FISCAL NOTE ANALYSIS

STATE OF ALASKA 2022 LEGISLATIVE SESSION

Analysis

This bill codifies and declares that by operation of law, submerged lands under navigable waters in areas managed by federal agencies were conveyed to the state from the United States pursuant to the Equal Footing Doctrine of the U.S. Constitution, the federal Submerged Lands Act, and the Alaska Statehood Act. Since statehood, navigability determinations have been made through administrative processes and litigation brought by the state pursuant to the federal Quiet Title Act. This bill is intended to bring clarity to state ownership of submerged lands in federal areas and to claim, occupy, and possess all such submerged lands as state sovereign property. This bill requires the Department of Natural Resources (DNR) to conduct ongoing research to identify navigable waters within and adjacent to federal areas, codifying DNR's list of submerged lands in federal areas with a date retroactive to statehood, and requires the DNR commissioner to provide an annual report to the legislature listing newly identified submerged lands in federal areas. The research and report fall under the divisions daily operations, and does not expect any fiscal impact; therefore, submits a zero fiscal note.
