Increase Program Receipts Authority for Anticipated Municipal Case Referrals and Hearing Activity												
	Inc	80.0	0.0	0.0	80.0	0.0	0.0	0.0	0.0	0	0	0
1005 GF/Prgm		80.0										
Increase General Fund Program Receipt authority to provide additional adjudicative services to school districts, municipalities, and other governmental agencies. There is no additional cost to the State.												
The Office of Administrative Hearings (OAH) collects program receipts from school districts, municipalities, and other governmental entities to pay for the costs of hearing services OAH provides to these entities. Fees are only collected for work actually performed by OAH's Administrative Law Judges (ALJs). OAH is expecting higher case volume on the docket due to expanded outreach efforts to these entities, and an increased interest by municipal entities in using OAH's adjudication services.												
Additional general fund program receipts authority will allow OAH to continue accepting administrative hearing work from school districts, municipalities, and other governmental entities to address the increased need. Without the additional authority, OAH will have to stop performing adjudicative services for municipalities once they have collected fees up to their existing budgeted authority level, due to the inability to receive reimbursement.

Human Resource Consultant to Develop and Implement Strategic Recruitment Plan												
1007 I/A Rcpts	Inc	161.3	137.0	0.0	23.1	1.2	0.0	0.0	0.0	1	0	0
A full-time Human Resource Consultant 2 (02-#133), range 18, located in Juneau is needed to develop and implement a strategic recruitment plan for the State of Alaska as an employer. The Department of Administration has worked with other State departments to identify priority areas of focus but a dedicated resource is needed to make progress and develop a more detailed plan for implementation.												
Some key initiatives the Department of Administration has identified with input from other state agencies include:												
1. Increasing the use of internships to build pathways towards permanent employment.												
2. Updating and expanding job class minimum qualifications to increase applicant pools.												
3. Creating Letter of Agreement (LOA) templates for recruitment and retention incentives that can be more readily administered.

Increase Capacity for Public Guardian Program to Provide Adequate Representation to Wards of the State												
	Inc	226.8	226.8	0.0	0.0	0.0	0.0	0.0	0.0	2	0	0
1004 Gen Fund		226.8										
The Office of Public Advocacy (OPA) is responsible for operating the Public Guardians section, which provides oversight, support, and representation to wards of the state who are unable to provide for themselves. Current caseloads for Public Guardians in Alaska are often double the national recommendation of 40 wards per position. The agency is now exceeding 1,700 wards and is facing additional appointments at increasing levels.												
OPA has no control over how many wards it receives – and the court system continues to appoint OPA as the public guardian at a rate current staffing levels cannot endure. On top of the current situation, a rapidly aging population (the “silver tidal wave”) is expected to continue driving ward numbers higher.												
Full-time Public Guardian 1/2 flex (02-#147), range 18, Anchorage												
Full-time Public Guardian 1/2 flex (02-#148), range 18, Anchorage												
Increase the Contract Rates and Funding Available for Contract Attorneys												
	Inc	3,300.0	0.0	0.0	3,300.0	0.0	0.0	0.0	0.0	0	0	0
1004 Gen Fund		3,300.0										
The Office of Public Advocacy (OPA) needs to increase its hourly rate of pay and case caps to become competitive in the current job market of contract attorneys. OPA contracts out cases to the private sector when there are conflict of interests with existing staff or when there are no available attorneys to take on additional case appointments. OPA has no control over which the number of appointments made by the courts, and has a constitutional mandate to provide services to any and all appointments made to the agency.												
Currently, the agency is struggling to identify and hire additional qualified attorneys to meet the demands of the existing and ever-increasing workload. The court closure during the pandemic has created a backlog of cases, and agency attorneys are currently operating at or above the maximum ethical capacity.												
This funding will be used to increase the rates paid to contractual attorneys in order to address the difficulty of attracting contract attorneys to manage the increasing caseloads and conflicts currently present in the Alaska criminal justice system.

Add a Training Director to Improve Recruitment and Retention												
	Inc	316.8	192.5	82.0	38.3	4.0	0.0	0.0	0.0	1	0	0
1004 Gen Fund		316.8										

Add an Attorney Training Director (Attorney 5) to enable a low cost and long term solution for both the recruitment and retention issues facing the Public Defender Agency.

The Public Defender Agency is continuing to experience difficulty in recruiting and retaining qualified attorneys to handle the serious felony caseload needs in Alaska. In order to improve retention to create this stable of experienced practitioners, the agency must devote permanent resources to training and recruitment. Supervising attorneys who normally would be tasked with training and mentoring are too overburdened with serious felony caseloads to devote the necessary time and energy to these tasks.

The agency believes that it can correct the present shortage if the agency is able to retain the current new attorneys it has recently hired, and is able to successfully on-board and train new attorneys, as it will have developed a large pool of attorneys with the necessary experience to handle serious caseloads.

Full-time Attorney 5 (02-#180), range 25, Anchorage

#### **Serious Felony Caseload Stabilization**

	Inc	1,000.0	0.0	0.0	1,000.0	0.0	0.0	0.0	0.0	0	0	0
1004 Gen Fund		1,000.0										

The Public Defender Agency is experiencing ongoing recruitment and retention difficulty due to the high stress environment and the demands of the existing and ever-increasing workload. Additional contractual support is needed to provide temporary relief to staff until the backlog of cases can be reduced.

The agency's most experienced trial attorneys (predominantly assigned unclassified and class A felonies) carry significant caseloads that are at or above the maximum ethical capacity. Each of these high level attorneys carry an average of 100 cases, including approximately 25 unclassified and class A felonies at one time. Additionally, about half of these attorneys are also supervisors with the added responsibility of managing a team of attorneys and support staff, or lead an entire office.

Of the agency's approximately 98 criminal trial attorney positions, approximately 30 attorneys have the necessary training and experience to handle unclassified and A felonies statewide. These cases are the most complex criminal cases and the least likely to resolve without lengthy trials. These attorneys are already at capacity and cannot accept or handle additional cases at this time.

While these attorneys continue to receive new appointments regularly, this contractual relief would eliminate some of the burden they are under from the mounting backlog of pre-trial cases post-pandemic. This funding will allow the agency to reduce workloads to more ethical levels and allow the agency to make better progress on their existing cases.

#### **Provide Contractual Caseload Stabilization to Allow the Public Defender Agency to Keep Pace with Case Appointments**

The division has four main sections: Business Licensing; Corporations; Professional Licensing; and Investigations. The division has seen significant growth in licensing volume over the last three fiscal years. Notably, from FY2019 through FY2022 the professional licensing unit experienced a 24 percent overall increase in licensure. Since FY2016, the professional licensing section has experienced a 40 percent increase in licensing volume.

The division requires twelve new positions to respond to the significant and continued growth in licensure. These positions will help the division to improve licensing timeliness to set and achieve reasonable service expectations and reduce risk to employers—particularly health care facilities—and people seeking licensure to work in Alaska.

Core services support costs of \$30.0 per position are included, as well as \$10.0 per position for equipment and initial setup.

The following positions are added:

08-#037 - Records and Licensing Supervisor, range 16, located in Juneau  
 08-#038 - Administrative Assistant 1, range 12, located in Juneau (Previously LTNP)  
 08-#039 - Administrative Assistant 1, range 12, located in Juneau (Previously LTNP)

The Alaska Seafood Marketing Institute (ASMI) adds \$5 million in unrestricted general fund to respond to a drastic and forever-changed global seafood market, and grow economic opportunity for Alaska's commercial seafood industry, the Alaska's largest direct private employer.

The ASMI has not received general fund support since FY2018 and has primarily relied on the Alaska seafood marketing assessment (AS 16.51.120) and competitive federal grant funding. Beginning in FY2019, ASMI has used statutory designated program receipts to match competitive federal grants. As a result, ASMI has been forced to reduce spending in key program areas including: domestic marketing, communications and public relations, certified sustainability, and seafood technical research.

The last three years have brought unprecedented disorder to Alaska seafood markets, including the trade war with China, the pandemic, transportation turmoil and increased shipping costs, and the conflict in Ukraine. The ASMI seeks a stable budget to make long-term investments on behalf of Alaska, fishermen, and the many other sectors that rely on strong and thriving demand for Alaska's seafood.

In 2014, Russia embargoed United States products, including Alaska seafood. Alaska lost its second largest salmon roe market overnight, worth more than \$45 million. The ASMI acted quickly to expand marketing efforts throughout Eastern Europe, focusing on Ukraine, in order to create new markets for Alaska salmon roe. Russia's invasion of Ukraine has led to Alaska's Ukrainian trade partners and customers of Alaska seafood to lose factories and flee homes. Overnight, once again, Alaska lost yet another highly valuable salmon roe market.

In response to the Russian invasion of Ukraine, the United States finally embargoed Russian seafood products from directly entering the United States market. However, Alaska wild fisheries do not have the luxury of increasing production in order to fill the gaps in domestic demand that are now open, unlike the competitors, including Chilean farmed salmon, Norwegian farmed fish, land-based farmed salmon and even plant-based seafood alternatives, which can all increase production to flood the United States market. Furthermore, Russian products reprocessed in other countries may continue to enter the United States market. The need to highlight Alaska origin at the point of purchase is increasingly important amid this intensifying competition.

										PFT	PPT	NP
<p>The China market continues to plague Alaska's seafood industry with shipping delays, unsubstantiated claims about COVID-19 on frozen food, lockdowns and other anti-business measures. Prior to the China-United States trade conflict, Alaska exported nearly \$1 billion of Alaska seafood to China. In less than three years, Alaska seafood exports to China have dropped by 50 percent. Over the next decade it will be critical for ASMI to assist the Alaska seafood industry to significantly diversify from China, finding new reprocessing markets and more small premium markets around the world.</p> <p>The ASMI, along with the entire Alaska seafood industry, is operating within limited budgets, and working strategically throughout the entire supply chain to drive demand, increase sales, and return the prices the men and women of Alaska's commercial fisheries deserve for the catch. Reestablishing, building and redesigning new markets will take time and significant financial resources. The ASMI Board of Directors envision a multi-year effort that is comprehensive, geographically broad and sustained. State participation through general funds is necessary to aid the deeply impacted Alaska seafood industry and grow Alaska's economy.</p>

The department entered into a reimbursable service agreement with the Department of Public Safety to establish and assign a dedicated Alaska State Trooper to investigate in-custody inmate deaths and reported felony and misdemeanor criminal cases within the correctional facilities. Additionally, the position will address the backlog of reported felony and misdemeanor criminal cases to be reviewed for potential investigation and ensure timely processing of reported cases. This will assist the department in messaging zero tolerance of criminal behavior while in-custody. The investigator will work in coordination with the Department of Law and the Commissioner's Office to provide investigative services in efforts to maintain safe and secure facilities.

<b>Increase Federal Authority Due to Additional Federal Funds</b>												
	Inc	22,310.5	1,400.0	33.5	4,755.6	57.7	0.0	16,063.7	0.0	0	0	0
1002 Fed Rcpts		22,310.5										
<p>The Department of Education and Early Development (DEED), Student and School Achievement (SSA) provides resources to school districts to ensure that all students meet the state's high academic standards; to improve performance through professional development, school accountability, standards, and assessments, improved health, safety, and alternative education opportunities; and, to provide school districts and stakeholders with high quality information to aid in data driven decision-making processes and reporting.</p> <p>Federal funds received by the DEED, SSA exceed the amount appropriated to the DEED for education support and administrative services for the fiscal year ending June 30, 2023. Additional federal authority will support a new federal grant for the Student Support and Academic Enrichment program and increases in grants to education entities and nonprofit and nongovernment organizations.</p> <p>Additionally, most federal grants in the Student and School Achievement operate on overlapping 27-month grant cycles. In FY2021, the DEED transitioned the United States Department of Education multi-year federal grant authority to a language appropriation to better reflect projection and federal expenditures and allow sub-grantees, local school districts, and other educational entities to expend grant awards across multiple state fiscal years. This language applies to grants authorization only passed through to education entities and nonprofit and nongovernment organizations. This will allow the DEED to expend 27-month federal funds for contracts, travel, commodities, and personal services costs for Education Support and Administrative Services in DEED.</p>												
<b>Change Technical and Vocational Education Program Appropriation to Language</b>												
	Misadj	-548.2	0.0	0.0	0.0	0.0	0.0	-548.2	0.0	0	0	0
1151 VoTech Ed		-548.2										
<p>The Alaska Technical and Vocational Education Program (TVEP), established under AS 23.15.830, provides non-competitive grants to institutions that are part of a statewide vocational training system. Per AS 23.15.835(d), the revenue collected under this program is to be distributed to the institutions outlined in the statute per the statutory formula. Currently these appropriations are included in the numbers section of the budget bill. This means that they cannot be adjusted if actual revenue to the program exceeds or falls short of projected revenue without a supplemental budget adjustment.</p> <p>Changing the TVEP distribution from numbers to an estimated to be language appropriation would ensure that if actual revenue comes in higher than anticipated the department can distribute the additional funding timely, without the delays that would otherwise occur if contingent on passage of a supplemental budget.</p>

This request is to temporarily increase federal receipt expenditure authority to allow spending federal indirect revenue. The Department of Environmental Conservation (DEC) submits a federal indirect cost rate proposal to the Environmental Protection Agency (EPA) for approval each year that allows the Department to collect federal revenue to pay for indirect overhead costs. The office furniture in our Southcentral locations, which is largely from the mid to early-1990s, sustained significant damage in the November 2018 earthquake and has been difficult or impossible to safely repair and secure. Additionally, new positions associated with the Infrastructure Investment and Jobs Act and a move to statewide recruitment and hybrid work environment has made current office configurations challenging for employees.												
The denser floorplan, hybrid-work environment requires new cubicle furniture to achieve the smaller footprint. The Department must also bear some minor one-time costs as part of the renovation process.

The America's Water Infrastructure Act of 2018 was signed into law and amended section 221 of the Federal Water Pollution Control Act (also known as the Clean Water Act or CWA) to reauthorize the Sewer Overflow and Stormwater Reuse Municipal Grants Program. This program is intended to address infrastructure needs for combined sewer overflows, sanitary sewer overflows, and stormwater management. The state will make sub-awards to eligible entities for eligible projects.

The Department of Environmental Conservation, Division of Water applied and was awarded this grant for the first time in FY2023. This amount is based on an EPA formula and the Division anticipates this approximate amount to be available annually.

1002 Fed Rcpts		1,050.0										

The Infrastructure Investment and Jobs Act (IIJA) provides hundreds of millions in federal funds that will be awarded across the country. The Bureau of Land Management (BLM) was awarded \$65 million for its Gravel to Gravel Keystone initiative. This initiative works to complete projects from land management projects from one area to a neighboring area. These funds were awarded under the Good Neighbor Authority which requires BLM to work with State and Tribal partners to administer land management projects. The Department of Environmental Conservation (DEC), Division of Water and BLM currently partner on a much smaller watershed scale conducting water quality assessments. BLM has approached DEC under this initiative to increase capacity and provide funding for water quality assessments over much larger areas (Arctic, Yukon, and Kuskokwim regions).

This additional work supports DEC missions and aligns with current goals and objectives related to increasing the amount known about Alaska's waters. This effort brings an additional \$1.05 million to DEC through federal pass-through funding from BLM. Federal funding will be available in this grant program

										PFT	PPT	NP
Assumption of 404 Program												
	Inc	4,965.3	3,487.5	124.8	1,129.0	224.0	0.0	0.0	0.0	28	0	0
1004 Gen Fund		4,965.3										

The Clean Water Act (CWA), enacted in 1972, is the primary federal law governing pollution control and water quality of the Nation's waterways. The Act's objective is to restore and maintain the chemical, physical, and biological integrity of the Nation's waters.

Section 404 of the CWA regulates the discharge of dredged or fill material into the waters and wetlands of the U.S. (WOTUS) and requires the U.S. Army Corps of Engineers (USACE) to issue a Section 404 permit before dredged and fill material may be discharged in WOTUS. Activities typically requiring a Section 404 permit include:

- Site improvement fill for residential, commercial, or recreational development
- Construction of revetments, groins, breakwaters, levees, dams, dikes, and weirs
- Placement of riprap and fill material for roads, airports, or buildings

While the State has not assumed the Section 404 program, the State does regulate discharges of dredged or fill materials to WOTUS within its boundaries. Whenever a federal permit is required, namely a Section 404 permit, an applicant must obtain a Section 401 water quality certification from DEC. When reviewing an application, DEC reviews the project, analyzes its potential water quality impacts, solicits public and agency comments, and coordinates with other State and federal agencies and local governments. DEC can either approve, approve with conditions, waive, or deny the Section 401 water quality certification based on compliance with the CWA, State water quality standards, and other applicable State laws. Any conditions imposed by the State through its Section 401 water quality certification automatically become conditions of the USACE's Section 404 permit.

Section 404(g)(1) of the CWA gives states the ability to assume partial authority over the Section 404 program. It states the "Governor of any State desiring to administer its own individual and general permit program for the discharge of dredged or fill material into navigable waters ... within its jurisdiction may submit to the Administrator a full and complete description of the program it proposes to establish and administer under State law...". This provision requires the USACE to retain permitting authority over certain categories of waters and allows the State to assume permitting authority over all other WOTUS (commonly known as "assumable waters").

State assumption of the Section 404 program will provide a streamlined permitting procedure, greater certainty to the regulated community, conservation of resources of both the applicant and regulator, and greater control over the development of its natural resources while complying with federal law. However, the process for Section 404 program assumption is complex and costly, the process for determining how to assume the program is equally complex and costly, and the limits on the scope of waters for which a State may assume permitting responsibility may reduce the attractiveness and effectiveness of a State-run Section 404 program.

Preparing for the State assumption of the Section 404 program will require 28 total positions in SFY 2024 and an additional four in SFY 2025 to implement the program, for a total of 32 cumulative base positions. The general duties include program development; manage a workgroup of permittees that will assist in the analysis of 404 primacy; establish agreements with the Environmental Protection Agency (EPA), Corps, and other agencies (state and federal) that include a workplan, timeline, responsibilities, and requirements for the process to obtain and implement the program; establish and manage contractor assistance to conduct a gap analysis and draft initial statutes and regulations for program implementation; develop work plan; develop program description; manage wetlands program development grant from EPA; develop a communications plan; develop the State's knowledge and capability in the 404 permit program; negotiate with the Corps on one or more statewide programmatic general permits that allow the State to implement small, targeted portions of the

Per AS 44.19.145(a)(12), the Office of Management and Budget (OMB) is responsible for conducting internal audits of agencies and programs within the executive branch of state government. To accomplish this, OMB will need to add a Juneau-based internal auditor position and related costs.												
Previously, OMB had an Internal Audit section for this purpose; this function was reduced over time with the last internal auditor position vacating in December 2012 and being eliminated from the budget in FY2015. Since that time the state has undergone significant programmatic and financial changes necessitating thorough review of programmatic activity and financial processes. Reestablishing an audit position within OMB would allow the state to conduct internal audits of programs within the executive branch with a focus on reviewing program execution and budget, establishing and enforcing systems of controls, and monitoring adherence to statute and regulations.

The Division of Behavioral Health recently received a \$750.0 grant from the National Association of State Mental Health Program Directors for projects relating to workforce development and building crisis services that serve under-resourced minority communities. The grant is one-time funding that will be spent over multiple years. There may be additional opportunities to collect statutory designated program receipts in future grant cycles or from other sources.												
The Division of Behavioral Health will work with a vendor to develop and provide a comprehensive suite of trainings on crisis services. Training goals include the provision of live webinars that may be recorded or automated for future use. Trainings will be offered to certified peer support specialists, behavioral health aides, clinicians, substance use disorder counselors, and other professionals.												
Training topics may include familiarization with the crisis care continuum and model, youth crisis response, de-escalation, crisis assessment including provision of a mental status exam, documentation, skill development, Title 47, recent legislation (including how these factors impact crisis work statewide), negotiating the system when seeking services for individuals, crisis safety planning, wellness and recovery action plans, the peer support model, ethics and boundaries, trauma informed care, suicide prevention, cross cultural training, and clinical support for workers and self-care.

Increase Recoveries and Rebates with Additional Positions												
	Inc	774.2	758.9	0.0	0.0	15.3	0.0	0.0	0.0	6	0	0
1002 Fed Rcpts		387.1										
1003 G/F Match		387.1										

Medical Assistance Administration, which is the primary group involved in running the Medicaid program, serves almost 80 thousand more Medicaid recipients with about 300,000 to 500,000 more claims per year that have to be adjudicated and recovered with the same staffing pattern that existed ten years ago, before Medicaid expansion. Health Care Services is a direct link to \$50 million in expenditures each week. Additional resources are needed to continue processing claims and to work on cost containment.

The addition of these positions will enable Health Care Services to recover more funding from Medicaid drug rebates and through additional recoveries. The work these positions perform will help minimize audit findings that could cost the state millions of federal dollars.

Medicaid expansion in September 2015, components of the Patient Protection and Affordable Care Act, and other factors have increased enrollment in Medicaid considerably while staffing patterns have remained stagnant. Currently, 260,230 lives are being covered by Medicaid and is projected to grow. These additional positions will enable Health Care Services to ensure continued health coverage to Alaskans in need, increase recoveries and Medicare and Third Party Liability (TPL) reclamation billings through financial controls, auditing, collections and optimizing other revenue sources, as well as assist with compliance of the Preferred Drug List that allows the program to be more responsive to new-to-market drugs in negotiating supplemental rebates for direct cost savings while providing access to new therapeutics that may have improved patient outcomes, resulting in offering indirect medical cost savings.

Accounting and Recovery - full time, range 18, Medicaid Program Specialist 2, located in Anchorage - To assist with tracking additional recoveries, run ad hoc reports, analyze data. This position will add awareness across sections, specifically the systems unit. A part of the targeted population are Native American / Alaskan Native members, and this effort will assist with reclaiming additional federal funds.

Accounting and Recovery - full time, range 18, Medicaid Program Specialist 2, located in Anchorage - To assist with return on investment (ROI) on additional buy-in activities, ensure Medicare/Third Party Liability (TPL) inbox changes are completed, ensure over 65 with no Medicare enrollment, ensuring no future audit findings. This position will add awareness across sections, specifically operations/claims unit.

Director's Office - full time, range 18, Program Coordinator 1, located in Anchorage - To work across sections on specific projects/problem areas to create efficiencies, implement policies, and provide consistent communication both internally and externally. This position will cross train with legislative liaison and regulations specialist positions.

Pharmacy - full time, range 18, Medicaid Program Specialist 2, located in Anchorage - To assist the Medicaid Program Specialist 3 with a focus on additional rebates, adding awareness across sections, assisting with oversight support of program activities related to pharmaceutical and pharmacy services including enrollment, claims submissions, processing and payment monitoring, education, and other provider related services.

Pharmacy - full time, range 20, Medicaid Program Specialist 3, located in Anchorage - This position will assist subject matter experts on pharmaceutical and pharmacy professional services claims processing and analytics related to prospective and retrospective drug utilization review. It will assist/ensure compliance with the federally mandated Drug Rebate Program. This position will increase capacity of the pharmacy program and assist with tribal reclaiming efforts and the ability to draw down additional funding from pharmacy rebates to reduce Medicaid costs.

In FY2020, in conjunction with the Trust, the Department of Health and Social Services updated and implemented the Strengthening the System, Alaska's Comprehensive Integrated Mental Health Program 5-year plan. This plan, required by statute, outlines the priorities and infrastructure needed for the next five years to inform program, planning, and funding decisions. This position in the Department of Health (DOH), working collaboratively with Trust staff, will build needed capacity within DOH and the Department of Family and Community Services (DFCS) to facilitate, manage, and coordinate resources necessary to ensure ongoing implementation, evaluation, and monitoring of the Comprehensive Integrated Mental Health Program plan. This position will support the planning and facilitation of partner and stakeholder input for the future comprehensive Integrated Mental Health Program plan.												
<b>MH Trust: Crisis Now Continuum of Care Grants</b>												
	IncT	333.0	0.0	0.0	0.0	0.0	0.0	333.0	0.0	0	0	0
1037 GF/MH		333.0										
The Crisis Now system is a best practice framework for developing and implementing crisis stabilization services for people experiencing a behavioral health crisis. The Trust works with various departments within the state and community partners to stand-up this system of care in Fairbanks, Mat-Su, Anchorage, and Juneau. These care grants will be awarded to entities that are partnering with the community to provide less restrictive options for people having a behavioral health crisis. Currently, law enforcement agencies and/or emergency medical services are the typical responders to these individuals in crisis. These system care grants will unify community partners and develop a Crisis Now system of care with trained behavioral health professionals meeting the needs of Alaskans having a behavioral health crisis instead of law enforcement and/or emergency medical services.

MH Trust: Beneficiary Mental Health Status Data Collection												
1037 GF/MH	IncT	45.0	0.0	0.0	45.0	0.0	0.0	0.0	0.0	0	0	0
The intent of the Beneficiary Mental Health Status Data Collection project is to ensure there is Alaska-specific data about the mental health status of Trust beneficiaries. The Department of Health-Division of Public Health, Section of Chronic Disease Prevention and Health Promotion will use these funds to support the administration, outreach, collection, and analysis of Alaska data through the Behavioral Risk Factors Surveillance System (BRFSS), the Youth Behavioral Risk Behavior Surveillance System (YRBS), and School Health Profiles. BRFSS funding will be consistent as an annual survey, while remaining funds may be allocated between the YRBS and School Health Profile programs differently in bi-annual cycles due to survey fielding occurring in alternating years. The present allocation allows for funding of Trust beneficiary related BRFSS optional modules that might be selected through the standard approval process. If there are no Trust beneficiary related optional BRFSS modules selected, or there are unspent Mental Health Trust Authority Authorized Receipts (MHTAAR), the balance of the remaining funds may be used to support the fielding of the surveys. Allocation of funds are as follows, BRFSS (\$65.0 MHTAAR; \$25.0 GF/MH) and YRBS/School Health Profile (\$20.0 MHTAAR; \$20.0 GF/MH).

1005 GF/Prgm		569.1										

During the past several years with COVID-19, it has become apparent that Public Health Laboratories is underfunded for the work that is being performed. This situation can be alleviated through fees that are in regulation but have never been pursued. This change in regulation would affect who can bill patients' insurance for the cost of these services. The Division of Public Health projects an additional \$569.1 of revenue could be collected.

Proposed changes:

- Radiological health fees (medical x-ray)
  - + Increase fees from \$80 / x-ray tube and \$500 / accelerator to \$300 / x-ray tube and \$1,000 / accelerator
  - + Fees haven't increased since 1998
  - + Change regulations so fees "cover costs of program" instead of exact fees
  - + Estimated increased revenue collections of \$221.3, from \$92.0 to \$313.3
- Radiological health fees (dental x-ray)
  - + No existing fees. Increase to \$600 / device with a 6-year cycle
  - + \$224.2 estimated revenue
- Hepatitis A and B screening
  - + No existing fees. Increase to \$12 / test
  - + \$39.0 estimated revenue (based on 15 percent recovered fees)
- Hepatitis C virus (HCV) genotyping
  - + No existing fees. Increase to \$247.45 / test
  - + \$11.5 estimated revenue (based on 15 percent recovered fees)
- Hepatitis C virus (HCV) viral load
  - + No existing fees. Increase to \$50 / test
  - + \$50.0 estimated revenue
- Herpes Simplex Virus (HSV) serology
  - + No existing fees. Increase to \$32.50 / test
  - + \$12.0 estimated revenue (based on 15 percent recovered fees)
- MMRV titer checks
  - + No existing fees. Increase to \$13 / test
  - + \$9.0 estimated revenue (based on 15 percent recovered fees)
- Mycoplasma genitalium (new analyte)

The Governor's Council on Disabilities and Special Education is federally funded to fulfill specific roles mandated by Congress. It is an expectation of the Trust that the Council will participate in planning, implementing, and funding a comprehensive integrated mental health program that serves people with developmental disabilities and their families. The positions enable the Council to provide up-to-date, valid information to the Trust on beneficiary issues, identify trends, participate in Trust activities, enhance public awareness, and engage in ongoing collaboration with the Trust and partner boards.												
The Research Analyst III position provides the Governor's Council on Disabilities & Special Education with information about the needs of individuals with developmental disabilities and supports state operating infrastructure. Activities of this position, including travel, ensure Council efforts are conducted within the framework of the Mental Health Trust Authority's guiding principles while still meeting Congressional requirements. The Research Analyst is a staff member of the Governor's Council and funds go directly to the Council.												
The Planner III position provides expertise and support related to the Comprehensive Integrated Mental Health Plan for issues related to special education services and beneficiaries experiencing developmental disabilities. GCDSE joint staffing funds will partially support this position to ensure the Trust has consistent access to critical comprehensive planning information and resources related to specific interests of beneficiary interests informed by the Council.

**RDU:** Medicaid Services (595)

Change Record Title	Trans Type	Totals	Personal Services	Travel	Services	Commodities	Capital Outlay	Grants, Benefits	Miscellaneous	PFT	Positions PPT	NP
Medicaid Services Cost Increases from COVID-19 eFMAP Stepdown and Rate Rebasing												
	Inc	24,388.0	0.0	0.0	0.0	0.0	0.0	24,388.0	0.0	0	0	0
1003 G/F Match		24,388.0										
The department estimates the Medicaid program will need additional general fund match to support the Medicaid program in FY2024. The largest share of the increase (\$16,320.0) is due to stepdown of the enhanced federal medical assistance percentage (FMAP) related to the end of the COVID-19 pandemic and the passage of the Consolidated Appropriations Act of 2022 in December. The 6.2 percent eFMAP will be reduced as follows:												
- 2.5 percent starting July 1, 2023												
- 1.5 percent starting October 1, 2023												
- No enhanced FMAP starting January 1, 2024												
Other factors leading to increased costs are rate rebasing for:												
• Home and Community Based Services through the Division of Senior and Disabilities Services (state) - \$1,650.0												
• 1115 waiver services through the Division of Behavioral Health (state) - \$2,430.0												
• Community Behavioral Health services through the Division of Behavioral Health (state) - \$4,000.0												
The FY2024 Governor budget released on December 15 for an increment of \$18,132,600 included both Federal and State rate rebasing as well as questioned costs through audit findings. It did not take into account the unwinding of the eFMAP due to the Consolidated Appropriations Act passing in late December, after the Governor's budget was released. Items included in the December 15 budget are:												
• Centers for Medicare & Medicaid Services (CMS) Part D Pharmacy Clawback (federal) - \$7,108.0												
• IHS encounter rate increase (federal) - \$3,200.0												
• Resource Based Relative Value Scale (RBRVS) for physicians services rate increase (federal) - \$2,300.0												
• Home and Community Based Services through the Division of Senior and Disabilities Services (state) - \$3,700.0												
• Questioned costs through audit findings - \$1,824.6

1151 VoTech Ed		-4,660.0										
The Alaska Technical and Vocational Education Program (TVEP), established under AS 23.15.830, provides non-competitive grants to institutions that are part of a statewide vocational training system. Per AS 23.15.835(d), the revenue collected under this program is to be distributed to the institutions outlined in the statute per the statutory formula. Currently these appropriations are included in the numbers section of the budget bill. This means that they cannot be adjusted if actual revenue to the program exceeds or falls short of projected revenue without a supplemental budget adjustment.												
Changing the TVEP distribution from numbers to an estimated to be language appropriation would ensure that if actual revenue comes in higher than anticipated the department can distribute the additional funding timely, without the delays that would otherwise occur if contingent on passage of a supplemental budget.

The Alaska Safety Advisory Council (ASAC) is responsible for organizing and hosting the Governor's Safety and Health Conference. This is an annual event that was canceled in FY2021 and held virtually in FY2022. The conference in FY2023 will be the first in-person event since the pandemic and it is estimated to bring a total of 305 attendees, speakers, vendors, and volunteers.												
In FY2024, ASAC would like to host an additional 150 attendees, which will bring the participant count to an estimated 455 people. In order to support a gathering of that size, ASAC needs additional statutorily designated program receipt authority to expend the revenue it collects. Funding for the conference comes from vendor fees and private sponsorships.

Criminal Investigator for Election Fraud, Conflict Cases, and Rural Homicide/Felony Sex Offenses/Other Violent Crimes												
	Inc	143.7	112.7	1.0	25.0	5.0	0.0	0.0	0.0	1	0	0
1004 Gen Fund		143.7										
Add one full-time Investigator 3, range 18, located in Anchorage for election fraud and other matters handled by Special Prosecutions. There are no dedicated investigators for elections fraud in Alaska. Reports of potential election fraud are assigned to a law enforcement officer who must simultaneously handle other criminal investigations. Thus, the election fraud investigation is worked alongside other matters including crimes against a person. This can result in lengthier time frames to complete. Having a dedicated investigator allows election fraud matters to be a primary focus for the investigator during the election season (25% of the position - 6 of 24 months). Election fraud cases usually only present themselves close in time to an election. This investigator position can help fill another need in the Office of Special Prosecutions by providing investigative services to two other areas: conflict cases and major felonies from rural communities. Conflict cases are ones in which a law enforcement officer or other public official is a victim or defendant which creates a conflict for the local district attorney's office to handle the case. Special Prosecutions also handles major cases (homicide, felony sex offenses, and other violent felonies) from a number of communities throughout western Alaska. Law enforcement is stretched thin in these areas, which makes follow up investigation difficult to accomplish.

1005 GF/Prgm		272.4										
This transaction is imperative to provide safe public access to the Chena River, Big Lake North, Big Lake South, and Rocky Lake State Recreation Sites.												
The 23.8-acre Chena River State Recreation Site was closed in June 2020 due to chronic illegal behavior that was a threat to staff and the public, driving out law-abiding visitors and diminishing the quality of family-friendly outdoor recreation options in Fairbanks. Thanks to a joint clean-up effort with the Alaska Division of Forestry and Fire Protection alongside Fairbanks Rescue Mission, and restoration work by the Alaska Division of Parks and Outdoor Recreation, the Chena River State Recreation Site was reopened in August of 2022. This transaction is needed to maintain the cleanliness, safety and availability of this site.												
In addition, the State was at risk of not opening the Big Lake North, Big Lake South, and Rocky Lake State Recreation Sites in May 2022 due to a bidding failure in maintaining a concessionaire. Due to significant public input and direction from the Governor's Office, the division opened these recreation sites and had to assume the costs in the short-term.												
It is not feasible to rely on concessionaires bidding to manage these areas based upon the clear data in the last few years. These locations in the Wasilla area are public safety flashpoints and it is important that the State has the capacity to ensure the public has safe access.

Fully fund non-permanent investigator for domestic violence and sexual assault investigations that was previously funded by Sexual Assault Kit Initiative federal grant funds. The position works very closely with the Alaska Scientific Crime Laboratory with the responsibility to ensure sexual assault kit testing standards are met in accordance with Alaska Statute. The position investigates cold case sexual assaults, works closely with Office of Special Prosecution and the District Attorney's Office, and communicates with Troopers and other agencies to ensure that sexual assault kits submitted for testing in a timely manner. If this need is denied, investigations of cold cases will remain uninvestigated or under investigated.

<p>Increase funding for rural trooper housing leases. Adequate housing options for troopers and their families are critical for consistent, reliable, and professional law enforcement services in rural Alaska. Quality, affordable rural housing options will provide desirable living quarters for families and address retention issues related to lack of quality housing. Recent additions and planned future acquisitions of rural trooper housing units in remote areas of Alaska necessitate additional authority to supplement obligations to lessors and collect rent from employees.</p> <p>Article 13 of the Public Safety Employees Association Collective Bargaining Agreement representing the Public Safety Officers Unit defines a rent formula based on fair market value, housing facility condition, requirements when housing is necessary for the convenience of the state, privacy, amenities, and geographic differential. In FY2022, \$1,051.8 was collected as rent and \$1,389.5 state funds covered trooper housing.</p> <p>New housing units in are anticipated Nome, Kotzebue and Dillingham, which significantly increase the need for rent subsidies as well as rent collections. Single unit housing options in outlying areas of Alaska will also be established as Alaska State Troopers and Alaska Wildlife Troopers align their staffing locations based on community need.</p> <p>Funding request itemization:  Kotzebue 12-Plex Emergency Lease Extension: \$360.0  Nome Housing Facility: \$236.2  Anticipated rent increases in seven housing units: \$200.0  New construction leases (Kotzebue, Nome, Dillingham): \$590.8</p>

The Department of Public Safety contracted with the Soldotna Public Safety Communications Center in FY2022 to provide dispatch services to the department. This contract was partially funded in FY2023. This will fully fund the remainder of the contract which provides dispatch and delivery of emergency services within the dispatch services area. The contract also ensures dispatch of department resources consistent with statutorily required law enforcement and public safety responsibilities. Without full funding for this contract, funding must be diverted from other areas of the Alaska State Troopers that are earmarked for providing mandated public safety services to Alaskans, impacting the department's mission and ability to meet statutory requirements.

<b>Moving Costs for Troopers (ADN: 12-2024-0002)</b>												
	Inc	359.0	0.0	0.0	359.0	0.0	0.0	0.0	0.0	0	0	0
1004 Gen Fund		359.0										
<p>The collective bargaining agreement between the state and the Public Safety Employees Association that represents the Public Safety Officers Unit members within the department requires that the department make every reasonable effort to secure the proper level of funding for trooper transfers and placements for assignment in remote areas. Department employees who transfer to remote locations are eligible for rural relocation offset allocations. This request supports increasing costs to relocate commissioned staff to remote locations.</p> <p>Moving troopers and their families can range in cost from \$3.0 to \$150.0, depending on the location and the time of year. The department prioritizes less costly barge service, which is not available in winter months.</p>												
<b>Expand Internet Connectivity in Rural Posts (FY24-FY28) (ADN: 12-2024-0002)</b>												
	IncT	582.0	0.0	0.0	582.0	0.0	0.0	0.0	0.0	0	0	0
1004 Gen Fund		582.0										
<p>Increase funding to expand internet connectivity for rural trooper posts. Current local internet systems in rural post locations are not adequate. Lack of telecommunications infrastructure have resulted in troopers being unable to access timely and critical information in the performance of their duties.</p> <p>The introduction of body worn cameras and their associated high data transfer demands further exasperates the need for a robust bandwidth solution. Recent technological advances now present an opportunity to obtain low orbit satellite data services. If this increment is approved, it would allow for Alaska State Troopers and Alaska Wildlife Troopers to supplement existing internet connections to provide redundancy to effectively upload body worn camera data along with other important criminal records.</p> <p>The department will utilize an existing body worn camera general fund allocation for one-time costs including the procurement, shipping, and installation of the connectivity devices. This increment will support ongoing operating costs.</p> <p>This is a temporary increment for two reasons: 1) the technology is changing rapidly, and the department is monitoring the most reliable and cost-effective solutions, 2) the Infrastructure Investment Jobs Act authorized \$65 billion in public investment to improve broadband access, infrastructure, and digital equity, which will improve digital equity in the coming years.</p> <p>The following rural locations will benefit from this new bandwidth solution: Aniak, Bethel (3), Cantwell, Coldfoot, Dillingham, Emmonak, Galena, Hoonah, Hooper Bay, King Salmon, Kodiak, Kotzebue, Nenana, Selawik, St. Mary's, Togiak, and Unalakleet. In addition, two mobile units will also have access to this new technology to support critical events and the Alaska Wildlife Troopers in the field.</p>

### Department of Public Safety

**Scenario:** FY2024 Governor Amend Budget Development (20283)

**Component:** Alaska Wildlife Troopers (AR P300) (2746)

**RDU:** Alaska State Troopers (160)

Change Record Title	Trans Type	Totals	Personal Services	Travel	Services	Commodities	Capital Outlay	Grants, Benefits	Miscellaneous	Positions PFT	PPT	NP
<b>Vehicle Operations, Maintenance, Repairs and Fuel (ADN: 12-2024-0002)</b>												
	Inc	241.7	0.0	0.0	241.7	0.0	0.0	0.0	0.0	0	0	0
1004 Gen Fund		241.7										

State equipment fleet (vehicles) are procured and maintained by the Department of Transportation, (DOT) State Equipment Fleet (SEF) division and paid through interagency transfers. Rising costs of personnel and manufactured goods have driven up costs that are charged back to departments. Other factors contributing to rising costs include inflation, advancement in equipment age, specifications and technology, and the cost of maintaining older vehicles.

The Alaska Wildlife Troopers allocation has 138 vehicles. In FY2021, the State equipment fleet cost was \$1,073.2. That cost included the procurement, maintenance, repair, disposal, licensing, titling, fuel, and contributions toward vehicle replacement.

DOT provided estimated base costs for FY2024 of \$817.3, prior to repairs and fuel. The department believes that FY2024 costs will exceed FY2021 costs by at least 10% and will be approximately \$1,180.7. Over 23 vehicles within the fleet are over 10 years old and have over 100,000 miles, requiring more repairs and parts. The FY2024 budget for SEF is \$939.0. The department believes that an additional \$241.7 will be necessary to bridge the budgeted cost and the anticipated actual cost for vehicles.

#### Increase Authority for Alaska Wildlife Troopers Uniforms (ADN: 12-2024-0002)

	Inc	60.0	0.0	0.0	0.0	60.0	0.0	0.0	0.0	0	0	0
1004 Gen Fund		60.0										

Increase authority for uniforms due to inflation for goods and shipping, as well as for moving costs. The department has not made a significant purchase of uniforms for Alaska Wildlife Troopers since FY2020 when \$150.1 was spent for uniforms from three vendors. In FY2021, Alaska Wildlife Troopers spent \$20.7, and in FY2022, \$59.1 was spent. The department needs to replenish uniform stock that has not been significantly refreshed recently.

The collective bargaining agreement between the state and the Public Safety Employees Association that represents the Public Safety Officers Unit members within the department requires that the department make every reasonable effort to secure the proper level of funding for trooper transfers and placements for assignment in remote areas. Department employees who transfer to remote locations are eligible for rural relocation offset allocations.

#### Increase Services to Meet Rising Costs (ADN: 12-2024-0002)

	Inc	1,774.2	0.0	0.0	1,774.2	0.0	0.0	0.0	0.0	0	0	0
1004 Gen Fund		1,774.2										

Increase services authority for Alaska Wildlife Troopers to absorb costs without budget transfers. The FY2023 unrestricted services allocation is \$1,346.4 while services costs in FY2020 were \$3,212.8 and in FY2021 were \$3,120.6. There was not sufficient authority to meet FY2022 obligations. To reduce reliance on transfers from personal services per legislative intent, and since recruitment and retention efforts make it difficult to support rising services costs through transfers, the department requires a substantial increase.

This transaction aligns the Alaska Wildlife Troopers services line to absorb cost increases including training, software maintenance and licensing, telecommunications, recruitment-related psychiatric and medical services, utilities, leases, equipment repairs and maintenance, safety services, and information technology.

1092 MHTAAR		100.0										
This project is a strategy in the Trust's disability justice focus area and the disability justice workgroup. It is consistent with the housing workgroup's focus on 'community re-entry' by targeting beneficiaries exiting Department of Corrections settings who are challenging to serve due to issues related to mental illness and other conditions that require extended supervision and support services to avoid repeat incarceration and public safety concerns.												
The purpose of the program is to provide immediately needed housing and support services necessary to facilitate the successful transition of clients from incarceration to community care. By facilitating this successful transition, clients are more likely to gain the tools needed to become more self-sufficient and less likely to engage in criminal activity thus protecting the public and keeping Alaskans safe.

Wayside Improvements												
1004 Gen Fund	Inc	67.5	14.0	0.8	43.8	8.9	0.0	0.0	0.0	0	0	0
The State of Alaska Department of Transportation and Public Facilities (DOT&PF) manages and operates approximately 30 public waysides along the Richardson, Denali, Glenn, Edgerton, Tok-Cut Off, Parks, Alaska, and Hope Highways. DOT&PF also manages wayside facilities in the Copper River Area, and at Lake Louise. State Parks also manages close to 50 waysides along the DOT&PF managed highway system across the state.												
Overall, DOT&PF expenditures consist of personnel time for cleaning, travel to sites, supplies, and equipment for maintaining the waysides one or two times per week, depending on use and location, as well as contractual services for toilet pumping, and in some locations cleaning is contracted out. Funds have not been allocated for general wayside maintenance such as brush clearing, pavement repairs, picnic table replacements, grass cutting, etc.												
DOT&PF is proposing to improve waysides through both capital and operating investments. Current annual operating costs to maintain waysides at the current level of service are estimated at \$550.0 (an average annual cost of \$18.0 per wayside). We are proposing to increase cleaning services by one additional cleaning per week, and prioritize wayside repairs and brush clearing, and issue contracts to companies, or agreements with local governments, to renew waysides in disrepair. Several waysides along the highway system are designated “Scenic” for example, and brush has grown tall enough to block any potential views. These will be prioritized and cleared.												
The additional funding needed to accomplish these efforts in Central Region follows:												
Personnel Time - 14.0 Travel - 0.8 Supplies - 2.7 Equipment - 6.2 Contractual - 43.8 Total - 67.5

Funding for Dalton District Shift Change - Two Weeks On/Two Weeks Off												
	Inc	1,298.6	1,298.6	0.0	0.0	0.0	0.0	0.0	0.0	0	0	0
1004 Gen Fund		1,298.6										

The Dalton District has historically worked a one week on, one week off schedule (1x1). During the COVID-19 pandemic, the Department of Transportation and Public Facilities shifted the Dalton District schedule to a two weeks on, two weeks off (2x2) rotation to help reduce the spread of the virus through reduced travel exposures. After evaluating the operational impacts of the 2x2 schedule rotation, Northern Region has found a benefit to service delivery, crew morale and safety, and industry relationships.

The shift change allows the Dalton District to:

1. Deliver 9,000 additional maintenance hours to the roadway by reduced travel days and situation transfer hours for transitioning crews.
2. Decrease travel costs, estimated at \$282.7, and reduce travel administration.
3. Stabilize recruitment and retention, aligning the state to be competitive with industry employers.
4. Provide more consistency/stability on work priorities throughout the year with fewer crew rotations.
5. Allow for more hours on the highway, accelerating maintenance activities such as calcium chloride placement in the summer and roadway icing in the winter. Completing these critical activities earlier has allowed crews to perform maintenance activities that would otherwise be delayed or not performed.
6. Increase support to commercial trucking agencies and align service levels with industry priorities.

**Wayside Improvements**

This increase provides base funding for the FY2023 supplemental compensation for salary adjustments for University of Alaska (UA) employees.

Due to the timing of the union negotiations, in FY2023 there were no faculty salary increases. A \$6,460.9 state funding increase (FY2023 supplemental and FY2024 base) is added for a retroactive three percent salary increase negotiated for faculty and an additional one percent salary increase for staff (UA staff received a two percent pay increase in FY2023).

### Change Technical and Vocational Education Program Appropriation to Language

	Misadj	-1,101.4	0.0	0.0	0.0	0.0	0.0	-1,101.4	0.0	0	0	0
1151 VoTech Ed		-1,101.4										

The Alaska Technical and Vocational Education Program (TVEP), established under AS 23.15.830, provides non-competitive grants to institutions that are part of a statewide vocational training system. Per AS 23.15.835(d), the revenue collected under this program is to be distributed to the institutions outlined in the statute per the statutory formula. Currently these appropriations are included in the numbers section of the budget bill. This means that they cannot be adjusted if actual revenue to the program exceeds or falls short of projected revenue without a supplemental budget adjustment.

Changing the TVEP distribution from numbers to an estimated to be language appropriation would ensure that if actual revenue comes in higher than anticipated the department can distribute the additional funding timely, without the delays that would otherwise occur if contingent on passage of a

Update Description Only to University of Alaska Anchorage Expanding WWAMI

Misadj	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0	0	0
This updates the timeline to begin admitting additional students into the Washington, Wyoming, Alaska, Montana, Idaho (WWAMI) medical program from FY2024 to FY2025.												

In response to the legislative desire to expand Alaska's WWAMI cohort by ten students, WWAMI is developing plans for stepwise growth, increasing student enrollment beginning in FY2025 (July 2024). The program anticipates an additional state investment of \$48 thousand in base operating funds needed for the expansion, with increased tuition/fee revenue expected to cover the remainder of the additional operating expenses. The bulk of the operating increase for this expansion is for additional faculty and instructor positions.

This programmatic growth also requires a one-time investment of approximately \$2 million to expand clinical lab space on campus - this investment is part

The Alaska Training Cooperative (AKTC) will promote career development opportunities for non-degreed professionals, direct service workers, supervisors, and professionals in the behavioral health, home and community-based, and long-term care support services working with Alaska Mental Health Trust Authority beneficiaries. Strategies include technical assistance and training which is accessible and coordinated and available in rural Alaskan communities by blending evidence-based practices with traditional wisdom. The AKTC will collaborate with other training entities, document, and report training data and when needed, respond to Trust staff and provider requests for additional training related to Medicaid expansion, reform, and redesign as well as Criminal Justice Reinvestment.

The Alaska Technical and Vocational Education Program (TVEP), established under AS 23.15.830, provides non-competitive grants to institutions that are part of a statewide vocational training system. Per AS 23.15.835(d), the revenue collected under this program is to be distributed to the institutions outlined in the statute per the statutory formula. Currently these appropriations are included in the numbers section of the budget bill. This means that they cannot be adjusted if actual revenue to the program exceeds or falls short of projected revenue without a supplemental budget adjustment.												
Changing the TVEP distribution from numbers to an estimated to be language appropriation would ensure that if actual revenue comes in higher than anticipated the department can distribute the additional funding timely, without the delays that would otherwise occur if contingent on passage of a supplemental budget.

The Alaska Technical and Vocational Education Program (TVEP), established under AS 23.15.830, provides non-competitive grants to institutions that are part of a statewide vocational training system. Per AS 23.15.835(d), the revenue collected under this program is to be distributed to the institutions outlined in the statute per the statutory formula. Currently these appropriations are included in the numbers section of the budget bill. This means that they cannot be adjusted if actual revenue to the program exceeds or falls short of projected revenue without a supplemental budget adjustment.

Changing the TVEP distribution from numbers to an estimated to be language appropriation would ensure that if actual revenue comes in higher than anticipated the department can distribute the additional funding timely, without the delays that would otherwise occur if contingent on passage of a

The Alaska Technical and Vocational Education Program (TVEP), established under AS 23.15.830, provides non-competitive grants to institutions that are part of a statewide vocational training system. Per AS 23.15.835(d), the revenue collected under this program is to be distributed to the institutions outlined in the statute per the statutory formula. Currently these appropriations are included in the numbers section of the budget bill. This means that they cannot be adjusted if actual revenue to the program exceeds or falls short of projected revenue without a supplemental budget adjustment.												
Changing the TVEP distribution from numbers to an estimated to be language appropriation would ensure that if actual revenue comes in higher than anticipated the department can distribute the additional funding timely, without the delays that would otherwise occur if contingent on passage of a supplemental budget.												
Sec. XX. TECHNICAL AND VOCATIONAL EDUCATION PROGRAM. (a) The amount of Alaska Technical and Vocational Education Program (AS 23.15.830) revenue available for distribution in fiscal year ending June 30, 2024, estimated to be \$13,919,000, is appropriated in the following percentages and estimated amounts to the following institutions for the fiscal year ending June 30, 2024:												
AGENCY AND PROGRAM    APPROPRIATION AMOUNT												
(1) University of Alaska, 45 percent,    \$6,263,500												
(2) Department of Education and Early Development												
(A) Galena Interior Learning Academy, 4 percent, 556,800												
(3) Department of Labor and Workforce Development												
(A) Alaska Technical Center, 9 percent, 1,252,700												
(B) Southwest Alaska Vocational and Education Center, 3 percent, 417,600												
(C) Yuut Elitnaurviat, Inc. People's Learning Center, 9 percent, 1,252,700												
(D) Northwestern Alaska Career and Technical Center, 3 percent, 417,600												
(E) Partners for Progress in Delta, Inc., 3 percent, 417,600												
(F) Amundsen Educational Center, 2 percent, 278,400												
(G) Iliisagvik College, 5 percent, 695,900												
(H) Alaska Vocational Technical Center, 17 percent, 2,366,200

Technical and Vocational Education Program Projected Appropriation												
(Language)	Language	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0	0	0
The Alaska Technical and Vocational Education Program (TVEP), established under AS 23.15.830, provides non-competitive grants to institutions that are part of a statewide vocational training system. Per AS 23.15.835(d), the revenue collected under this program is to be distributed to the institutions outlined in the statute per the statutory formula. Currently these appropriations are included in the numbers section of the budget bill. This means that they cannot be adjusted if actual revenue to the program exceeds or falls short of projected revenue without a supplemental budget adjustment.												
Changing the TVEP distribution from numbers to an estimated to be language appropriation would ensure that if actual revenue comes in higher than anticipated the department can distribute the additional funding timely, without the delays that would otherwise occur if contingent on passage of a supplemental budget.												
Sec. XX. TECHNICAL AND VOCATIONAL EDUCATION PROGRAM. (a) The amount of Alaska Technical and Vocational Education Program (AS 23.15.830) revenue available for distribution in fiscal year ending June 30, 2024, estimated to be \$13,919,000, is appropriated in the following percentages and estimated amounts to the following institutions for the fiscal year ending June 30, 2024:												
AGENCY AND PROGRAM    APPROPRIATION AMOUNT												
(1) University of Alaska, 45 percent,    \$6,263,500
