Hello,

I am emailing you to show my **support** for SB 156. I strongly oppose forced vaccinations of any kind, but especially the Covid 19 vaccine. No one should be forced to get this shot in order to work, go to school, attend public events, get medical care or surgeries, or anything else. This should be a choice!

It is discrimination, unlawful, and unconstitutional to force this on anyone.

I wanted to make sure my message was loud and clear for the Senate State Affairs hearing today which I cannot attend in person.

Please consider this my official support for this Bill.

Ari Sassi

Sending to put on official record that I support SB156.

It's imperative that the state maintain constitutionally protected rights. Freedom of choice, freedom to privacy & most importantly to not allow implementation of laws/regulations to set precedents that could detrimentally impact inabilities to govern our own bodies now and in the future.

Respectfully,
Kiara Svensson

Opposition to Covid Vaccine Mandates

Dear Senate Committee:

I strongly oppose vaccine mandates, and I am in support of SB156 to protect our medical freedom in Alaska.

I don't know if you are aware of the turmoil in the world, but mandates are affecting us worldwide. Look at Canada! We the people are exhausted from the mandates and the segregation it has caused. As a nurse, I support medical freedom and privacy for all. Covid passports and mandating vaccines for employment, shopping, medical care, or education is unethical and wrong.

Let's make a stand together for Alaska and move forward from Covid-19!

Sincerely,

MaLai Smith

Dear senators,

i support sb156.

thank you,

dave

SB156 "An Act relating to COVID-19 immunization rights

[redacted]
To Senate State Affairs

We would like to encourage support of Senate Bill 156. Our freedoms are very important to us as Alaskans, medical or otherwise. We appreciate your consideration of this all important issue.

To be clear, WE WILL NOT ACCEPT MANDATES.

Sincerely,

Mary Garrett - Fairbanks

Hello senators,

I am writing to show my support for SB156. My husband lost his job at South Central Foundation because he wanted to wait till more information came out on the vaccine. I am a homemaker because we have 5 kids so he is the sole source that makes income. It was a very stressful situation to make that decision.

My husband has had reactions to a vaccine in the past so we were not sure what would happen with this one. We also got Covid one August so that helped his immunity. He still had to resign due to a medical decision he did not want SCF to make.

My mother retired early from her job at GCI because they were mandating the vaccine. She works from home and would talk with clients over the phone. She also got Covid this year so why does she need the vaccine?

There are studies that have come out stating that natural immunity lasts longer then the vaccine.

We lost a young, healthy friend to the vaccine. COVID and the vaccine has greatly impacted mine and my families lives. Where there is risk, there must be choice. I hope you stand for our freedoms.

Thank you for your time.
