Maine	\$5,911
Massachusetts	\$5,795
Connecticut	\$5,692
Delaware	\$5,636
Vermont	\$5,561
New Jersey	\$5,514
Tennessee	\$5,501
Georgia	\$5,359
Wyoming	\$5,355
California	\$5,302
Washington	\$5,096
Wisconsin	\$5,093
Florida	\$5,057
Maryland	\$5,045
United States	\$4,994
Illinois	\$4,942
Kentucky	\$4,934
Texas	\$4,923
North Dakota	\$4,906
Missouri	\$4,864
Pennsylvania	\$4,839
Arkansas	\$4,836
Minnesota	\$4,825
New Hampshire	\$4,806
New Mexico	\$4,773
Oregon	\$4,692
Alabama	\$4,680
Louisiana	\$4,665
North Carolina	\$4,647
South Dakota	\$4,634
Michigan	\$4,633
Indiana	\$4,624
Oklahoma	\$4,620
Iowa	\$4,605
West Virginia	\$4,602
Hawaii	\$4,601
Colorado	\$4,538

Ohio	\$4,503
Nebraska	\$4,437
Virginia	\$4,434
South Carolina	\$4,402
Kansas	\$4,379
Mississippi	\$4,310
Nevada	\$4,277
Montana	\$4,274
Arizona	\$4,231
Rhode Island	\$4,213
Idaho	\$4,075
Utah	\$3,287

Notes

The Centers for Medicare and Medicaid Services (CMS) Office of the Actuary produces Health Expenditures by State of Residence and Health Expenditures by State of Provider every five years. The State Health Expenditure Accounts are a subcomponent of the National Health Expenditure Accounts (NHEA), the official government estimates of health spending in the United States.

Data reflect Private Health Insurance spending on personal health care services and products (hospital care, physician services, nursing home care, prescription drugs, etc.) by state of residence. State of residence estimates account for the flow of individuals between states in order to consume health care services and present health spending based on where individuals reside rather than where they receive care.

Additional information on data and methods is available [here.](<http://www.cms.gov/Research-Statistics-Data-and-Systems/Statistics-Trends-and-Reports/NationalHealthExpendData/NationalHealthAccountsStateHealthAccountsResidence.html>) For additional analysis of these data, please see ["Health Spending by State, 1991-2014: Measuring Per Capita Spending by Payer and Programs"](<https://www.healthaffairs.org/doi/10.1377/hlthaff.2017.0416>).

Definitions

Private Health Insurance Spending Per Enrollee: includes spending for all privately funded personal health care services and products (hospital care, physician services, nursing home care, prescription drugs, etc.) by state of residence (aggregate spending divided by population). Hospital spending is included and reflects the total net revenue (gross charges less contractual adjustments, bad debts, and charity care). Costs such as insurance program administration, research, and construction expenses are not included in this total.
