have become mainstream in modern-day culture. The desire for such secretive knowledge is ever abundant, and no matter how much we think we know, we're always proven wrong. Despite the current rise in conspiracy theories involving government testing, many verified instances of such cases have remained hidden from the public for decades. Here are ten of them.

Dear Senators-

I am writing to express my strong support for SB 156. It will protect Alaskan citizens from pointless discrimination based on their vaccine status. I support the prohibition of "vaccine passports," as well.

I urge you to vote in favor of SB 156. Alaskans need to know that you stand in support of protecting citizens' rights.

Sincerely,
Joan Priestley, MD

Dear Senator Kawasaki,

Appreciate the response, you are the 1st respondent and can be congratulated for at minimum acknowledging my and many others Alaskans concerns. The Canadian Issue is really simple, Canada and Alaskan Companies will either choose a path of Commerce and rectify the issue or we let the free market open up further and let competition develop more cost effective means to bypass Canada in its entirety. Canadian Politics or its concerns have no place in America.

My company would consider opening a new shipping company which would totally bypass Canada while Canadians figure out their identity and economic issues. Imagine several brand new ports in the lower 48 as well as in Alaska State creating thousands of new jobs, increasing economic progress, and reducing Canadian dependency. Imagine more Cargo Airlines and other creative transport methods, the economic possibilities are endless.

Support the bill Sir, Support American Freedom, and encourage the legislature to let go of fear. The data is in we have all survived, we all will survive, so let the American Economic System Thrive.

Respectfully,

Jesse L. Thacker

Attention Legislator,

It has come to my attention that **Senate Bill 156**, Sponsored by Sen. Lora Reinbold (R-Eagle River) is introduced into the Alaska State Legislature. This bill will help protect Alaskan Citizens right to make personal health choices for themselves and their loved ones. I support Alaskans right to choose their own health care. I also do not wish to be pressured by outside lobbyists, especially those of pharmaceutical companies, nor State Governments Agencies in mandating injection or ingestion of any drugs into my body or my family members. I implore you to support Senate Bill 156 and keep Alaskan's Free to make personal health care choices thus also support these freedoms and my right to medical privacy. I am a voter and I do vote regularly.

Please let me know if you intend on supporting this bill or not.

Thank you for your attention to this matter. I support your efforts to avoid civil rights violations.

I am an adult with many years of making sound judgement, avoiding the chemical snake oil salesmen of the medical industry. My life is my responsibility!

I will not participate in a worldwide experimental trial for medical scientists. These college educated, fraternal order, certified professionals skipped using cats, dogs, and rats to experiment on. The idea of using humans as test subjects is hideous. The most egregious offense is medical trials on children without the consent of parents, while at public schools.

The injuries are too many to count and shrouded in doublespeak or outright lies. I expect this from snake oil salesmen where profit is the name of the game, not the well being of humanity.

AMENDED ITEMS

1. SB156 should include language that all medical treatment with "FDA approved drugs" or "vaccines" are left to the individual to assent to. Not A Mandate!
2. SB156 SHOULD HAVE LEGAL CONSEQUENCES (CRIMINAL CHARGES) FOR INJURIES RESULTING FROM VACCINE PUSHERS AND THE MANUFACTURERS.

Currently vaccine manufacturers cannot be sued for injury or death.

To whom it may concern!

I'm in support of this bill with a few amendments :

To include: no mandates on all vaccine's and non FDA approved mRNA test trials on humans

To include: holding pharmacy drug manufacturers accountable for any health emergencies directly linked to their drugs by monetary value according to the damage done to a human and jail time for a criminal offense of attempted murder.

Sincerely,

Dear Chairman Shower and members of State Senate Affairs,

I SUPPORT SB 156 - STOP THE VACCINE MANDATES !

MY relatives' spouse died less than 2 wks after taking the Pfizer vax , in Alaska !
Several of our Alaskan friends had SEVERE adverse reactions to the CVD 19 "shot" .Some are still suffering.

Several friends and their relatives were denied their religious exemption rights to refuse the "shot's mandate and lost their jobs in Alaska... some military, some medical.

Please protect our lives, privacy , right to choose health choice , parental rights, to decide for their children re: shots, masks, and chose wisdom that strengthens natural immunity.

Excellent medical resource..

I SUPPORT SB 156 - STOP THE VACCINE MANDATES !

Subject:

Good morning. My name is Jeani Mountain, I am a resident of beautiful Kodiak. I am writing to support the passage of SB156.

As an Alaskan, as an American, I have the right to determine for myself whether I wish to get the the inoculation against covid commonly referred to as the covid vaccine. No one should be coerced or intimidated into getting this shot. As it is a medical intervention/procedure, it should be entirely up to an individual to weigh the risks of the shot versus their risk of infection by the virus and make an informed choice. I strongly support a measure that acknowledges that this is a personal choice, that no government, employer, or business has a right to make or interfere in that choice, it is solely the right and responsibility of each of us to make that decision for ourselves. As a voter, I ask that you pass this bill to protect Alaskans right to make healthcare decisions without government or employer interference, pressure or intimidation. At a time when many seek to erode our rights and freedoms, I appreciate you acting to protect them.

Thank you for your time and service,
