FISCAL NOTE ANALYSIS

STATE OF ALASKA
2022 LEGISLATIVE SESSION

-

Analysis

This bill provides enhanced caregiver support for individuals with severe disabilities who are moving into adulthood and would like to continue to reside in their familiar home setting. The bill establishes a new services type (adult foster care) and residential setting type (adult foster home) that may appeal to both recipients and their caregivers as an alternative care and living arrangement to current service and settings types.

The Division of Senior and Disabilities Services would administer the adult foster care service by certifying and monitoring providers who offer the service, and reviewing and approving support plans for those receiving the service. The division's review unit would be able to absorb the work from the expected additional plans as these will largely be a continuation of services recipients received as minors.

The division's provider certification and compliance unit would require one additional permanent full-time Health Program Manager 2, Range 19, in Anchorage, to manage the work of certifying and monitoring these providers for compliance with service rules and requirements.

Cost for a Health Program Manager 2, Range 19, would be \$116.9 with a 50% Federal/50% General Fund Match. Annual position costs include: Travel: \$2.3; Services: \$4.7; Commodities: \$3.0. This position would be hired to begin July 1, 2023.

Regulations would be needed to define the expectations for qualifications and service delivery for these providers.
