

Alaska AHEC

2020-2021 Health Workforce Program Highlights

4,154
Participants

Enhancing access to quality healthcare, particularly primary and preventive care, by improving the supply and distribution of healthcare professionals through community/academic educational partnerships.

AHEC Scholars is a longitudinal program designed to enhance future health professionals' leadership skills within a rapidly changing healthcare system. In 2021, AHECs asked Scholars about key learning outcomes including: team-based care, cultural competence, behavioral health integration, and their future practice. Selected results are provided below.

122 AHEC Scholars:

- 65 APN, RN, LPN and CNA nursing students
- 16 pharmacy students
- 6 behavioral health students
- 6 rehabilitation students
- 5 medical students
- 3 public and community health students
- 2 physician assistant students
- 19 other disciplines
