Subject: RE: House Bill 291

Good morning Rep. Tarr-

Thank you for reaching out. Given that trauma, mental health and substance use/misuse and other behavioral health issues can be present in situations related to domestic violence and sexual assault, the Trust supports being added as a member of the Council on Domestic Violence and Sexual Assault. If added as a member of the Council, the Trust looks forward to being an active member and sharing its expertise with the other members and the public to address this very important issue.

Sincerely,
Steve Williams
