Resume Addendum:

Thank you for your consideration of my application for the Alaska Real Estate Commission. I have included the below letter as part of application.

To who it may concern,

This letter's intent is to further explain my relevant experience and passion for the Real Estate Industry in Alaska. I am a born and raised Alaskan, born in Ketchikan, raised in Haines class of 2004. My family moved up north from southeast in search of work in 2004 shortly after my graduation.

I worked in the construction industry framing residential homes on my summers off from college and ended up working in the oilfield post college until I discovered real estate. My wife and I built our first rental property 2012 -2013. It was during the process of building and the struggles we had with agents during that build that spurred me into action. The sour taste we felt from our first transaction motivated me to sign up for my first real estate course and seek out a career off the slope and in my own town of Palmer.

I passed the test in 2014 and worked at brokerage that allowed me to get the most hands on knowledge in a variety of areas. At Mat-Su Realty and Appraisal we primarily worked in land development and new construction as well as learning about appraisals. While at Mat-Su Realty I opened and ran a property management business that managed 125-150 rentals at its peak.

In 2018 passed the brokers exam and opened my own independent brokerage. Compass Realty. In 2019 a competitor made an offer on my property management book of business and we closed the sale in January of 2020.

Currently I operate and am the Broker in charge of our office in Palmer for Berkshire Hathaway Home Services Alaska Realty. Our primary focus now is relocation contracts, new construction, and land development.

While I might lack the length of experience as some. I do think that the width of my experience from Appraisal, Property Management, New Construction, Land Development and resale, I can provide a unique perspective to the board that will assist in making well rounded decisions regarding the industry.

Thank you for your consideration,

Chad Stigen
