Dear Committee Members, I am writing in support of the confirmation of Ramsey Bell to the State Pharmacy Board. I believe she is eminently qualified and is enthusiastic in her willingness to serve our state.

I have read the transcript of the February 16, 2022 committee meeting. Nothing said there would disqualify Ms. Bell from serving our state. We need a balance of voices in the political arena. I will watch the confirmation hearing scheduled for Friday, April 22, with great interest. Please vote yes on confirming Ramsey Bell to the Alaska Pharmacy Board.

Thank you,

Melinda Osburn

To whom it may concern:

We endorse medical treatments based on individual needs and we support informed consent.

Please know that we support Ramsey Bell of Bernie's pharmacy.

We must not penalize those pharmacists who maintain their integrity in the face of political opposition. We highly value the individual who can make informed decisions based on their years of training and experience.

Please protect the individual pharmacist from being crushed by big Pharma and those of the medical community with controlling mindsets.

Sincerely,

Ron and Valerie Haney

I am in support of medical treatments based on individual needs. I am in support of informed consent. I am in support of the integrity of the individual whether doctor or pharmacist who can make decisions based on their many years of training and experience.

Please know that we support Ramsey Bell, and desire to continue supporting Bernie's local Alaskan pharmacy.

Please protect the individual pharmacist from being crushed by big Pharma and/or certain controlling mindsets that want one-sided control fostering closed minded and standardized decisions within the medical community.

Sincerely,

Steve Francis
