Cc: Sen. Lora Reinbold; Rep. Ken McCarty; Rep. Kelly Merrick
Subject: SB 156... All eyes will be on you

Representatives of the House State Affairs Committee,
Tomorrow you will be hearing SB-156. I will be watching as well as many other Alaskans. We will be watching to see if you will continue to allow discrimination to continue in this state. Discrimination that has cost people their jobs and livelihoods or has caused people to compromise their beliefs and bodily autonomy to ensure that their families don't fall into ruin. Discrimination that is based in ideology and not scientific facts.

I hoped, as I am sure many of you did, that the vaccines would substantially reduce the impact of COVID. Similarly to what was seen with Polio and Smallpox. However, that is not the case. The data that has been coming out of highly vaccinated countries like Qatar (88.5% of the total population vaccinated) and United Arab Emirates (99% of the total population vaccinated) show that while the vaccines have great results for the individual in lowering the risk of hospitalization or death they do not have the social impact that was desired. Vaccinated and even boosted individuals can still catch and transmit COVID.

I ask that you please hear the bill, discuss the bill and move it to its next committee. Those of us that are watching are hoping that you continue with this country's long standing tradition of antidiscrimination and you move this bill.

Thank you

Louis Imbriani

Subject: SB156 Support

Representative Tomkins, please vote to pass SB156 out of the State Affairs committee as soon as possible. SB156 is an essential piece of legislation to secure Alaskans' rights to medical freedom and must be passed before the end of session especially since the Federal government seeks to resume the implementation of COVID-19 vaccine mandates!

I, Doreen Broderick support SB 156. I am a RN of 14 years, mainly in ICU. I have sworn to uphold the ethical "Patient's Bill of Rights". Patient's have the right to refuse medications and treatments. It is unethical to force anyone to put a substance into their body. There will always be a threat to life. As a society, we can not loose our bodily autonomy ever!

Thank you Doreen Broderick

Representative Jonathan Kreiss-Tomkins
I am an Alaskan resident and registered voter, please vote to pass SB156 out of the State Affairs committee as soon as possible. As the Federal government seeks to resume the implementation of covid 19 vaccine mandates, SB156 is an essential piece of legislation to secure Alaskan's rights to medical freedom and must be passed before the end of session. When the vaccine has been available for less time than the virus has been active and yet still over 48% of Alaskan's who are fully vaccinated have contracted covid 19 the vaccine proves to be ineffective and moot, what would a vaccine mandate accomplish when natural antibodies won't even be considered?
Sincerely,
Tammy J. Bertolini

Subject: PASS SB156 Out of State Affairs Committee ASAP

House State Affairs Committee Members,

Thank you Representative Kreiss-Tomkins for scheduling a committee meeting on 4/16/2022 to discuss SB156. I greatly appreciate it.

Time is of the essence. Please vote to pass SB156 out of the State Affairs committee ASAP.

This is an essential piece of legislation to secure Alaskans' rights to medical freedom and must be passed before the end of session. Let not Alaska become a 'Bastilles fortress'*

restricting/imprisoning medical freedom. Instead Alaska must be a beacon for the ultimate quality of life because Alaskans have the freedom to achieve such.

Sincerely,

Kathy Harris

*The quote below by Dr. Benjamin Rush, founding father and signer of the Declaration of Independence, was taken from Dr. Rush's introductory remarks to a course lecture at the University of Pennsylvania on November 3, 1801. He was describing 24 "causes which have retarded the progress of our science" and this was one of the causes that he listed.

Dr. Benjamin Rush states:

#22 -- "Conferring exclusive privileges upon bodies of physicians, and forbidding men of equal talents and knowledge, under severe penalties from practicing medicine within certain districts of cities and countries.

"Such institutions, however sanctioned by ancient charters and names, are the Bastilles of our science." <<https://healthfreedom.info/BASTILLE%202%2030.jpg>>

The Bastille fortress in France epitomized the tyrannical imprisonment of people who exercised politically incorrect free speech (aka, censorship). Originally, if the king did not like something a person said he would imprison the person without a trial or without what we would term "due process". Voltaire spent nearly a year behind bars at the Bastille for his writings.

Subject: House State Affairs Committee Meeting Sat., April 16th @ 10 AM SB156

I would like to thank you for scheduling a committee meeting to discuss Senate Bill 156 in the House State Affairs committee! This will help ALL Alaskan residents by supporting each and every one of us to bring about the passage of SB156 in the Senate this year!!!

I will be tuning in on Gavel to Gavel and am hopeful with your support, the advancement of SB156.

Time is of the essence!

Alaskans, as do ALL United States Citizens, including YOU and your family...deserve rights to medical freedom! Don't YOU want to choose for yourself and your family??? I sure DO!

Please don't sit on the fence on this one when the time comes time for you to vote for your constituents and the residents of Alaska. DO NOT LOOK AWAY!

It's your job to do the responsible things for the district you represent!

Thank you!

To: Rep. Jonathan Kreiss-Tomkins
Subject: RE: No Vaccine Mandate!

Injecting a foreign substance into a person's body comes with unavoidable risks, even when it is done by a trained physician after years of studies. Taking a COVID-19 vaccine is a decision that must remain voluntary for every American. No one should be denied the right to work, travel, go to school or enjoy other cherished American freedoms because they have decided to wait and not immediately take a COVID-19 vaccine.

Plans are currently being rolled out to require a COVID-19 vaccination as a condition for travel and employment. These plans are designed to restrict your right to decide whether you will receive a COVID-19 vaccine by forcing you to carry a "Vaccine Passport".

Tell the Alaska Legislature to say NO to COVID-19 Forced Vaccinations!

Whereas: "Vaccine Passports" are a direct attack on civil liberties that are meant to be safeguarded by the civil government; and

Whereas: The decision to inject a foreign substance into a person's body comes with unavoidable risks and should only be made after informed consent; and

Whereas: The experimental COVID-19 Vaccines have been rushed through production and have not completed long-term safety studies,

Therefore: As an Alaskan, I urge my elected representatives to immediately implement safeguards to protect civil liberties and oppose COVID-19 vaccination mandates!

Subject: Please Hear SB-156

Dear Rep. Kriess-Tompkins,

It is to my understanding that SB-156 is being held up in the House of Representatives, and it is likely to stay there (this is unfortunate news!)

Please make every effort to get SB-156 moving along and get it passed. SB-156 is for the benefits of all Alaskans and break us away from all these illegal mandates that President Biden has put upon, not only Alaskans, but The People of the United States.

Help make Alaska be a beacon of truth and freedom for all the other states so we can have our freedoms back.

I was forced into retirement from a job I loved on JBER because of President Biden's mandates. It was a 75+K yearly income. My retirement will not even come close to paying my bills!

Please be a positive source of doing what is right for The People.

Thank you!

Cc: Rep. Andy Josephson
Subject: support for SB156

Dear Honorable Representative Kreiss-Tompkins,

I am writing to urge you to pass out of State Affairs SB156. Alaskans want a vote in the House on this most important Bill to protect the medical freedoms of Alaskans from Covid-19 Vaccine Mandates.

Alaskans want SB156 to be voted on to protect jobs and personal freedoms. Back in 2020, it was not known what the consequences of Covid-19 vaccines and the mandates would be, but now we do know the consequences. The Covid-19 vaccines do not stop the spread of Covid

and vaccines can cause severe side-effects for some people. The severe side-effects include heart attacks, blot clots, neurological disorders and it is unnecessary. All these side-effects could be minimized if the decision for the vaccine was left to the individual in discussion with their personal physician. Alaskans need legislative protection to insure informed consent for medical procedures NOT coercion.

Also, while Covid-19 vaccines mandates do not stop the spread of the virus, mandates do lead to loss of jobs and discrimination to public services. Covid-19 mandates also lead to increased hostility and division of the public towards government.

I urge you to support a House vote on SB156.

Sincerely,

Margaret Johnson

Subject: SB 156: Committee Members Commended, Admonished

Dear House State Affairs Committee,

As an Alaskan and a constituent I am writing to commend Representatives Eastman, Kauffman and Vance for upholding their Oath of Office by requesting that SB 156 be heard. Additionally, I write to admonish Representatives Kreiss-Tomkins, Claman, Tarr and Story for failing to uphold the Oath they swore by when taking office. While your reasoning may be sincere, it is sincerely in error. Be it fear, misinformation, personal bias, agenda's or a need of additional education regarding the Constitution of the United States and the Constitution of the State of Alaska, there is no justification for preventing a bill from being heard which protects the individual's rights to privacy, to choose their own medical interventions and to not be discriminated against. Your lack of action calls into question the integrity with which you represent Alaskans. I urge you to re-evaluate your positions, if not for the sake of your Oath of Office and those you represent, do so out of self preservation. For the suffocating dust of the trampled guaranteed rights and freedoms of others will eventually consume the freedoms so important to you. You cannot sow Field Bindweed seeds (an Alaskan classified prohibited/restricted noxious weed) and reap blueberries. Restricting freedoms by preventing bills like SB 156 from being heard will yield yet more restriction of freedoms.

When SB 156 first presented to the House State Affairs Committee, I emailed Committee Chair Representative Kreiss-Tomkins regarding this bill. I never received a response.

Sincerely,

Kathy Harris

The Constitution of the State of Alaska

Article 12 § 5. Oath of Office

All public officers, before entering upon the duties of their offices, shall take and subscribe to the following oath or affirmation:

"I do solemnly swear (or affirm) that I will support and defend the Constitution of the United States and the Constitution of the State of Alaska, and that I will faithfully discharge my duties as [State Representative] to the best of my ability."

– Alaska State Constitution, Art. 12 § 5

Field Bindweed

<<https://alaskanguideto invasive species.weebly.com/uploads/1/3/9/1/13911890/6856124.jpg>>

You're green and ugly

You take over and strangle

You're bad, field bindweed

-Kasey

*Scientific Name: *Convolvulus arvensis*

*considered one of the biggest problem weeds

* The roots of field bindweed can reach depths of 20 feet!

*The plant was brought from Eurasia and was used in gardens because it was beautiful

*Can climb up shrubs, shade crops, and other plants.

*Field bindweed can survive a long time without water.

*All these qualities make the plant difficult to control even with herbicides.

*Field bindweed keeps many crops from growing, especially cereals, beans, and potatoes.

*The weed hosts many viruses that kill other plants and vegetables.

Subject: Amendments 49,62 and 63

Sent from my Galaxy

Representative Kreiss-Tomkins, it is underhanded to deny the concerns of Alaskans and silence our voice in the legislative process. Please make a motion to take up Amendment 49 especially for debate and support it being discussed and voted on. Public censorship goes against the very principals that our government was founded upon. Uphold your Oath and support my voice being heard in Juneau.

As for Amendment 62, I oppose using state funds to promote the dangerous COVID 19 vaccine, so vote yes

I also support Amendment 63 which opposes bribing people to be vaccinated.

Please schedule Amendment 49 to be heard on the house floor. Sincerely

Janet Luce. Hoonah AK. 99829

Subject: Discrimination and forced medical experimentation

Hello,

I just have some personal statements and comments, and also have attached 20 questions nobody wants to answer below it.

Remember, you are politicians and not doctors, you don't know anybody's medical situation except your own.

I hope you take these into consideration and at least do some actual research (not so called "fact-check" "Wikipedia" or what pops up first on "google" (that are funded by the government and organizations like Bill Gates and George Soros (ie. factcheck.org <[This is 100% about forcing medical experimentation on your constituents.](https://urldefense.com/v3/__http://factcheck.org__;!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkoIY7FWOtA2PLmw0NP6nfAR-yImHzi7Z0IfCPmASXDbOA$>, facebook, snopes - those are complete jokes and easy to disprove - they make people ridiculously ignorant and it's frustrating to talk to people that take them as true))).</p></div><div data-bbox=)

Thank you,

Jeremy Hustman

Juneau, AK

1. Please take up Amendment 49
2. If you answer one thing, at least prove to me what the benefit these injections are that would require them to be mandated by a government (this is tyrannical).

1. They don't prevent you from getting covid
2. They don't prevent you from spreading covid
3. The only people I know who have died "from covid" were "fully vaccinated")
3. It is the hospitals that are killing people by shoving ventilators down their throats and giving them liver killing redeliver while starving and dehydrating people, locking them in a room by themselves until they pass away.
 1. Hospitals also get additional "funding" for each "covid 19" patient (not a "conspiracy theory")
<https://www.henrymakow.com/2021/11/us-hospitals-bribed-to-malpractise.html>
 <[https://urldefense.com/v3/__https://www.henrymakow.com/2021/11/us-hospitals-bribed-to-malpractise.html__;!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkOIY7FWOtA2PLmw0NP6nfAR-yImHzi7Z0IfCPI2VU5irw\\$>](https://urldefense.com/v3/__https://www.henrymakow.com/2021/11/us-hospitals-bribed-to-malpractise.html__;!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkOIY7FWOtA2PLmw0NP6nfAR-yImHzi7Z0IfCPI2VU5irw$>)
4. If I get injured from a forced vaccination who will pay my lost wages to my family for the rest of their lives?
5. There is zero doubt this will be a career-ending vote.
7. Discriminating against people is what the Democrats do best! (whether it's racial, sex, voter registration, disability, etc.). Now they want to discriminate against people that are unable or unwilling to partake in experimental drug trials that just happen to be literally disabling people, which they then say "nope definitely wasn't the vaccine it's in your head"
8. I doubt you are actually taking these "vaccines" but if you are, the next time you get your "booster" please ask for these three things
 1. Ask to see the manufacturing date of the injection vial.
 2. Ask to see the expiration date of the injection vial.
 3. Ask for the paper insert that you are required to be provided by the manufacturer.
9. Why should anyone care what vaccines someone has had, if you took them you are safe right.
10. There are natural ways to protect yourselves, if anything you should make Hydroxychloroquine and Ivermectin (Two long proven cures) over the counter.
11. You aren't allowed to ask about a person's private medical status per HIPAA.
12. Those of us that had covid are immune and don't need a vaccine.
13. Is someone paying you to vote for forced covid injections and mask restrictions?
14. From what I understand, we are a free country.
15. Dying from the covid vaccine is ruled a suicide
<https://freewestmedia.com/2022/01/14/life-insurer-refuses-to-cover-vaccine-death/>
 <[https://urldefense.com/v3/__https://freewestmedia.com/2022/01/14/life-insurer-refuses-to-cover-vaccine-death/__;!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkOIY7FWOtA2PLmw0NP6nfAR-yImHzi7Z0IfCPma4s3tXQ\\$>](https://urldefense.com/v3/__https://freewestmedia.com/2022/01/14/life-insurer-refuses-to-cover-vaccine-death/__;!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkOIY7FWOtA2PLmw0NP6nfAR-yImHzi7Z0IfCPma4s3tXQ$>)
16. The "variants" are not getting stronger (in other words, "covid is over")
17. These so-called "vaccines" are not vaccines but experimental gene-therapy treatments that are killing and maiming people, including members of my family. Covid will not kill you (or at least over 99% of the people that get it)
 1. Both an Aunt and a first Cousin now have "Parkinson's" after taking their shots.
 2. My father had emergency surgery to remove blood clots from his leg

3. another cousin of my wife is now bedridden with "flu-like symptoms" for going on three months now

4. BUT THEY AREN'T EDITING YOUR DNA (yes they are)--->

1. Tuskegee Syphilis Study
2. Stateville Penitentiary Malaria Study
3. Navy-Sponsored Beef Blood Transfusions
4. Plutonium Testing
5. WWII Mustard Gas Experiments
6. Operation Midnight Climax
7. Operation Sea-Spray
8. Operation Big Buzz
9. Willowbrook Experiments
10. Measles Vaccine Experiment

19. You are more likely to die from these injections than covid.

20. Being forced to take experimental medical treatments are exactly why 11 people were executed in the Nuremberg Trials

Also please take a look through these 20 questions nobody wants to answer (by Steve Kirsch).

1. Why no debates? Why won't any mainstream doctors or scientists or public health officials (or any other health authority for that matter) debate me or any of my colleagues
<[<\[2. VAERS safety signals flashing red since January 2021. How could the CDC and the FDA possibly miss all the safety signals in VAERS which have been flashing red since January 2021
<\]\(https://urldefense.com/v3/__https://stevekirsch.substack.com/p/johns-hopkins-professor-marty-makary?s=w__;!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkOIY7FWOtA2PLmw0NP6nfAR-ylmHzi7Z0IfCPnsWb8tgA\$> .</p></div><div data-bbox=\)](https://urldefense.com/v3/__https://stevekirsch.substack.com/p/my-team-of-vaccine-safety-experts?s=w__;!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkOIY7FWOtA2PLmw0NP6nfAR-ylmHzi7Z0IfCPkyDM9bdw$> in a live, recorded debate? I even offer some people (members of the ACIP and VRBPAC committees) $1 million just to come to the debate table and it made no difference. We can't even get any of them to propose any ground rules that they will accept! For example, Professor Makary proposed debate terms (which weren't a debate) and then ignored me when I tried to accept them</p></div><div data-bbox=)

symptoms, some elevated by 1,000X or more? Why did they ignore all attempts to bring this to their attention (if it wasn't already obvious). They clearly must have known in January that the data coming in didn't match the claims in the clinical trials. The profile of the VAERS data (chart of symptom vs. # reports) looks nothing like previous vaccines.

3. Risk benefit calculation. I have more than 10 methods that show that over 150K people have been killed by the vaccine

<[<\[4. Why no investigation into Maddie de Garay? Why did the FDA not investigate the Maddie de Garay case after agreeing to look into it? Why is the press silent on this as well? She was 12 years old in the Pfizer clinical trial and became paralyzed less than 24 hours after injection. Why were her symptoms reported as mild abdominal pain and not paralysis? What is causing her to now progress to being a quadriplegic? And if her symptoms weren't caused by the vaccine \\(as claimed by the "fact checkers," then why are her symptoms virtually identical to other vaccine victims and not explainable any other way?\]\(https://urldefense.com/v3/__https://www.nejm.org/doi/full/10.1056/nejmoa2110345__;!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkoIY7FWOtA2PLmw0NP6nfAR-ylmHzi7Z0IfCPm0sdR0tw\$> . So after vaccinating 220M people, we kill 150,000 people or more and we save 10,000 lives. If this is wrong, where is the mistake and what are the correct numbers?</p></div><div data-bbox=\)](https://urldefense.com/v3/__https://www.skirsch.com/covid/Deaths.pdf__;!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkoIY7FWOtA2PLmw0NP6nfAR-ylmHzi7Z0IfCPmxn_ochQ$> and the Pfizer trial showed we'd save 1 life from COVID for every 22,000 vaccinated</p></div><div data-bbox=)

5. More people died who took the drug than those who didn't take the drug. The Pfizer 6 month study

<[<\[6. Elevated myocarditis rates. How is a 559-fold increase in the reporting rate of myocarditis in VAERS \\(see slide 19\]\(https://urldefense.com/v3/__https://alexberenson.substack.com/p/more-people-died-in-the-key-clinical__;!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkoIY7FWOtA2PLmw0NP6nfAR-ylmHzi7Z0IfCPIfHHnMkQ\$> for updated numbers in the pre-unblinding phase showing 21 dead who took the drug vs. 17 dead who took the placebo. And how was Pfizer certain that none of the people who got the drug was killed by the vaccine? What tests were done during the autopsies that exonerated the drug? These tests were never revealed and they are still being kept hidden for some odd reason. Since the vaccine wasn't the cause, why not make the autopsy reports and tests done public that prove this?</p></div><div data-bbox=\)](https://urldefense.com/v3/__https://www.nejm.org/doi/full/10.1056/nejmoa2110345__;!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkoIY7FWOtA2PLmw0NP6nfAR-ylmHzi7Z0IfCPm0sdR0tw$> showed that more people died who got the drug than who got the placebo (they conveniently forgot to mention this in the abstract or conclusion). Isn't it supposed to be the other way around? Where is the RCT showing an all-cause death benefit? See this article</p></div><div data-bbox=)

<

PLmw0NP6nfAR-yImHzi7Z0IfCPI-tOsM2Q\$>) considered to be a “slightly elevated risk” of myocarditis? Why wasn’t this noticed in January 2021? How did the CDC completely miss this signal (they admitted it was the DoD who spotted it). How do you explain 4 cases of myocarditis at the Monte Vista Christian School

<[https://urldefense.com/v3/__https://stevekirsch.substack.com/p/there-are-now-4-myocarditis-cases?s=w__!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkoIY7FWOtA2PLmw0NP6nfAR-yImHzi7Z0IfCPkMn-fadQ\\$>](https://urldefense.com/v3/__https://stevekirsch.substack.com/p/there-are-now-4-myocarditis-cases?s=w__!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkoIY7FWOtA2PLmw0NP6nfAR-yImHzi7Z0IfCPkMn-fadQ$>) (with only 800 students, half of them male and perhaps half of those not vaccinated)? That’s a 1 in 50 rate. Is that just bad luck? And how is it possible that multiple military doctors I’ve asked about the rates in the military both give me numbers over 1%? Am I just unlucky?

7. How do you explain Schirmacher’s study? Dr. Peter Schirmacher, one of the world’s top pathologists, reported that in 40 cases examined 2 weeks after vaccination, the vaccine killed 30% to 40% of them. Immediately after he reported this, his family was threatened if he spoke out. So Dr. Schirmacher has been silenced. See my article for details

<[https://urldefense.com/v3/__https://stevekirsch.substack.com/p/a-simple-way-to-end-vaccine-misinformation?s=w__!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkoIY7FWOtA2PLmw0NP6nfAR-yImHzi7Z0IfCPkqlfvbtw\\$>](https://urldefense.com/v3/__https://stevekirsch.substack.com/p/a-simple-way-to-end-vaccine-misinformation?s=w__!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkoIY7FWOtA2PLmw0NP6nfAR-yImHzi7Z0IfCPkqlfvbtw$>) . Do you support intimidation techniques to silence legitimate scientists with dissenting views? The Federal Association of German Pathologists has called for autopsies, but the government has silenced them as well. Do you support my call for autopsies

<[https://urldefense.com/v3/__https://stevekirsch.substack.com/p/a-simple-way-to-end-vaccine-misinformation?s=w__!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkoIY7FWOtA2PLmw0NP6nfAR-yImHzi7Z0IfCPkqlfvbtw\\$>](https://urldefense.com/v3/__https://stevekirsch.substack.com/p/a-simple-way-to-end-vaccine-misinformation?s=w__!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkoIY7FWOtA2PLmw0NP6nfAR-yImHzi7Z0IfCPkqlfvbtw$>) ? If not, why not? Also, Schirmacher’s results have been validated by Bhakti and Burkhardt

<[https://urldefense.com/v3/__https://stevekirsch.substack.com/p/bhakdiburkhardt-pathology-results?s=w__!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkoIY7FWOtA2PLmw0NP6nfAR-yImHzi7Z0IfCPmP2p6NuA\\$>](https://urldefense.com/v3/__https://stevekirsch.substack.com/p/bhakdiburkhardt-pathology-results?s=w__!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkoIY7FWOtA2PLmw0NP6nfAR-yImHzi7Z0IfCPmP2p6NuA$>) . Did all of them get it wrong? How were they fooled?

8. What is causing the telltale clots? Embalmers have seen odd blood clots, never before seen before the vaccines rolled out, in up to 93% of cases

<[https://urldefense.com/v3/__https://stevekirsch.substack.com/p/exclusive-embalmer-reveals-93-of?s=w__!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkoIY7FWOtA2PLmw0NP6nfAR-yImHzi7Z0IfCPn4yp3rVw\\$>](https://urldefense.com/v3/__https://stevekirsch.substack.com/p/exclusive-embalmer-reveals-93-of?s=w__!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkoIY7FWOtA2PLmw0NP6nfAR-yImHzi7Z0IfCPn4yp3rVw$>) . These are not normal clots and have never been seen before the vaccines rolled out. What are they caused by and why are they killing so many people?

9. Excess deaths. What’s causing the excess deaths observed by insurance companies? Insurance company deaths rose in Q3 and Q4 of 2021 at the same time the boosters rolled out. The fact checkers say it is due to COVID

<[https://urldefense.com/v3/__https://www.politifact.com/factchecks/2022/feb/11/blog-posting/no-covid-19-vaccines-arent-responsible-increase-de/_!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkoIY7FWOtA2PLmw0NP6nfAR-yImHzi7Z0IfCPIsP8Ykqg\\$>](https://urldefense.com/v3/__https://www.politifact.com/factchecks/2022/feb/11/blog-posting/no-covid-19-vaccines-arent-responsible-increase-de/_!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkoIY7FWOtA2PLmw0NP6nfAR-yImHzi7Z0IfCPIsP8Ykqg$>) , but the data doesn’t line up which they fail to point out. Delta started in June and was 93% by August. You’d never know that from the graph

<https://urldefense.com/v3/__https://stevekirsch.substack.com/p/ed-dowd-millennial-age-group-

25-to?s=w__!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkoIY7FWOtA2PLmw0NP6nfAR-ylmHzi7Z0IfCPiZiCqJ6Q\$> :

<[10. The more you vaccinate, the worse the outcomes. Why do over 10 studies \(including one covering 145 countries\)](https://urldefense.com/v3/__https://cdn.substack.com/image/fetch/f_auto,q_auto:good,fl_progressive:steep/https*3A*2F*2Fbucketeer-e05bbc84-baa3-437e-9518-adb32be77984.s3.amazonaws.com*2Fpublic*2Fimages*2F9bafd973-bf2c-4c4a-98b0-3427af78b94c_2048x1304.jpeg__;JSUIJSUI!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkoIY7FWOtA2PLmw0NP6nfAR-ylmHzi7Z0IfCPmbxql8kQ$></p></div><div data-bbox=)

<[https://urldefense.com/v3/__https://stevekirsch.substack.com/p/incriminating-evidence?s=w__!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkoIY7FWOtA2PLmw0NP6nfAR-ylmHzi7Z0IfCPnjYen95w\\$>](https://urldefense.com/v3/__https://stevekirsch.substack.com/p/incriminating-evidence?s=w__!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkoIY7FWOtA2PLmw0NP6nfAR-ylmHzi7Z0IfCPnjYen95w$>) all show that the more we vaccinate, the worse the infection and fatality rates? Since nobody has been able to refute any of these studies, shouldn't we at least put the mandates temporarily on hold until the studies are refuted?

11. Negative efficacy. The latest UK government report

<[https://urldefense.com/v3/__https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/1061532/Vaccine_surveillance_report_-_week_11.pdf__;!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkoIY7FWOtA2PLmw0NP6nfAR-ylmHzi7Z0IfCPnC0u_kQg\\$>](https://urldefense.com/v3/__https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/1061532/Vaccine_surveillance_report_-_week_11.pdf__;!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkoIY7FWOtA2PLmw0NP6nfAR-ylmHzi7Z0IfCPnC0u_kQg$>) shows that for most age groups, you are now more than 3 times more likely to get COVID if you are triple vaccinated compared to the unvaccinated. It seems the more you vaccinate, the worse the disparity. It's clearly tied to the number of vaccinations. How do you explain this if the vaccines are protective?

<[https://urldefense.com/v3/__https://cdn.substack.com/image/fetch/f_auto,q_auto:good,fl_progressive:steep/https*3A*2F*2Fbucketeer-e05bbc84-baa3-437e-9518-adb32be77984.s3.amazonaws.com*2Fpublic*2Fimages*2F69a98719-203a-408c-95a1-d6810bb3a409_411x434.png__;JSUIJSUI!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkoIY7FWOtA2PLmw0NP6nfAR-ylmHzi7Z0IfCPnKeW3h3g\\$>](https://urldefense.com/v3/__https://cdn.substack.com/image/fetch/f_auto,q_auto:good,fl_progressive:steep/https*3A*2F*2Fbucketeer-e05bbc84-baa3-437e-9518-adb32be77984.s3.amazonaws.com*2Fpublic*2Fimages*2F69a98719-203a-408c-95a1-d6810bb3a409_411x434.png__;JSUIJSUI!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkoIY7FWOtA2PLmw0NP6nfAR-ylmHzi7Z0IfCPnKeW3h3g$>)

12. CDC paper admits to negative vaccine efficacy. This is big. Finally, a paper by nine CDC authors published in JAMA in January 2022 (Association Between 3 Doses of mRNA COVID-19 Vaccine and Symptomatic Infection Caused by the SARS-CoV-2 Omicron and Delta Variants

<[https://urldefense.com/v3/__https://jamanetwork.com/journals/jama/fullarticle/2788485__;!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkoIY7FWOtA2PLmw0NP6nfAR-ylmHzi7Z0IfCPmy77PUog\\$>](https://urldefense.com/v3/__https://jamanetwork.com/journals/jama/fullarticle/2788485__;!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkoIY7FWOtA2PLmw0NP6nfAR-ylmHzi7Z0IfCPmy77PUog$>)) shows in Fig. 3 that the vaccines create negative efficacy for Omicron at month 7, just like the Denmark study showed too (in Denmark it was after 3 months)

<[https://urldefense.com/v3/__https://stevekirsch.substack.com/p/reuters-fact-check-of-the-denmark?utm_source=url__;!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkoIY7FWOtA2PLmw0NP6nfAR-ylmHzi7Z0IfCPniHjt3NQ\\$>](https://urldefense.com/v3/__https://stevekirsch.substack.com/p/reuters-fact-check-of-the-denmark?utm_source=url__;!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkoIY7FWOtA2PLmw0NP6nfAR-ylmHzi7Z0IfCPniHjt3NQ$>) . In other words, the CDC authors admit that the vaccines make you more likely to get Omicron starting in month 7. Isn't this contrary to what the CDC has been telling us? The vaccines aren't supposed to make things worse, right?

13. VAERS underreporting factor. What is the URF for VAERS this year? Why didn't anyone calculate it? Why didn't the FDA simply admit they don't know what it is when asked by a

reporter? Why does John Su never talk about the proper URF when he talks about the VAERS data? He knows how to calculate the URF since he was one of the authors on the CDC paper for how to do this. So why is he silent?

14. How can you do risk benefit calculation without estimating the VAERS URF? This is elementary, yet none of the outside committee members of the CDC or FDA ever asks about this. Why not? I keep bringing this up in my public testimony, but they just ignore me.

15. Pfizer Phase 3 trial exclusions. How do you explain the gaming in the Pfizer trial on exclusions (311 vs. 60)? (see Slide 65

<[16. Every randomized trial shows masks make no difference at all. If masks work, then how come the graph for purple cloth masks in the Bangladesh study](https://urldefense.com/v3/__https://docs.google.com/presentation/d/1m10LArf525tCPP2tz4-3O1DjEF99W8YKFTtkV_QEu4k/__;!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkoIY7FWOtA2PLmw0NP6nfAR-ylmHzi7Z0IfCPliISUdqw$>). That couldn't have happened by chance. And while you have that slide deck open, if you can answer any other questions in that deck, that would be super helpful.</p></div><div data-bbox=)

<[<\[<\\[17. Why don't we have any autopsies done by a competent authority? Why don't we just do autopsies of 100 people who died within 2 weeks of vaccination? We can have people like Peter Schirmacher, Ryan Cole, Sucharit Bhakdi, and Arne Burkhardt observe this work. That would settle the argument and end the vaccine hesitancy for sure.\\]\\(https://urldefense.com/v3/__https://stevekirsch.substack.com/p/foia-request-reveals-the-mask-policy?s=w__;!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkoIY7FWOtA2PLmw0NP6nfAR-ylmHzi7Z0IfCPkGjREJAQ\\$> ?</p></div><div data-bbox=\\)\]\(https://urldefense.com/v3/__https://www.poverty-action.org/publication/impact-community-masking-covid-19-cluster-randomized-trial-bangladesh__;!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkoIY7FWOtA2PLmw0NP6nfAR-ylmHzi7Z0IfCPISaG7gWA\$> ? I read through all 111 pages and couldn't find the graph. Not only did they omit the graph, but nowhere in the paper did they point out that the purple cloth masks had no effect. Isn't that scientific fraud? Also, if masks work, then why isn't there any data supporting the mask policy in Israel</p></div><div data-bbox=\)](https://urldefense.com/v3/__https://stevekirsch.substack.com/p/masks-dont-work?s=w__;!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkoIY7FWOtA2PLmw0NP6nfAR-ylmHzi7Z0IfCPnTFKFTsQ$> showed absolutely no effect and why did they omit this graph from the published paper</p></div><div data-bbox=)

18. Why is there a 5% rate of neurological damage after vaccination? If the vaccines are perfectly safe, then how do you explain how a California neurologist can have 1,000 vaccine injured in their practice of 20,000 patients. That's a 5% neurological injury rate. This closely matches the vaccine injury rate discovered by the Israeli Ministry of Health (which was 4.5%)

<[19. How do you explain this data](https://urldefense.com/v3/__https://stevekirsch.substack.com/p/how-rare-are-vaccine-side-effects?s=w__;!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkoIY7FWOtA2PLmw0NP6nfAR-ylmHzi7Z0IfCPnMe4uHdQ$> .</p></div><div data-bbox=)

<

20. Can you answer any of the questions on this list

<[--](https://urldefense.com/v3/__https://stevekirsch.substack.com/p/100-questions-they-dont-want-to-answer?s=w__!!LdQKC6s!JILsJ6nfFQ7RCi_RQ7KErbSaUecF3nO90kT3kD13YRcFMjk7HT2AbujBRESw5adbvlmrVkJOIY7FWOtA2PLmw0NP6nfAR-yImHzi7Z0IfCPkoFPgrYA$> ?</p></div><div data-bbox=)

Subject: Amendment 49 HB156

Will you please consider HB 156 and all the amendments to the house for a vote. Those that have taken the vaccine have become sick with Covid to the point it is not just a rare case. Speaker Pelosi who got all the shots, boosters and masked up demanding all others to do the same is now infected with Covid and she is not the only one. The vaccines have NOTHING for ANY VIRUS, the vaccine is actually for another purpose. There is nothing that shows us what the long term effects of taking this vaccine. Parasites have been found in the vaccine primarily Tripanosoma Cruze and the Hydra Valgarius.

All this was run through under an emergency order where is that emergency? The numbers do not add up sorry CDC keeps changing the actual numbers. People that were in a car accident or a heart attack were counted. Too many lies that were told are coming to light on the Covid vaccine. How many people dropped dead within 24 hours of taking the vaccine? There have been plenty but the actual numbers are kept ?? secret. Enough of this nonsense. Thank you for protecting use against vaccines, vaccine passport and stop the discrimination against those who choose not to be vaccinated!! Hello,

I am writing to voice my support of SB 156 and to ask for a hearing for this bill. It has had huge support from the public in the Senate. And we are seeing more and more information, such as from recently released Pfizer documents, that natural immunity surpasses any protection from these vaccines. Medical freedom is a basic human right. Everyone has the right to bodily autonomy and informed consent, free from coercion and force. Please support this bill. To deny someone services or employment based on a personal, private medical decision is nothing short of discrimination. We are on a dangerous slippery slope to creating a two class system of lesser human beings, and the thought is despicable. Please, protect the minority, protect the right to govern our own bodies, protect me and my children from forced vaccinations, and protect the equal rights of the unvaccinated.

Thank you,
Elizabeth

To: Rep. Jonathan Kreiss-Tomkins
Subject: SB156

Representative Kreiss-Tomkins,
I fully support SB 156.

A vaccination should never be a requirement to exercise our rights. The privacy of one's health information including vaccination status should be protected.

No one should be discriminated against in any way based on vaccination status. Vaccine passports embody discrimination and carry negative historical associations.

Each person should have the right to decide whether or not to be vaccinated. This is only a choice if one is free to weigh the factors without pressure, coercion, threat, or social stigma. No one should lose a job or have a job application turned down because of a vaccine. No one

should be barred from school or college because of a vaccine. No one should be denied or limited medical care because of a vaccine.

I urge you to support SB 156.

Sincerely,

Tracy Wilson

April 4, 2020

Representative Kreiss-Tomkins,

As nearly 50 year residents of Alaska and citizens of the United States of America who hold our constitutional rights dearly, we earnestly urge you to schedule HB 156 for a hearing! This bill has the potential to preserve and uphold the freedoms and rights of all Alaskan citizens. It needs to be heard now! Alaska could indeed be a leader for freedom and truth rather than just another state that has fallen. The horrors of what is happening in Australia and Canada should send loud and clear alarm bells to citizens all over the world.

You were elected by people who believed you would be true to your position and work toward the best interests of all Alaskans. Again, we earnestly urge you to do the right thing and schedule SB 156 for a hearing immediately.

Vaccine based discrimination is a recipe for disaster on many levels. Families and friendships have already been torn apart. Everyone has been subjected to more than two long years of fear mongering, shaming, and blaming. We have been coerced and bribed to take an experimental injection, then accused if we refuse. The suppression of efficacious COVID treatments plus the vilification of world renowned doctors and medical experts who are trying to save lives has alone cost countless lives so far. The injection according to many medical experts is not safe or effective! COVID itself has shown to be a "virus" that for most people is easily treatable especially with early intervention. The focus from the beginning of the whole COVID "pandemic" has been on vaccination, not on treatment, which sadly has also cost the lives of thousands of citizens. Unvaccinated people are not dangerous spreaders of COVID and should never, ever, be treated as such. Nor should anyone ever be discriminated against for personal health choices including an experimental vaccine.

Please schedule this important bill, SB 156, for a hearing as soon as possible.

Thank you for your attention.

Subject: Please hear and support SB 156

Please support SB 156 which protects citizens' right to privacy concerning health and protects their freedom to make informed medical choices. This bill affirms the fundamental American value of choice. If we are not free to make informed, voluntary decisions about pharmaceutical products we are encouraged to take, then we are not free in any sense of the word. By supporting this bill, we continue to protect the precedent of free choice set forth in our great United States Constitution.
Please support SB 156.

Subject: SB156 SA Committee Hearing

Hello Representative Kreiss-Tomkins,

I am writing to request that SB156 (Non-Discrimination on COVID-19 Vaccination Status) be scheduled and heard within the House State Affairs committee immediately.

It is unconscionable that even this week there are large scale events held in Juneau prohibiting individuals who cannot receive the covid-19 vaccine. In concert with medical professionals some Alaskans have chosen to not receive the covid-19 vaccine, which, despite following medical guidance, they cannot now participate as they would have normally in past years. Note that this paradigm has not existed in modern times for any other vaccine, nor does a 100% covid-19 vaccinated population enjoy protections from exposure to, nor prevention of transmission. An individual should not be required to show documentation of medical procedures by non-medical personnel. Further, these current practices are hindering community members from otherwise publically available services & vibrant arts opportunities.

Your action here is imperative. Please advise when it will be heard in committee.

Warm regards,
Cody Bennett

Subject: Re: Support For Senate Bill 156, Sponsored by Sen. Lora Reinbold (R-Eagle River)

Good Afternoon Representative Kreiss-Tomkins,

It has come to the attention of many people that there is a delay in allowing Senate Bill 156 to move forward to a vote. It has been reported that the bill is being held up in your office with no intent to move it forward. As a legislator, elected by the people, the sworn duty of the legislator is to represent the will of the people and to uphold the State of Alaska's Constitution which closely mirrors our Nations Constitution.

The Declaration of Rights in Alaska's State Constitution, States: This constitution is dedicated to the principles that all persons have a natural right to life, liberty, the pursuit of happiness, and the enjoyment of the rewards of their own industry; that all persons are equal and entitled to equal rights, opportunities, and protection under the law; and that all persons have corresponding obligations to the people and to the State.

Due to the infringements of these rights over the last 2 years and the governments desire to legislate through medicine and vocation, the necessity of Bill 156 becomes very clear.

If you are the cause of this delay, please do your part and move it forward. There is no long standing legacy to be had in forestalling this bill, the bill could actually be one of the highlights of your career. You can also claim to have pushed this bill forward and helped protect Alaskan's rights. Whether you continue in politics or not, your legacy is all you have and people will remember the choices you have made, even in the employment market.

Send this bill to vote.

Respectfully,

Jesse L. Thacker

Anchorage, AK

Attention Alaska State Legislature,

It has come to my attention that Senate Bill 156[<https://www.akleg.gov/basis/Bill/Detail/32?Root=sb156>], Sponsored by Sen. Lora Reinbold (R-Eagle River) is introduced into the Alaska State Legislature. This bill will help protect Alaskan Citizens right to make personal health choices for themselves and their loved ones. I support Alaskans right to choose their own health care. I also do not wish to be pressured by outside lobbyists, especially those of pharmaceutical company's, nor State Governments Agencies in mandating injection or ingestion of any drugs into my body or my family members. I implore you to support Senate Bill 156 and keep Alaskan's Free to make personal health care choices thus also supporting our freedoms and right to medical privacy. I am a voter and I do vote regularly. I have lived in Alaska over 30 years and shared this with everyone which is a lot of people.

Please let me know if you intend on supporting this bill or not.

Respectfully,

Jesse Thacker

Subject: Please allow SB156 to be voted on in the House

Honorable Jonathan Kreiss-Tomkins.

As a lifelong 67 year resident of Alaska and a 17 year resident of Haines and Juneau I wanted to reach out to you in support for SB 156 as a bill worthy of its bipartisan support. I firmly believe

that in all but the most extreme circumstances, that any drug offered by the government must be a free choice without coercion of any kind. What we have now with the current virus and vaccines is a failure of effectiveness, to a virus that doesn't meet the standards for the emergency that has been declared because of it around the world. The vaccine doesn't work to stop the spread of, nor infection with this virus. Because of their lack of long term effectiveness, and liability to the drug companies, the argument as to whether it reduces severity of the disease is marginal, and thus must absolutely be a personal choice. The fact that we are starting yet another round of boosters says that these shots offer only fleeting protection at best. There is growing evidence that the vaccines actually are doing harm to our immune systems is currently being ignored by media and health agencies, but for how long?

On a personal level, here in Haines I know of no one personally who has caught the virus that wasn't vaccinated. Due to exercising MY RIGHT to refuse this or any other drug I don't agree to, I have been shut out from going into Canada and traveling to my home town of Fairbanks to see my relatives for a couple years now with no end in sight. I realize that this bill would do nothing to the goings on in Canada, but for this side of the border we CAN set an example to the world and do something to stop these mandates, to a vaccine with NO knowledge as to the long term effects of these experimental drugs. If we have NO SAY in what gets injected into our bodies then we don't live in a free society any longer and I genuinely fear for the future of our country, and our world.

As more and more information comes out about not only the lack of efficacy, but the serious, possibly life threatening short and eventually long term effects of these shots. It is an issue that any politician would want to be on the right side of when the truth comes out.

Thank you for your reconsideration of this vital bill

Subject: SB 156 - Let's move it along!

Hello Representative Kreiss-Tomkins,

I fully support SB 156, and I expect you to do your duty as an elected public servant and move SB 156 along so that it can be voted on in the House. Please, consider my story and the protections and positive impacts a bill like SB 156 could bring to my life.

I am a mother of two young children, a 2 year old daughter and a 1 year old son. Last year, my husband was fired from his job for his medical status. I am a federal employee and have also faced threats of termination (that have temporarily been paused by court order) because I wish to keep my medical decisions private. Both of our jobs are desk jobs, fully able to perform remotely as needed. Yet, we face termination based on our medical status when we are fully able to "isolate" from our coworkers if our work judges community risk to be high. There are easier ways to mitigate risk than employment discrimination based on medical status. Without SB 156, there is a risk families like ours will be denied the ability to pay their mortgages. To feed their families. This is wrong.

When I was transferred to the hospital due to complications during the birth of my son, I was denied medically necessary care due to my medical status. I was transferred because after 40 hours of labor, my body was giving me the overwhelming urge to push but my body wasn't all the way ready yet. I risked damaging myself and needing emergency surgery, and needed an epidural to stop the pushing urge. In case you aren't familiar, when your body is trying to push a baby out, fighting that urge to push is like trying to stop a runaway freight train with nothing but mental determination. It's the hardest thing I have ever done. We knew from prenatal tests that my son was going to be born with a congenital defect that would need specialist treatment in the days immediately following birth. And these specialists were located in Anchorage, meaning I would have to fly with my son while he was only 1-3 days old. We had no COVID symptoms, and I had documented on my birth plan that I did not want to be COVID tested. If the test was a false positive, we would not be able to fly to get the necessary treatment for my son. So when the nurses at the hospital withheld the orders for my epidural until I "allowed" a COVID test against my will, I couldn't help but feel coerced, bullied, and manhandled. Their reasoning for forcing me into the test was solely to protect themselves, though they refused to wear higher level PPE as an alternative to my declining the test. They even tried to kick my husband out, even though policy said he was allowed to be there. The test was negative. And so was my birth experience. If that test flagged a false positive (like so many of the high-cycle PCR tests), my infant son's health care would have been in serious jeopardy. If I had proved I was vaccinated, I would not have been treated this way. I never want to go back to that hospital again, but it is my only option here in Juneau.

Before you judge me for your assumptions about my medical status, I am a nursing mother, and my family is not done growing. The vaccine has not been cleared for infant use, and instead has shown increased risk of heart problems in young boys. There has been little information on how the vaccine passes through breast milk. Furthermore, studies on female reproduction are not set to conclude for another couple years. I have a degree in Biology, so I am not uneducated. Regardless, we should all be able to make any and all personal medical decisions free from coercion and threats.

This discrimination is wrong. And it is hurting people. SB 156 would provide us with needed protection. Please, even if you don't agree with me, allow me and the people like me the dignity of a voice. Move the bill on to the House for a vote by our elected representatives.

Thank you,

Jessica Warmbrodt

Dear Representative Kreiss-Tomkins,

Thank you for your hard work and service in the legislature. I have especially admired and appreciated your work in supporting Alaska Native Languages.

I'm a life-long Alaskan, currently living in Haines. I'm writing to you today in regard to Senate Bill 156 "Prohibit COVID-19 vaccine discrimination". Over the past two years we have experienced an unprecedented loss of deeply personal choices in order to keep jobs, travel, and participate in life; all under the guise of protection and safety. Given the fact that there is now ample evidence which brings into question both the safety and effectiveness of the COVID-19 vaccinations, it is not reasonable nor ethical to restrict access to employment, travel, public events and services, etc., based on one's vaccination status. Alaska is a place where we live and let live. No threat exists that warrants the kind of overreach into our personal lives that has occurred in recent times. Although our constitutional rights and existing laws should already be protecting us from being coerced to accept unwanted medical interventions, Senate Bill 156 would further that protection. I am writing to ask that you and the House State Affairs committee schedule this bill for a hearing. This bill is about protecting our health and our freedom.

Thank you again for your service.

Sincerely,

Keri Eggleston

Why are you not moving this bill? I think you'll find in the end that MOST voters support this bill. You are mistaken in your thinking that you can just bury it. Eventually it will come back to haunt you because research is now coming out that the vaccines were quit harmful besides being experimental. People need informed consent and to be able to decide for themselves without being pressured.

Rep. Kreiss-Tomkins;
It is absolutely unconscionable that you are holding up Sen. Reinbold-sponsored SB 156 in committee. With all that has been learned in recent months about the "vaccine", you know that

it will be pulled from the market once the FDA and CDC are flushed of the corruption within. You and your colleagues who deny passage of SB 156 will also eventually be flushed out of Alaska's legislature as more and more people learn the truth of these hideous death shots. If you had one ounce of decency, you would be pushing this bill through with a bipartisan effort to pass it post-haste. The fact that you are not doing so exhibits your weakness and the corruption of the political party you choose to hide behind. You should be ashamed.

Subject: HB 156

Representative Kreiss-Tomkins,

I am contacting you in regards to House Bill 156, which aims to protect Alaskan citizens from being denied goods, services or livelihood for declining to take the experimental Covid-19 vaccine. The new and experimental mRNA vaccines may be seen as something of a medical miracle by some, but by others who are more cautious, the speed with which they were developed, the paucity of safety data, and the way that they are being pushed so heavily on everyone regardless of health or risk status is something to be concerned about. HB 156 is an

important step for Alaska's legislators to take to prevent the discrimination and abuse of individuals who cannot, or choose not to, be inoculated with this new and experimental medical treatment. Every Alaskan should have the right to work and engage in society without fear of discrimination on the basis of their personal medical choices, and those medical choices should remain private. Please do the right thing in making sure this bill goes to the house floor for a vote as soon as possible. And if you care at all about the civil rights of Alaskans, then please vote to pass this bill and make it law.

Sincerely,
Brandi Fleshman

Dear Representatives,

Please allow SB156 to move through your committee. The whole Covid pandemic has divided the country, our beloved state and even families. The swirl of misinformation has a life form of its own. Please let this bill pass through. The question then has to be asked "Why not?" What is there to fear? I am a life long Alaskan of 67 years and was taught to think for myself, gather as much information as possible and then make my decision. If it was wrong, then adjust accordingly. Now that there is a plethora of information from all around the world, I would say some of the nation and state's decisions were wrong and it's time to make a course correction. A small party of seven should not be the totalitarian voice of all Alaskans.

Thank you,

Subject: SB156 seems to still be in your committee

Are you sure you want to stand on the one-size fits all medical intervention by mandate side instead of the individual personalized medical intervention by choice side. I think that vaccines are great and they should be available for all who have decided that the vaccine option is best for them.

I have had unique and not so pleasant adverse side effect from multiple medicines and intervention which are safe for the majority of the public so for my own personal safety and the safety of the other unique individuals with personal and unique medical histories, I have to be

on the individual personalized medical intervention by choice side. I am sorry to say I am not willing to live through those adverse reaction again so that some medical provider can document them so that my government will not think I am lying, or that it was all in my head, or the most disheartening of all that I am just part of some conspiracy theory which has been fed misinformation.

Please help protect me from one-size fits all medical mandates. That can be used to discriminate against me just because I want to be able to make my own health divisions based on my own medical history and be responsible for living with my decisions and not being forced to live with the results of a one-side fits all mandated approach to medicine.

We all have unique individual DNA and my DNA seems to make me prone to having negative side effect to odd and seemingly safe things -shouldn't I be able to use this knowledge about myself to make personal heath choices without the fear that my government will discriminate against me for wanting to make those personal choices myself.

There is no 100% guarantee in this life we all are just trying to do the best that we can.

I do not personally believe in abortions but I was willing to agree with the argument of my body my choice but I guess the my body my choice argument is no longer valid. Now it is your body is subject to any presidential executive orders. Because as my president said on pubic televisions "there is not excuse for being unvaccinated" so I can not use the my body my choice excuse for medical mandates and no one will be able to use that excuse for any other medical mandate that a president decides to place in an executive order. What a scary thought. I guess I can always hope that the next one will not have the possibility of causing me great harm and discomfort.

Please move SB156 forward so that I can feel that not all government officials believe that one-size fits all medial mandates are better that individual personalized medical choices.

Thank you

Representative Kreisler-Tompkins,
Senate Bill 156 provides indisputable rights for all Alaskans with their choices for medical freedom concerning the Covid-19 vaccine. It reaffirms the override of our god given and constitutional reinforcement of rights to chose what we want to put into our bodies by disallowing the forced mandates.
This Bill needs to be brought to the floor of your committee. Public comment has to be allowed to be heard. You can stop the damage that these illegal mandates and forced vaccines are doing to all Alaskans. The demand to get an emergency use vaccination or lose your rights to participate in society must be stopped now.
This is a monumental Bill for Civil rights please support it and encourage the passage for the good of all.

Subject: SUPPORT SB 156

ATTN Alaskan State Representatives,

I am contacting you to express my concerns regarding the Senate Bill 156 that protects our right to privacy concerning health and protects our freedom. A choice of whether one chooses to be vaccinated should remain between a family and their doctor. Medical procedures must remain a choice, especially procedures with known risks.

Vaccines are chemically synthesized biopharmaceuticals with known and documented side effects that include permanent injury and death. Forcing such a procedure on a non-consenting individual that carries the risk of injury or death, no matter how small that chance may be, is unethical and incomprehensible. We must protect our citizens from such a tyrannical measure.

Federal and state law on this point stem from the first principle of the Nuremberg Code that the human subject be "so situated as to be able to exercise free power of choice without undue inducement or any element of force, fraud, deceit, duress, or other forms of constraint or coercion." This is a line that cannot be blurred. Consent of the individual must be protected. Anything else is tyranny.

These rights are already protected under HIPAA. HIPAA neither authorizes nor permits the disclosure of any medical records. Breaking current statutes and laws in place to protect the individual freedom and privacy sets a dangerous precedent. We must not go down this road! Please vote to protect our God-given and Constitutional rights.

This bill affirms the fundamental American value of choice. If we are not free to make informed, voluntary decisions about which pharmaceutical products we are willing to take, then we are not free in any sense of the word. If we pass this bill, we protect the precedent set forth in our great United States Constitution.

Please support SB 156.

Thank you,

To: Rep. Chris Tuck
Subject: SUPPORT SB 156

ATTN Alaskan Representative OR Senator

I am contacting you to express my support for Senate Bill 156, it protects our right to health privacy and safeguards our freedoms. The choice of whether a person chooses to be vaccinated should remain between a family and their doctor. Medical procedures must remain a choice, especially ones with known health risks.

The experimental mRNA COVID "vaccines" are a new technology that have not gone through the lengthy process of proving their safety and efficacy. Long term side effects are still unknown; however, we now know of many highly concerning and permanent short term side effects, including death. Forcing this procedure on non-consenting individuals is unethical and

incomprehensible. We must protect the citizens of our state from tyrannical measures such as forced vaccination with an experimental "vaccine".

Federal and state law are codified in the first principle of the Nuremberg Code which states that the human subject be "so situated as to be able to exercise free power of choice without undue inducement or any element of force, fraud, deceit, duress, or other forms of constraint or coercion." This is a line that cannot be blurred. Consent of the individual must be protected.

Anything else is tyranny.

These rights are already protected under HIPAA which neither authorizes nor permits the disclosure of any medical records. Breaking current laws already set in place to protect an individual's freedom and privacy sets a dangerous precedent. We must not go down this road! Please vote to protect our God-given and Constitutional rights.

This bill affirms the fundamental American right to freedom of choice. If we are not free to make informed, voluntary decisions about which pharmaceutical products we put in our bodies, then we are not free at all. By passing this bill, you will protect and affirm the precedents set forth in the United States Constitution.

Please support SB 156.

Subject: Support for SB156

Thank you for taking the time to hear from Alaskans on this important piece of legislation. I have supported its passage through the Senate and would like for it to be heard in the House. This bill is critical for Alaskans to maintain their constitutional freedom. Too many people have been discriminated against because of their vaccination status. Many have lost their jobs and those who would "Follow the Science" should recognize that the so called Covid 19 Vaccine does not stop the transmission, nor does it keep anyone from contracting it. Those with natural immunity are actually found to have better resistance to Covid 19 than the vaccinated. Regardless of where you fall in your belief on the vaccine, nobody has the right to mandate an experimental

medical procedure in order to work, or take care of your family. This bill strengthens our rights under the state and federal constitution.

Please schedule this bill for review as soon as possible. We need this to pass to protect people in Alaska against rank discrimination. If any of you would like to discuss this further, please feel free to contact me directly any time. Thank you for your consideration,

Mel Steinberg

Subject: My Testimony on SB 156

I also write in support of SB 156. It's a shame that there needs to be a law like this even introduced in order to reinforce our already existing freedom from medical and religious tyranny. We shouldn't be living of such threats and in fear like we have for the last 2 years with our freedoms being threatened, restricted, and suspended. Never in my life did I think I would see experience this in America. If I had known my country would do this to its people, I never would have signed up to defend her after 9-11. I don't know that living under the tyranny of someone like Saddam Hussein would be much worse than the trend away from freedom that we're seeing now. We all see where this is going. For many years we warned that vaccine mandates would be threatened and pushed on us, and we were called conspiracy theorists, but here we are. Maybe tyrannical governments in the past have established precedent with vaccine mandates and restrictions on freedoms for various reasons, including health concerns, but there is also precedent of mass genocide by tyrannical governments when the people would not comply with their immoral demands, so precedent does not make something established, moral, or acceptable, in our present, or our future.

I choose to not take the vaccine on religious grounds, as my body is my Temple, and I do not desire to defile it with what I, due my religious beliefs, deem to be toxic. My God, who is my Creator, is my Healer, and my Protector. Full stop. I only want to put into my body what I believe He deems to be acceptable in my Temple. I don't know whether this vaccine or its passports could be the dreaded mark of the beast, but see as how religious convictions are being tested with it, and people have been imprisoned with lockdowns, forced to cover their faces and airways, not allowed to go shopping or open their businesses to make an income, all in order to pressure them to comply, I see how it could be, so no thank you, because we all know what the Bible says about those who take that mark! If you don't know, it would behoove you to open a Bible and look it up! I also, and some of my family members, have in the past had harmful reactions to vaccinations, including developing lumps, allergies to foods like fish and nuts, hearing loss, seizures, dangerously high fever, severe respiratory infections such as pneumonia, etc... I shutter to think what else may come down the road as a result of years and generations of vaccinations. I have such severe drops in blood pressure when presented with needles that I have several times passed out while giving blood and being given IVs, that I once was ordered by a doctor to never give blood again because the last time I gave blood he said he could not find a pulse and I did not seem to be breathing. He said it was not easy regaining my vitals and he at one point became very concerned that I might not regain consciousness that day. Looking back on the MANY and TRAUMATIC experiences I had after receiving medical "care", I later decided it best to leave my health and life to my Creator going forward, and that decision has worked out very well for me for the last decade, and I have not used my "free" medical veteran "benefits" since. If only my husband and I were paid more \$ for our service

instead of being offered "free" medical pork, which we pay with our taxes and effects on our health, so not really free, that hasn't help us a bit in the end!

We should all treat others as we want others to treat us. I believe in the Golden Rule. I do not ask or force others to put what they believe to be dangerous toxins into their own bodies for my sake, and I do not appreciate anyone trying to force that on me, whether by holding me down or starving me or restricting my freedom to buy, sell, trade, shop for food, travel, or socialize and gather, the same extant as those who choose to be injected with substances that they believe to protect them, even though facts show the injected are becoming infected with Covid and transmitting it as much as those not receiving an injection. The argument for forced and coerced vaccinations on the unwilling or less willing has been that it will protect others, stop the spread, and eradicate the virus. This has proven to be untrue because even the boosted and fully vaxxed are still getting it and passing it on at nearly the same rate as those who refuse the jab, so why push this when we know it will not do what it was advertised to do from the beginning? Some admit this, and now say that one is less likely to die if they are vaccinated. What if I'm prepared for that knowing that we all die someday? What do you care how I die, whether it's from Covid, old age, or a car accident? Why shouldn't I be free to decide that a vaccine is not a risk that I want to take for my spiritual or physical health? You worry about me if I die from Covid? So what? I worry about you if you die from a shot. The claim that one is less likely to die from Covid if they're vaccinated is not looking to be true when one considers the short and long term effects of this experimental vaccine that are being reported, and aren't being reported. While I do not personally know anyone who died from Covid, I do know several people who regret taking the shot because they have experienced negative consequences in regards to their health, and we've heard plenty of reports of plenty of athletes and healthy young people dying and having strokes and heart attacks after being vaccinated, even unable to any longer play the sports that they were vaccinated for, in order to be able to play. I know people who are now anti-vax, not against Covid vaccines, but now ALL vaccines, because of what they're seeing and experiencing with these Covid vaccines.

I liken forced and coerced vaccination to the Greeks who forced the Jewish people to ingest pork, against their faith and religious convictions, and against the commandments of the God of Israel, during the time of the Maccabees. Tyrannical governments never last. They always fall, along with all those who lead in their oppression against the people, and history does not look upon them favorably. Support Freedom! Stand with us against medical and religious tyranny! It is violence!

Respectfully,
Mrs. Sanchez

Subject: Vaccine mandate needs scheduled and passed

Sent from my iPadi

I am writing for two reasons. SB156 needs to be on the schedule to be voted on and I want to say that you need to pass this.

I live in Hoonah and know several parents of teenagers that are hesitant to get the vaccine for heart and or reproductive means and they are denied summer jobs because they can't work for the tourist industry because of the vaccine mandate. The mandate also affects college plans and almost all further education, yet for the young males, cardiac problems are a real issue. I believe the vaccines are not safe period, but to make a health issue a separating factor in American lives is I believe unconstitutional.

Please put the issue on the schedule and vote to do away with the discrimination the mandate causes. Thank you for hearing me out on this matter.

Subject: Re: SJR 21 and SB156 - Covid Discrimination

Representatives:

A further nail in teh coffin for the Covid emergency. The federal government is no longer be reimbursed for the COVID Vaccine:

<https://www.hrsa.gov/CovidUninsuredClaim>

<[https://urldefense.com/v3/__https://www.hrsa.gov/CovidUninsuredClaim__;!!LdQKC6s!bLJIfYv6i0SBH2YypznICpdNGPV6QWcSrF8N9Ib99bQpa4rTxmslcgtWNTJebBNPGcxYX1VuV2c5KnJDAIdzsa2cPQ\\$>](https://urldefense.com/v3/__https://www.hrsa.gov/CovidUninsuredClaim__;!!LdQKC6s!bLJIfYv6i0SBH2YypznICpdNGPV6QWcSrF8N9Ib99bQpa4rTxmslcgtWNTJebBNPGcxYX1VuV2c5KnJDAIdzsa2cPQ$>)

The Uninsured Program has stopped accepting claims for testing and treatment due to lack of sufficient funds. Confirmation of receipt of your claim submission does not mean the claim will be paid. No claims submitted after March 22, 2022 at 11:59 pm ET for testing or treatment will be processed for adjudication/payment.

On April 5, 2022 at 11:59 pm ET, the Uninsured Program will also stop accepting vaccination claims due to a lack of sufficient funds.

*Submitted claims will be paid subject to the availability of funds.

This is either an emergency or its a continued lie to launder funds under the declaration of an emergency. Stop the lies and madness and pass SB156, and force the Governor to end the emergency.

Thanks

Mike

On Wed, Mar 23, 2022 at 8:22 AM Michael Kruse <mike.t.kruse@gmail.com>
<mailto:mike.t.kruse@gmail.com> > wrote:

Good Morning -

I am writing to the entire House of Representatives

I am writing in support of two items related to Covid Discrimination. I am a project manager who has served all of Alaska for the past 15 years, 10 of that in rural Alaska. I am originally from Eagle River and now reside in Palmer with my wife and children.

First is SJR 21, for Canadian Travel. Canada has become the first country to prove this "pandemic" was not about health and safety, but control and removal of rights. No country has the ability or right to be able to tell another human being what they can do with their own medical care. Even traveling to Africa where smallpox is a very real threat, they do not require a vaccine, which is actually sterilizing, but simply recommends it strongly and let you take that risk.. Since the Covid Vaccine is not sterilizing, mandating it makes no sense. This ties directly to SB 156.

Furthmore, if Canada wishes to maintain this position, we as Americans should not support them in anyway. No financial gain from tourism, travel or any other means. We as Alaskans can make the sacrafces necessary to show tyranny that we will not stand. yes it will be inconvient for some, but it is worth the risk.

Before I begin on why SJR and SB 156 are so important, I would like to address one of the particularly silly responses I have heard from the Legislature and other government agencies: that somehow the Legislature does not want to pass a bill that "tells businesses what to do" This is the weakest response to this bill imaginable. The government tells businesses what they can and can't every day through ADA regulations, building codes, license requirements, and the other thousands of state regulations published on the State of Alaska website.

A great example of this is trying to get a home inspector's license . I passed the national exam but was required to get insurance, a bond, fill out 30 pages of documents only to be told by the State of Alaska that it will take 4-6 weeks to even review my application. So please, do not patronize us that the government doesn't absolutely love telling businesses what they can and can't do. You are currently delaying my ability to earn extra income by 6 months. I am currently in week 6 of waiting, and on a normal fee schedule assuming a healthy amount of work I have missed out on \$36,000 in gross revenue because of government incompetence and continued inability to actually accomplish anything.

The government already tells businesses not to discriminate against anything in Title 7 or the 1964 Civil Rights Act. This bill is merely an extension of the idea that people can not discriminate against another person. Medical segregation is no different than discrimination by race, religion, or another defining characteristic.

The role of the government is not to protect businesses, but to protect the individual from business or outside threats. The following laws all protect the individual and if applied to Covid as SB 156 does, protect the individual from harassment and medical tyranny.:

Example #001 ADA

The ADA prohibits discrimination based on disability in employment, State and local government, public accommodations, commercial facilities, transportation, and telecommunications. It also applies to the United States Congress

To be protected by the ADA, one must have a disability or have a relationship or association with an individual with a disability. An individual with a disability is defined by the ADA as a person who has a physical or mental impairment that substantially limits one or more major life activities, a person who has a history or record of such an impairment, or a person who is perceived by others as having such an impairment. The ADA does not specifically name all of the impairments that are covered

Title I requires employers with 15 or more employees to provide qualified individuals with disabilities an equal opportunity to benefit from the full range of employment-related opportunities available to others. For example, it prohibits discrimination in recruitment, hiring, promotions, training, pay, social activities, and other privileges of employment. It restricts questions that can be asked about an applicant's disability before a job offer is made, and it requires that employers make reasonable accommodation to the known physical or mental limitations of otherwise qualified individuals with disabilities, unless it results in an undue hardship. Religious entities with 15 or more employees are covered under title I.

So from ADA laws, a business may not restrict privileges of employment and make reasonable accommodations. Being unvaccinated is not an undue hardship on a business unless the government has forced you to lockdown.

Example #002 - Civil Rights Title 7

It shall be an unlawful employment practice for an employer -

(1) to fail or refuse to hire or to discharge any individual, or otherwise to discriminate against any individual concerning his compensation, terms, conditions, or privileges of employment, because of such individual's race, color, religion, sex, or national origin; or

(2) to limit, segregate, or classify his employees or applicants for employment in any way which would deprive or tend to deprive any individual of employment opportunities or otherwise

adversely affect his status as an employee, because of such individual's race, color, religion, sex, or national origin.

Not sure how much clearer anyone can be on this. The law already states, no business can create a situation to deprive an individual of employment or adversely affect his status as an employee.

Example #003 HIPPA

The HIPAA Privacy Rule establishes national standards to protect individuals' medical records and other individually identifiable health information (collectively defined as "protected health information") and applies to health plans, health care clearinghouses, and those health care providers that conduct certain health care transactions electronically. The Rule requires appropriate safeguards to protect the privacy of protected health information and sets limits and conditions on the uses and disclosures that may be made of such information without an individual's authorization. The Rule also gives individuals rights over their protected health information, including rights to examine and obtain a copy of their health records, to direct a covered entity to transmit to a third party an electronic copy of their protected health information in an electronic health record, and to request corrections

****NOTE, while it is true that if i choose to give up my medical information, this is not applicable, the point is that it is illegal to ask for any reason as an employer.

As a direct result of this pandemic, our livelihoods have been threatened every day since the experimental vaccination began being administered. Both of our employers have stated that we may be subject to disciplinary action, or in the case of my wife terminated despite our deeply held religious beliefs and documented medical exemptions. In addition, our entire family survived COVID Exposure in 2020 but are not allowed to cite natural immunity. This one size fits all medical approach is unscientific, discriminatory in nature, and at best unethical.

Vaccines are proven dangerous and ineffective for many individuals as demonstrated by my daughter's reaction in 2019. She was given a well-child exam vaccine as part of the vaccine. She immediately went into uncontrolled vomiting, seizure, and spiked fevers for days. I was on-site in rural AK, with no way home to take care of my family due to a medically induced life-threatening event. Our doctor spent 6 months denying the reaction, and finally when pressed agreed that it was most likely the vaccine that caused the reaction, but didn't want us to have a negative opinion of vaccines.

After reading the insert of the vaccine, we learned the manufacturer stated her reaction was a known side effect, and she should not receive any vaccines if the reaction occurred. When we approached our doctor on this issue, we were hastily thrown out of the practice as anti-VAXes. We were not even allowed to question the vaccine. The law provides for exemptions, but medical professionals, businesses, and governments are allowed to discriminate against a population for a purely political and partisan issue.

More recently, I have been threatened with my job and way to provide for my family and under constant scrutiny from employers and potential clients as to my current status. These entities take State and Federal funds and claim they do not have to comply with Civil Rights Acts or Title 7 anti-discrimination laws. Vaccinated or not, no one should be allowed to discriminate against a personal choice that has no effect on anyone but themselves. The Vaccine has been proven, federally admitted to, and ignored by global media to NOT prevent transmission. The fact that a vaccinated person can spread Covid at the same rate as a

vaccinated person means no passport, mandate, or another form of proof will keep our population safe.

To further emphasize that this is not a public health emergency, please find the attached report from Impact Research. A national research group dedicated to creating a narrative to unseat republicans. That's a direct quote from their website.

<https://www.impactresearchinc.com/>

<[This document is the source of the recent pivot by liberal leaders and government agencies. The "public health" circus that we have endured for 2 years is now over. This is so the narrative can be flipped to:](https://urldefense.com/v3/__https://www.impactresearchinc.com/__;!!LdQKC6s!bLJIfYv6i0SBH2YypznICpdNGPV6QWcSrF8N9Ib99bQpa4rTxmslctgWNTJebBNPGcxYX1VuV2c5KnJDAIdkDrL42A$></p></div><div data-bbox=)

1. Democrats "beat" covid. Zero Covid and forced vaccines have been the drumbeat for 9 months, not suddenly that doesn't poll well.

2. People are worn out. How is that a reason to end an emergency unless there never was one, to begin with?.

3. And my personal favorite: • Stop talking about restrictions and the unknown future ahead. If we focus on how bad things still are and how much worse they could get, we set Democrats

up as failures unable to navigate us through this. When 99% of Americans can get vaccinated, we cause more harm than we prevent with voters by going into our third year talking about restrictions. And, if Democrats continue to hold a the posture that prioritizes COVID precautions over learning how to live in a world where COVID exists but does not dominate, they risk paying dearly for it in November.

The memo is attached for your reference.

Do your job, and protect Alaskan's from the government and defend the rights of the individual. If you do not support these bills/resolutions you are admitting you are for discrimination so long as you agree with the characteristic being discriminated against.

Thanks. I would welcome communication by any of you on this or a number of topics. My cell number is below.

Mike

Subject: Schedule SB156 in State Affairs ASAP

Dear Representative Kreiss-Tomkins,

I urge you to schedule SB156 in State Affairs immediately.

COVID-19 injections do NOT stop transmission and do NOT stop infection, therefore herd immunity is impossible to achieve through "vaccination" and therefore, mass vaccination have no epidemiological justification, and therefore the societal goal of vaccinating everybody to protect others is null.

With this reality, vaccination mandates go into the trash can.

These two acknowledgements from the CDC are official recognition of the statement above:

Fully vaccinated people who get a breakthrough infection can transmit the virus, CDC chief says

Honorable Representative Kreiss-Tomkins,
I am writing to as the Chair of the State Affairs Committee to request that you schedule Bill SB156 to the State Affairs for a vote in the House.
SB156 passed the Alaska Senate with a firm majority because it is the will of the people of Alaska.

The freedom to choose what medical procedures are done to a person's body is a basic human right. Medical procedures should be between a person and their doctor and remain confidential. Vaccines should never be mandated for all by any government or used as a tool of discrimination in the workplace or for public transportation. I hope we have learned from the last two years how horribly wrong this public policy was. It was a complete disaster and it divided families and the nation. Please help protect Alaskans from this discrimination of a failed public policy and let the House vote on SB156.

Sincerely,

Margaret Johnson

Subject: SB156

Dear House State Affairs Committee:

I am writing to you today to encourage you to schedule SB156 for a hearing in the House State Affairs Committee ASAP. This bill is being applauded across the nation for its clear message of individual rights, medical freedom, and bi-partisan support.

Alaskans cannot have their medical freedom stripped from them. Mandating an EUA "vaccine" is insanity. There is no accountability, no liability, no risk to the agencies and pharmaceutical companies trying to force this upon the entire country, but GREAT risk of loss of freedom and health to Alaskans. Stop the insanity!

Personally, this is an insult on top of injury for my family. My husband survived Covid 19. He fought for his life and beat the "medical care" and mandated isolation for 4 months. We have lived the hell of having our medical freedom stripped from us. As he was fighting for his life in the hospital the doctors stood over his bed threatening him to get the vaccine or he will most

likely die if he gets Covid again. He is lying in a bed, can't talk, can't move and they stand over him telling him he might not survive...again and again. My husband, who has natural immunity and should not be administered any vaccine while severely ill, will not take a shot to appease the insanity of this medical tyranny.

These discussions on mandates and Bills should not be happening. It is an Emergency Use Authorization shot. There has been no full disclosure of what is in the shot, no full disclosure of clinical trials and no informed consent. Bottom line...individuals cannot be mandated to inject a substance period!!

I urge you to stand with Alaskans, work for us and with us to protect our freedom of medical choice.

Thank you for your time.

Sincerely,
Cindy Hite

You must let this bill be heard. The people of Alaska will not stand for any of our representatives ignoring our bodily autonomy! I can promise that if you don't let this bill be heard, the people of Alaska will vote you out when your term is up. Our rights as Americans and Alaskans are the most important things to us and as a mother I'm standing up for my children's rights to live in a free society the way you and I have been afforded. There is nothing stronger than mothers protecting their children, and we will not let this government overreach stand.

Good morning,
I'm writing to ask that you schedule SB156 in state affairs immediately. Mandating medical treatment is wrong. We should have the right to choose what goes into our bodies. As a nurse I am passionate about adults choosing their healthcare and parents choosing for their children. No one should be coerced into taking medical treatments. Covid-19 mandates violate the rights of all Alaskans and state law needs to protect us. Thank you.

Representatives Kreiss-Thomkins and Zulkulsky,

Please schedule SB 156 for a hearing before the House State Affairs Committee.

It is important that the legislators of Alaska uphold their oath and singular job to protect Alaskan's inherent, civil and privacy rights which shall not be infringed. There is no emergency clause, pandemic exemption, or otherwise to those rights.

While I have sent 160+ peer-reviewed high-quality research to the entire Representative body I will not repeat all of the information but summarize:

Covid 19 vaccines do not now nor ever stopped transmission. Equal transmission has been demonstrated between vaccinated and unvaccinated individuals. Vaccinated healthcare workers are responsible for the nosocomial outbreaks we have seen all over the world and even in our state in nursing homes and hospitals. Despite the misinformation both Senator Keihl and Stedman stated. 100% of the employees at the Pioneer home are vaccinated and boosted. You cannot visit your family without proof of vaccination or a negative test. This means vaccinated healthcare workers transmitted the virus to the patients Steadman referenced. Senator Keihl is clearly woefully uninformed scientifically in the CDC's literature based on his 20-minute rant. He did however rightfully acknowledge that no vaccine is perfect or without risk. As a healthcare provider, no medicine or medical device is 100% right for all people. To act as if everyone has the duty or appropriate need for any vaccine above what their medical status and condition is is so far from wrong and in contradiction with how we have practiced medicine for 100 years. If there is a risk, there must be a choice. Withholding rights from those who decline for good reason is not a choice, it is force.

We would never allow a business owner to tell a woman she must take birth control to prevent pregnancy that "may cost the business in employee time and wages" which we are seeing as a justification of forcing vaccination so that the business doesn't suffer employee sick days from covid. To that birth control with all of its risk and side effects is far more effective than any of the covid 19 vaccinations.

I may not approve of someone eating anything but fast food and drinking soda knowing that will cause them to have a myriad of lifestyle diseases and health care needs. But their body is not my responsibility or under my control. Individuals must make their own choices and live with the consequences. The vaccines don't stop transmission so there is a zero net effect between individuals. The responsibility ends with the person, get vaccinated and boosted if that is what is best for you and your condition but that will have zero bearing on the community infection rate and spread. I assure you hospitals do not withhold treatment for people who have eaten themselves into obesity and as a result have failing health. They do not turn away those with type two diabetes or heart disease, also caused by poor lifestyle choices. If they turned away those who failed to care for their health 90% of their clientele and funding would disappear. This vaccination force is a political tool, not a scientific one. The further the health department and the vaccine zealots push the further the trust in our public health will fall.

We must return to reality, individual choice, individual responsibility.

Please hear the bill soon and you will see the tsunami of support this bill has from individual Alaskans across the entire state. I will also remind you, you are in place to represent your constituents, not the hospital lobby. 50% of Alaskans are not vaccinated and very few are "fully vaccinated", those who once vigorously supported these vaccines have now seen the abuse of rights and evil segregation and discrimination and now will not participate in the public health schemes. You will be on a shortlist of individuals who will ultimately be responsible for the restoration of the Alaska Constitution or the supporter of segregation and political discrimination. It would be wise to consider that carefully.

Thank you,

Kendal Kruse

Sent: Thursday, March 24, 2022 5:39 PM
To: Rep. Jonathan Kreiss-Tomkins; Rep. Matt Claman
Subject: schedule SB156 for a hearing

Representatives Kreiss-Thomkins and Claman,

Please schedule SB156 for hearing before your committee. It is important that the House State Affairs Committee support an Alaskan law that affirms the right of people to freely choose whether or not to take a Covid vaccine. It is a personal medical decision that should only be decided by personal informed consent, and not be forced, coerced, or influenced by any employer, public administrator, or private entity.

The data shows the protection of the Covid vaccines wanes with time. It does not prevent one from catching and spreading the virus, or in fact, still being hospitalized with Covid. Additionally, as the Covid virus has mutated the vaccines have become increasingly less effective against

the new variants, as in the case of the Omicron variant against which the vaccines are less than 20% effective.

The science is clear Covid vaccination does not "stop the spread" or "protect those who we come in contact with". Those are misconceptions that still are widely believed and promoted as justification for vaccine mandates and vaccine passports. In their recent testimony against SB156 in the Alaska Senate, Senators Kiehl, Stedman and von Imhof repeated the popular misconception that Covid vaccination of health care workers protects the people in their care. Unfortunately, these Senators' beliefs are not backed by the data and science.

In the emotionally driven atmosphere of Covid news and public messaging most of the public is not aware that the Covid vaccines are still in trial under Emergency Use Authorization - the Pfizer and Moderna Covid vaccines products that have gained FDA approval are still not available for distribution in the US. The Pfizer and Moderna Covid vaccine doses being currently administered are, as the FDA says in its public notices, "from existing stocks until the licensed products become available". In short, the safety of these products is still being evaluated, people taking these shots are volunteering in a medical experiment, and the makers of these products are fully protected from liability for any harms you may suffer.

Alaskans who are following the science and their good sense deserve to have their freedom to choose protected by law. SB156 will do that. Thank you for supporting freedom and science.

Subject: Schedule and Support SB156

Hello,

I encourage you to put SB156 on the schedule for next weeks meeting. I also want to mirror the sentiments of all the other Alaska residents that are contacting you regarding this bill. Please do not let the misconceptions of Senators Kiehl, Stedman and von Imhof, that these vaccines have any kind of provable efficacy deter you in your responsibility to listen to the people you represent and hear their voices and experiences. Mandating experimental medical procedures is not only unconstitutional, it is contrary to the Nuremberg Code, of which the US is a signatory. This bill would simply clarify the illegality of the practice in the state, the constitutionality of which is already determined.

Thank you.

Sincere Regards,
Juneau Resident and parent

Subject: SB156

Dear Senator Stevens,

I am writing this email, URGING that you will agree for the SB 156 Bill to be heard on the Senate Floor. I am trying to become more involved in what is happening in our political system and feel the peoples' voices need to be heard. I have to be honest that this is all very foreign to me. I do not understand all the political lingo most of the time and quite frankly it pretty much intimidates me how certain bills and propositions are worded, because it sounds like they are written to confuse us normal people so we really do not know what the heck we are voting for or against. So instead, I have felt like I was forced to sit back and just hope the people in office were doing what's best and standing up for our rights. Unfortunately, I am feeling less and less confident in our judicial and political system when I hear about freedoms they are trying to take away.

I feel that the SB 156 anti-discrimination bill needs to be heard. I strongly agree that nobody should be discriminated against in how they decide to treat themselves medically and for healthcare purposes. We also need to consider how our money is following each of our kidds, regardless of where they decide to go to school.

Thank you for your time. My vote depends on who is in support of this bill.

Subject: Schedule hearing for SB156

Dear Representative,

Now that the Alaska Senate has passed SB 156 I am calling upon you in the Alaska House of Representatives to schedule and support the bill.

I support Senate Bill 156, sponsored by Senator Lora Reinbold, which would make vaccine mandates and so-called "immunity passports" unlawful in Alaska. Nobody should be fired from their job, kicked out of school, or denied access to public places for simply declining to accept a medical intervention.

Requiring proof of a "vaccine" or proof of any other medical intervention or negative test until very recently would have been considered discrimination and would have been subject to prosecution. When have we ever asked someone if they were positive for Hepatitis to go to the

movie theater? Or Tuberculosis? Or HIV? Those health issues are both contagious and have a higher mortality rate than COVID.

Are we going to mandate that no one may use cigarettes and other Tobacco products? Those have been proven to cause serious health issues to the user and others through by 2nd hand smoke. Strain is placed on the health care industry from COPD and lung cancer, so we should mandate no one may use tobacco, correct? This is the logic used to mandate the "vaccines". So it comes down to no one gets a choice about their own health right? This is where the logic of demanding people accept one course of action goes, we then add more and more mandates until there is no freedom or choice ever again.

My body! My Choice! The constitution says I have the right to LIFE, LIBERTY, and the PURSUIT OF HAPPINESS! I cannot be mandated to accept any medical intervention that I am concerned will affect my LIFE, LIBERTY or PURSUIT OF HAPPINESS!

Alaskans have the right to weigh the benefits and risks of COVID-19 vaccination, just like other medical interventions, and make a free and informed choice, without coercion or discrimination. Many people have valid reasons for declining vaccination, including personal health conditions, pre-existing immunity from a prior COVID infection, and conscientious objection to the unethical methods used to develop certain COVID vaccines.

We cannot mandate our way to health!

Thank you for standing for freedom!

Sent: Thursday, March 24, 2022 1:08 PM

To: Patty Heyes

Subject: SB156

I ask you to please support SB156 and allow each of us to make our own decisions about Covid-19 vaccines. Please protect medical freedom in Alaska.

COVID-19 vaccine mandates violate the rights of Alaskans. There are many reasons for declining a vaccination, including; personal health reasons, pre-existing immunity from a prior COVID infection, and objections over the unethical methods used to develop and market COVID vaccines. No Alaskan should be coerced when it comes to their health and the health of their children. NO ONE should lose their job, be kicked out of school, or denied access to public places for declining to accept a vaccine. There is already an ongoing shortage of healthcare and other workers due to these mandates. Coercion is illegal in Alaska and Alaskans have the right to weigh the benefits and risks of COVID-19 vaccination just like other medications.

I oppose anyone forcing a person to accept a COVID-19 vaccination out of fear that they will no longer be able to work, travel, go to school, or enjoy other cherished American freedoms if they say NO or decide to wait.

Thank you,

Patty Heyes

Cc: Rep. Louise Stutes

Subject: Please schedule SB156 for hearing

Dear Representatives Kreiss-Thomkins and Claman,

Please schedule SB156 for hearing before the House State Affairs Committee.

It is important that Alaska law affirm the right of people to freely choose whether or not to take a Covid vaccine.

It is a personal medical decision that should only be decided by personal informed consent, and not be forced, coerced, or influenced by any employer, public administrator, or private entity.

The data now show that the protection of the Covid vaccines is personal and it wanes with time; it can reduce in the odds of becoming severely ill, but does not prevent one from catching and spreading the virus, or in fact, still being hospitalized with Covid.

Additionally, as the Covid virus has mutated the vaccines have become increasingly less effective against the new variants, as in the case of the Omicron variant against which the vaccines are less than 20% effective. Even Bill Gates recently stated that the Omicron variant is doing a better job of delivering immunity and protecting against future infection than the Covid vaccines have done.

The science is sound - those who take the Covid vaccine get some protection for themselves, but Covid vaccination does not "stop the spread" or "protect those who we come in contact with". Those are misconceptions that still are widely believed and promoted as justification for vaccine mandates and vaccine passports.

In their recent testimony against SB156 in the Alaska Senate, Senators Kiehl, Stedman and von Imhof repeated the popular misconception that Covid vaccination of health care workers protects the people in their care. Unfortunately, these Senators' beliefs are not backed by the data and science. While they might sound like good ideas, they are simply not true.

In the emotionally driven atmosphere of Covid news and public messaging most of the public is not aware that the Covid vaccines are still in trial under Emergency Use Authorization - the Pfizer and Moderna Covid vaccines products that have gained FDA approval are still not available for distribution in the US. The Pfizer and Moderna Covid vaccine doses being currently administered are, as the FDA says in its public notices, "from existing stocks until the licensed products become available". In short, the safety of these products is still being evaluated, people taking these shots are volunteering in a medical experiment, and the makers of these products are fully protected from liability for any harms you may suffer.

Alaskans who are following the science and their good sense deserve to have their freedom to choose protected by law. SB156 will do that. Thank you for supporting freedom and science.

Subject: Fwd: SJR 21 and SB156 - Covid Discrimination

Good Morning -

I am writing to the entire House of Representatives

I am writing in support of two items related to Covid Discrimination. I am a project manager who has served all of Alaska for the past 15 years, 10 of that in rural Alaska. I am originally from Eagle River and now reside in Palmer with my wife and children.

First is SJR 21, for Canadian Travel. Canada has become the first country to prove this "pandemic" was not about health and safety, but control and removal of rights. No country has the ability or right to be able to tell another human being what they can do with their own medical care. Even traveling to Africa where smallpox is a very real threat, they do not require a vaccine, which is actually sterilizing, but simply recommends it strongly and let you take that risk.. Since the Covid Vaccine is not sterilizing, mandating it makes no sense. This ties directly to SB 156.

Furthmore, if Canada wishes to maintain this position, we as Americans should not support them in anyway. No financial gain from tourism, travel or any other means. We as Alaskans can make the sacrafces necessary to show tyranny that we will not stand. yes it will be inconvient for some, but it is worth the risk.

Before I begin on why SJR and SB 156 are so important, I would like to address one of the particularly silly responses I have heard from the Legislature and other government agencies:

that somehow the Legislature does not want to pass a bill that "tells businesses what to do" This is the weakest response to this bill imaginable. The government tells businesses what they can and can't every day through ADA regulations, building codes, license requirements, and the other thousands of state regulations published on the State of Alaska website.

A great example of this is trying to get a home inspector's license . I passed the national exam but was required to get insurance, a bond, fill out 30 pages of documents only to be told by the State of Alaska that it will take 4-6 weeks to even review my application. So please, do not patronize us that the government doesn't absolutely love telling businesses what they can and can't do. You are currently delaying my ability to earn extra income by 6 months. I am currently in week 6 of waiting, and on a normal fee schedule assuming a healthy amount of work i have missed out on \$36,000 in gross revenue because of government incompetenace and continued inability to actually accomplish anything.

The government already tells businesses not to discriminate against anything in Title 7 or the 1964 Civil Rights Act. This bill is merely an extension of the idea that people can not discriminate against another person. Medical segregation is no different than discrimination by race, religion, or another defining characteristic.

The role of the government is not to protect businesses, but to protect the individual from business or outside threats. The following laws all protect the individual and if applied to Covid as SB 156 does, protect the individual from harassment and medical tyranny.:

Example #001 ADA

The ADA prohibits discrimination based on disability in employment, State and local government, public accommodations, commercial facilities, transportation, and telecommunications. It also applies to the United States Congress

To be protected by the ADA, one must have a disability or have a relationship or association with an individual with a disability. An individual with a disability is defined by the ADA as a person who has a physical or mental impairment that substantially limits one or more major life activities, a person who has a history or record of such an impairment, or a person who is perceived by others as having such an impairment. The ADA does not specifically name all of the impairments that are covered

Title I requires employers with 15 or more employees to provide qualified individuals with disabilities an equal opportunity to benefit from the full range of employment-related opportunities available to others. For example, it prohibits discrimination in recruitment, hiring, promotions, training, pay, social activities, and other privileges of employment. It restricts questions that can be asked about an applicant's disability before a job offer is made, and it requires that employers make reasonable accommodation to the known physical or mental limitations of otherwise qualified individuals with disabilities, unless it results in an undue hardship. Religious entities with 15 or more employees are covered under title I.

So from ADA laws, a business may not restrict privileges of employment and make reasonable accommodations. Being unvaccinated is not an undue hardship on a business unless the government has forced you to lockdown.

Example #002 - Civil Rights Title 7

It shall be an unlawful employment practice for an employer -

(1) to fail or refuse to hire or to discharge any individual, or otherwise to discriminate against any individual concerning his compensation, terms, conditions, or privileges of employment, because of such individual's race, color, religion, sex, or national origin; or

(2) to limit, segregate, or classify his employees or applicants for employment in any way which would deprive or tend to deprive any individual of employment opportunities or otherwise adversely affect his status as an employee, because of such individual's race, color, religion, sex, or national origin.

Not sure how much clearer anyone can be on this. The law already states, no business can create a situation to deprive an individual of employment or adversely affect his status as an employee.

Example #003 HIPPA

The HIPAA Privacy Rule establishes national standards to protect individuals' medical records and other individually identifiable health information (collectively defined as "protected health information") and applies to health plans, health care clearinghouses, and those health care providers that conduct certain health care transactions electronically. The Rule requires appropriate safeguards to protect the privacy of protected health information and sets limits and conditions on the uses and disclosures that may be made of such information without an individual's authorization. The Rule also gives individuals rights over their protected health information, including rights to examine and obtain a copy of their health records, to direct a covered entity to transmit to a third party an electronic copy of their protected health information in an electronic health record, and to request corrections

****NOTE, while it is true that if i choose to give up my medical information, this is not applicable, the point is that it is illegal to ask for any reason as an employer.

As a direct result of this pandemic, our livelihoods have been threatened every day since the experimental vaccination began being administered. Both of our employers have stated that we may be subject to disciplinary action, or in the case of my wife terminated despite our deeply held religious beliefs and documented medical exemptions. In addition, our entire family survived COVID Exposure in 2020 but are not allowed to cite natural immunity. This one size fits all medical approach is unscientific, discriminatory in nature, and at best unethical.

Vaccines are proven dangerous and ineffective for many individuals as demonstrated by my daughter's reaction in 2019. She was given a well-child exam vaccine as part of the vaccine. She immediately went into uncontrolled vomiting, seizure, and spiked fevers for days. I was on-site in rural AK, with no way home to take care of my family due to a medically induced life-threatening event. Our doctor spent 6 months denying the reaction, and finally when pressed agreed that it was most likely the vaccine that caused the reaction, but didn't want us to have a negative opinion of vaccines.

After reading the insert of the vaccine, we learned the manufacturer stated her reaction was a known side effect, and she should not receive any vaccines if the reaction occurred. When we approached our doctor on this issue, we were hastily thrown out of the practice as anti-VAXes. We were not even allowed to question the vaccine. The law provides for exemptions, but medical professionals, businesses, and governments are allowed to discriminate against a population for a purely political and partisan issue.

More recently, I have been threatened with my job and way to provide for my family and under constant scrutiny from employers and potential clients as to my current status. These entities

take State and Federal funds and claim they do not have to comply with Civil Rights Acts or Title 7 anti-discrimination laws. Vaccinated or not, no one should be allowed to discriminate against a personal choice that has no effect on anyone but themselves. The Vaccine has been proven, federally admitted to, and ignored by global media to NOT prevent transmission. The fact that a vaccinated person can spread Covid at the same rate as a vaccinated person means no passport, mandate, or another form of proof will keep our population safe.

To further emphasize that this is not a public health emergency, please find the attached report from Impact Research. A national research group dedicated to creating a narrative to unseat republicans. That's a direct quote from their website. <https://www.impactresearchinc.com/>
<[This document is the source of the recent pivot by liberal leaders and government agencies. The "public health" circus that we have endured for 2 years is now over. This is so the narrative can be flipped to:](https://urldefense.com/v3/__https://www.impactresearchinc.com/__;!!LdQKC6s!fibBeOtmGc3c81njEu9hD23ssLeAzWgk0Erb3o4AlbCIGYWngYBKH0RlthPwp9gko-JSMqWWHBMWmTa1bKPwkag8Lw$></p></div><div data-bbox=)

1. Democrats "beat" covid. Zero Covid and forced vaccines have been the drumbeat for 9 months, not suddenly that doesn't poll well.
2. People are worn out. How is that a reason to end an emergency unless there never was one, to begin with?.
3. And my personal favorite: • Stop talking about restrictions and the unknown future ahead. If we focus on how bad things still are and how much worse they could get, we set Democrats up as failures unable to navigate us through this. When 99% of Americans can get vaccinated, we cause more harm than we prevent with voters by going into our third year talking about restrictions. And, if Democrats continue to hold a the posture that prioritizes COVID precautions over learning how to live in a world where COVID exists but does not dominate, they risk paying dearly for it in November.

The memo is attached for your reference.

Do your job, and protect Alaskan's from the government and defend the rights of the individual. If you do not support these bills/resolutions you are admitting you are for discrimination so long as you agree with the characteristic being discriminated against.

Thanks. I would welcome communication by any of you on this or a number of topics. My cell number is below.

Mike

Subject: Support SB 156!

Hello.

I am writing you to ask you to support the liberties of the people you represent with SB 156. With any medical situation, the individual person must be taken into account. Treating people as cattle, refusing to consider their medical history, removing personal choice, and religious exemptions is beyond anything sane or common sense. SB 156 will show your support of freedom and individual liberties. This isn't only applicable to people living in the state, but those who visit and tour the state. Having forced vaccinations and/or discriminating based on vaccination status will severely hurt the state's economy. What value does vaccination give a person when it cannot prevent illness or transmission? If forced vaccination causes any adverse effects, who is paying for the medical bills? Again, what value is gained by restricting individual rights and forcing medical mandates?? Please support this bill, and help the people make the community strong through individual choice and freedom to gain employment, bring money into the state, create more jobs, and stopping the fear.

Thank-you,
Melissa Anne

Subject: SB 156

For the love of all of us in Alaska, PLEASE ignore the hospital lobby who only fights to line their own pockets.

This is a note in support of medical freedom and personal choice. Stop discrimination and harassment of those who have religious and medical exemptions.

Do the right thing and STOP being part of the lies and tyranny. Support SB 156.

Subject: Vaccine mandate Bill 156

Dear Representative

I am writing asking for your support and voting to pass Senate Bill 156 which would make all vaccine mandates and immunity passports unlawful in the state of Alaska.

No one should be forced by our government to take a vaccine to keep a job or to be able to attend school.

People have many sincere and legitimate reasons for not wanting to be vaccinated including medical and religious reasons. There have been over 10,000 deaths in our country attributed to vaccine adverse reactions and many people don't believe it's worth the risk to prevent a virus that has a 99.5 recovery rate. Especially now as Covid is in a drastic decline and most new cases are not serious. There is also growing data that shows in many European countries that most of the new cases now are from vaccinated people. That aside, all Alaskans should have this right to make their own personal health decisions!

Thank you so much and looking forward hopefully to this bill passing and giving all Alaskans the ability to determine their own destinies without government interference.

Sincerely,
Murry Keith

Subject: worthy legislation

Dear Representatives Kreiss-Tomkins, Clamor, Tarr, and Story,

"It's easier to be fooled than to admit you have been fooled." -Mark Twain

Public health should not be a partisan issue - public health issues should bridge the partisan divide. Unfortunately many of the controversies surrounding covid-19 have become deeply partisan, with all of those questioning the mainstream narrative portrayed as right wing extremists and conspiracy theorists, and those generally accepting that narrative being portrayed by the right as liberal control freaks. I therefore ask you to support legislation introduced by Senator Lora Reinbold and sponsored in part by conservative republicans with whom I generally have little in common. Senate Bill 156 bans vaccine based discrimination. Full disclosure: I am a strongly left-leaning (some say radical) "liberal" who has received three jabs of Moderna Covid vaccine. My considerable research over the last three months makes me

wish I had not submitted to the vax, and I will not accept another jab when new variants emerge. Without getting too deep into the weeds, here are just a few of the reasons:

The CDC VAERS system now reports over one million adverse effects from the Covid vaccines since Dec 2020, over 200,000 of which are serious debilitating effects and over 25,000 of which are deaths. It is estimated that only 1% of adverse effects are actually reported because the VAERS system is voluntary. Whether or not one can simply multiply by 100 to get the true number is a matter for debate among statisticians. In addition, it is impossible to tell the true number of vaccine related deaths because of co-morbidities being discounted (average of 2.6/death at last count). Obesity, smoking, diabetes, heart issues and simply old age often occur with Covid patients and there is a strong financial incentive for hospitals to report deaths as Covid. (\$3,000 /Covid death and about \$30,000 /Covid death on ventilator.) Deaths from the virus within two weeks of a jab are counted as unvaccinated Covid deaths; the impact of the vaccination on the victim is not considered. Israel is the most vaccinated country, with most citizens having received four jabs, yet they have the highest infection rate. In at least 24 nations, a severe spike in Covid deaths occurred immediately after vaccination, according to Gérard Delépine, Iceland's Chief Epidemiologist.

An October 3, 2021 study by scientists at Harvard's T.H. Chan School of Public Health compared 68 nations and 2,947 U.S. counties and concluded that nations and counties with higher vaccination rates do not have lower per capita Sars-CoV-2 cases. (TrialSite News; European Journal of Epidemiology). More seriously, Toxicology Reports found that Covid-19 vaccines kill more people in each age group than they save. (Vol.8, 2021) A multitude of similar studies have obtained similar results, yet none are acknowledged on mainstream media, CNN, Fox, NPR, none.

It should not be left up to the far right politicians and media to be the only ones who speak up for the medical rights of Alaskans. The issues are complex but the public has a right to full disclosure by Big Pharma and agencies like NIH, CDC, WHO, NIAID, HHS. Until that occurs, discrimination against those who choose to remain unvaccinated should not occur. Please support the House version of this bill.

Should you wish citations for the points raised above, further information, etc. please feel free to e-mail me or call me in Haines at [REDACTED]. I have refrained from writing a ten page letter with references out of respect for your valuable time.

Subject: Support SB 156

This House and it's many committees have used the Chairmen to block legislation. Matt Claman has and is blocking all Sexual Assault legislation from the Governor as just one terrible example. So, JKT, will you block SB 156 to please your fellow socialist, so called Democrats. You have nothing to loose now that you have announced you are

not running for re-election to bring this forward and give it a favorable hearing.

SB 156 does nothing toward those that have taken the vaccines. Does nothing for those that continue masking, taking boosters, etc. What it does do is stop the discrimination and outright hatred for those that choose for whatever reason to not take the China Virus vaccine. I have taken both Moderna shots, yet if I was still working, my employer could demand I take the booster or be fired. This is wrong and in so many ways violates the hard fought civil rights laws on the books! I and so many others when it comes to our medical care have a patient/physician relationship that is PRIVATE! For an employer to even ask if I have had a vaccine violates HIPPA laws!

Last, all you have to do is watch the news. Senator Dan Sullivan, taken the vaccine, including boost, China Virus positive and slightly ill from it. Former President Obama, same thing. Not to mention the VAERS reported issues of major and minor side effects and yes even death, any wonder many decline? If I knew back in Jan of 21 what I know now, I would not have taken the vaccine. I took it because at the time the major impacted demographics were people of my age. At the time I trusted what was coming from the CDC and FDA, I should not have and surely will not now! Bottom line Johnathan, that is MY CHOICE, not some employer or some business that demands a vax passport to enter!

Our nation is at a very critical junction between freedom and tyranny!

This one issue in so many ways was a jumping off point for those in political power to deny freedoms and to change the USA into a Communist/Marxist Nation! Alaska has been a FREE STATE, way more than so many others. Those like California, NY, NJ, IL, etc., their people have chosen loss of freedoms, ALASKANS have NOT and WILL NOT!

Hear SB 156, pass out of committee, encourage the next committee to do so and let the votes come as they may on the floor. If the House votes against, the Pox will be on those members but at least the bill will have had a fair hearing.

Dear Representative Kreiss-Tomkins,

I am emailing you today to encourage you in the strongest possible terms to pass SB-156. It is a basic human right for a person to be able to choose their own course of health care without being forced by draconian mandates that would exclude people from functioning in society. This

bill must be passed to guarantee all Alaskan's this freedom of choice. Do the right thing and pass the bill.

Kind Regards,
Dr. Randy McKinney

Subject: SB 156

Dear Representative,

I am writing in support of SB 156. As a resident of Fairbanks for nearly 50 years, I feel I should have a voice in those issues affecting all Alaskans. I would urge you to carefully consider all the implications that any Covid-19 vaccine mandate or identification of vaccination status would have. I believe these would be unconstitutional overreach by government which would have broad repercussions for employment, schools, tourism, healthcare rationing, insurance and liability issues, personal freedom and the impossibility of fully informed consent. Until the FDA, CDC and the pharmaceutical industry as a whole are FULLY investigated and FULLY transparent with ALL the information regarding these experimental Covid-19 gene therapies, every person is at great risk. No one should ever be required by mandate to take any medical device or treatment with unknown short-term or long-term consequences.

Please support and vote for SB 156. Thank you for thinking deeply on this topic.
