

Dept Priority	Allocation	Project Title	Project Description	Project Cost	Running Total	GF Cost	GF Running Total	Location (City)	House District
156	Highways	Faith Creek Road repairs	Mining road repairs including, brush cutting, culvert replacement, reestablish drainage ditches and application of surface material.	\$150.0	\$79,489.5	\$150.0	\$79,489.5	Montana Creek	6-C
157	Highways	Peger Rd. Privacy/ Sound Fence Repair	Peger Rd Privacy fence is in need of maintenance due to many years in service and no maintenance efforts. Vehicle strikes and vandalism have left the facility in disrepair.	\$200.0	\$79,689.5	\$200.0	\$79,689.5	Fairbanks	1-A, 5-C
158	Highways	Fairbanks Area Culvert Replacement	Replace culverts on lower priority roads that have subsided and no longer pass water. Replacing these culverts will improve roadside drainage and will reduce maintenance by eliminating standing water adjacent to the roadway.	\$1,200.0	\$80,889.5	\$1,200.0	\$80,889.5	Fairbanks	1-A, 2-A, 3-B, 4-B, 5-C, 6-C
159	Highways	McCarthy road resurface	Resurface portions of the McCarthy road with E-1 from mile 17-60.	\$100.0	\$80,989.5	\$100.0	\$80,989.5	Ernestine	6-C
160	Highways	McCarthy road surface repair	R&R damaged and aged High Float from mile 4-14 McCarthy Road.	\$60.0	\$81,049.5	\$60.0	\$81,049.5	Ernestine	6-C
161	Highways	Lake Louise road surface repair	Repair hard surface damage from frost heaving and settling.	\$80.0	\$81,129.5	\$80.0	\$81,129.5	Nelchina	9-E
162	Highways	Denali Hwy Hard Surface Repairs	Repair deteriorated asphalt MP 0-22 of the Denali hwy.	\$120.0	\$81,249.5	\$120.0	\$81,249.5	Paxson	6-C, 9-E
163	Highways	Old Rich Hwy Bike Path Rehab	Mill and pave bicycle path. MP 101 - 104	\$300.0	\$81,549.5	\$300.0	\$81,549.5	Tazlina	6-C, 9-E
164	Highways	Copper Center Bike Path Repairs	Patch failed asphalt surface and replace bridge railings on Copper Center bike path.	\$20.0	\$81,569.5	\$20.0	\$81,569.5	Slana	6-C, 9-E
165	Highways	Denali Hwy Ditch Cleaning	Clean and reestablish drainage ditch on the Denali Hwy .	\$50.0	\$81,619.5	\$50.0	\$81,619.5	Paxson	6-C, 9-E
166	Highways	McCarthy Road Drainage Improvements	Purchase and install culverts. Clean and establish ditches along the McCarthy road to give needed drainage to help preserve the road surfacing that was recently applied while environmental permits are still in place.	\$150.0	\$81,769.5	\$150.0	\$81,769.5	Chitina	6-C, 9-E
167	Highways	Tazlina District Calcium Chloride	Place calcium chloride on the McCarthy Hwy and local roads throughout the District to reduce dust and reduce the loss of fines on the road surfaces.	\$75.0	\$81,844.5	\$75.0	\$81,844.5	Chitina	6-C, 9-E
168	Highways	Kennicott Road Crushed Gravel surface	Place crushed gravel surface on newly constructed road base.	\$275.0	\$82,119.5	\$275.0	\$82,119.5	Chitina	6-C, 9-E
169	Highways	Brenwick Craig Rd Gravel resurface	Haul and place gravel surface on the Brenwick Craig road MP 1-6 for improved grade ability and an improved driving surface.	\$80.0	\$82,199.5	\$80.0	\$82,199.5	Tazlina	39-T, 6-C
170	Highways	Tok Cutoff Guardrail Repair	Replace approx. 4000' damaged guardrail on the Tok Cutoff.	\$250.0	\$82,449.5	\$250.0	\$82,449.5	Tok	6-C, 9-E
171	Highways	O'Brien Creek Road	Remove old slide and route road to prior location. This was never done and is causing safety and environmental concerns. (MP 2.5).	\$150.0	\$82,599.5	\$150.0	\$82,599.5	Chitina	6-C, 9-E
172	Highways	Klutina River Dike Repair	Klutina River dike repair. Replace missing rip rap and armor the scour hole upstream from bridge abutment.	\$250.0	\$82,849.5	\$250.0	\$82,849.5	Klutina	6-C, 9-E

Dept Priority	Allocation	Project Title	Project Description	Project Cost	Running Total	GF Cost	GF Running Total	Location (City)	House District
173	Highways	Tazlina district ROW encroachment cleanup	Remove district wide encroachments.	\$200.0	\$83,049.5	\$200.0	\$83,049.5	Tazlina	6-C, 9-E
174	Highways	Tok District Sand Sheds	This project would provide sand storage sheds for Delta and Northway Maintenance Stations.	\$1,000.0	\$84,049.5	\$1,000.0	\$84,049.5	Tok	6-C, 9-E
175	Highways	High Float resurfacing Quartz Lake Rd.	This project would fix bad areas and resurface large sections of Quartz Lake Rd. in which the road and the high float are failing. The scope of work is leveling and resurfacing approximately .5 miles of Quartz Lake Rd.	\$250.0	\$84,299.5	\$250.0	\$84,299.5	Delta	9-E
176	Highways	Taylor Highway Unstable Slopes	This project would survey and record the unstable slopes on the Taylor Hwy from MP 67 to 160. Scouring or other mitigation would occur at a later date.	\$200.0	\$84,499.5	\$200.0	\$84,499.5	Eagle	6-C
177	Highways	Copper River Hwy Highway Vegetation Management	Cut brush back from road surface and re-establish sight distance MP 0-36.	\$50.0	\$84,549.5	\$50.0	\$84,549.5	Cordova	32-P
178	Highways	Abercrombie Creek Bridge #1204	Excavate under bridge and reestablish channel flow.	\$500.0	\$85,049.5	\$500.0	\$85,049.5	Valdez	9-E
179	Highways	Kougarok Road Improvements	Construct 4 parking area turnouts for vehicles to park off of main highway for safety of public & for snow removal. MP 3-13.	\$150.0	\$85,199.5	\$150.0	\$85,199.5	Nome	39-T
180	Highways	Western District Highways Guardrail Repairs	Re-stock and replace damaged guardrail through Western district.	\$25.6	\$85,225.1	\$25.6	\$85,225.1	Nome	39-T
181	Highways	Nome Sand storage	Move sand storage from airport property to SEF complex.	\$200.0	\$85,425.1	\$200.0	\$85,425.1	Nome	39-T
182	Highways	N. Eagle River Access Road Repair	Mill & pave .619 miles of North Eagle River Access Road.	\$150.0	\$85,575.1	\$150.0	\$85,575.1	Eagle River	13
183	Highways	Kachemak Dr. - Mile 0.0 to 3.6 Repair	Mile 0.0 to 3.6: Grind and pave both lanes. Center Line Miles 3.6 - Width 24'.	\$1,500.0	\$87,075.1	\$1,500.0	\$87,075.1	Homer	31
184	Highways	Church Road Asphalt Repair	Mill and pave Church Road MP 0 to 4.118.	\$1,000.0	\$88,075.1	\$1,000.0	\$88,075.1	Wasilla	9
185	Highways	Region-wide Vegetation Control	Perform vegetation control on roads throughout the Region to improve sight distance at curves and intersections, reduce shading, improve drainage, provide clear zones, and control snow drifting. Work will be performed in compliance with the Department's Integrated Vegetation Management Plan.	\$500.0	\$88,575.1	\$500.0	\$88,575.1	Central Region	9, 11, 13, 14, 15, 20, 27, 28, 29, 31, 32
186	Highways	Region-wide Bridge Repair	Repair deficient bridge decks, railing, and structures to correct deficiencies and prolong life of the bridge. Repair hightower and luminaire bases and components.	\$500.0	\$89,075.1	\$500.0	\$89,075.1	Central Region	9, 11, 13, 14, 15, 20, 27, 28, 29, 31, 32
187	Highways	Region-wide Hightower Repairs	Repair hightowers throughout region.	\$200.0	\$89,275.1	\$200.0	\$89,275.1	Central Region	12, 17, 18, 23, 24, 25, 26, 28
188	Highways	Region wide maintenance	Removal of vegetation near bridges.	\$50.0	\$89,325.1	\$50.0	\$89,325.1	Statewide	statewide
189	Highways	Post Road - Ship Creek Culvert Replacement	Replace two large failed culverts on Ship Creek under a major industrial access route.	\$500.0	\$89,825.1	\$500.0	\$89,825.1	Anchorage	20
190	Highways	Wolverine Road Asphalt Repair	Mill and pave Wolverine Road, MP 0 to 2.5.	\$678.0	\$90,503.1	\$678.0	\$90,503.1	Palmer	11
191	Highways	Rogers Loop - Mile 0.0 to 3.2	Mile 0.0 to 3.2: Both lanes, grind and pave, minor culvert replacement. Center Line Miles 0.7 - Width 24'.	\$400.0	\$90,903.1	\$400.0	\$90,903.1	Homer	31
192	Highways	Old Seward Spur Repair	Correct drainage, pulverize & repave.	\$3,000.0	\$93,903.1	\$3,000.0	\$93,903.1	Anchorage	28
193	Highways	Clark Road Asphalt Repair	Mill and pave Clark Road.	\$67.0	\$93,970.1	\$67.0	\$93,970.1	Palmer	11

Dept Priority	Allocation	Project Title	Project Description	Project Cost	Running Total	GF Cost	GF Running Total	Location (City)	House District
194	Highways	Skyline Drive West - Mile 0.0 to 5.0	3.2 Mile 0.0 to 5.0: Both lanes, grind, and pave. Center Line Miles 3.2 Width 24'.	\$1,600.0	\$95,570.1	\$1,600.0	\$95,570.1	Homer	31
195	Highways	Anchorage Downtown Sidewalk Repair	Replace deteriorated sidewalks in downtown Anchorage on major pedestrian routes.	\$100.0	\$95,670.1	\$100.0	\$95,670.1	Anchorage	20
196	Highways	Long Lake Road Asphalt Repair	Mill and pave Long Lake Road.	\$370.0	\$96,040.1	\$370.0	\$96,040.1	Willow	6
197	Highways	Anchor Point Rd. (aka Beach Rd.) - Mile 0.0 to 1.2 Repair	Grind and pave Mile 0.0 to 1.2, both lanes; minor sub-grade work. Center Line Miles 1.2 - Width 24'.	\$1,080.0	\$97,120.1	\$1,080.0	\$97,120.1	Homer	31
198	Highways	Bridge Maintenance	Deck & bearing seat cleaning, joint replacement, and drift clearing.	\$150.0	\$97,270.1	\$150.0	\$97,270.1	Central Region	central region
199	Highways	Muldoon Road Asphalt Spot Repair	Intermittent mill & pave from 36th to JBER Gate, 8 lane miles.	\$2,200.0	\$99,470.1	\$2,200.0	\$99,470.1	Anchorage	15, 27
200	Highways	Scott Road Asphalt Repair	Mill and pave Scott Road.	\$215.0	\$99,685.1	\$215.0	\$99,685.1	Palmer	11
201	Highways	Eagle River Loop Asphalt Repair	Mill and pave 1.885 centerline miles of Eagle River Loop.	\$1,452.0	\$101,137.1	\$1,452.0	\$101,137.1	Eagle River	14
202	Highways	Palmer-Fishhook Road Barrier/Fence Repair	Repair/replace dilapidated barriers and fencing on Palmer-Fishhook Road, MP 9-9.3 to current standard.	\$150.0	\$101,287.1	\$150.0	\$101,287.1	Palmer	8
203	Highways	Airport Ave.	The pavement is over 30 years old, grind and repave both lanes. Center Line Miles 0.7 - Width 28'.	\$650.0	\$101,937.1	\$650.0	\$101,937.1	Seldovia	31
204	Highways	Region-Wide Bridge Repair	Repair deficient bridge decks, railing, and structures to correct deficiencies and prolong life of the bridge.	\$500.0	\$102,437.1	\$500.0	\$102,437.1	Central Region	central region
205	Highways	Glenn Highway Barrier/Fence Repair	Repair/replace dilapidated barriers and fencing to current standards at MP 47 of the Glenn Highway.	\$150.0	\$102,587.1	\$150.0	\$102,587.1	MatSu District	8
206	Highways	Dock St.	The pavement is over 30 years old, grind and repave both lanes. Center Line Miles 0.1 - Width 32'.	\$150.0	\$102,737.1	\$150.0	\$102,737.1	Seldovia	31
207	Highways	Main St.	The pavement is over 30 years old, grind and repave both lanes. Center Line Miles 0.3 - Width 28'.	\$270.0	\$103,007.1	\$270.0	\$103,007.1	Seldovia	31
208	Highways	Seldovia St.	D-1 and pave both lanes. Center Line Miles 0.1 - Width 28'.	\$150.0	\$103,157.1	\$150.0	\$103,157.1	Seldovia	31
209	Highways	Anderson Way	D-1 and pave both lanes. Center Line Miles 0.3 - Width 24'.	\$270.0	\$103,427.1	\$270.0	\$103,427.1	Seldovia	31
210	Highways	Halbouty Rd.	Grind and repave both lanes. Center Line Miles 2.5 - Width 28'4".	\$1,073.0	\$104,500.1	\$1,073.0	\$104,500.1	North Kenai	31
211	Highways	Kenai Spur Hwy. MP30-39	Grind and repave both lanes. Center Line Miles 9 - Width 24'28".	\$3,600.0	\$108,100.1	\$3,600.0	\$108,100.1	North Kenai	31
212	Highways	Deep Creek Road	Base coarse, and pave. 1.27 CL miles, 24' wide.	\$472.5	\$108,572.6	\$472.5	\$108,572.6	Ninilchik	31
213	Highways	Alta (Starisky) loop	Base coarse, and pave. Center Line Miles 0.6 - Width 24'.	\$225.0	\$108,797.6	\$225.0	\$108,797.6	Ninilchik	31

25-DOT&PF Department of Transportation and Public Facilities

Dept Priority	Allocation	Project Title	Project Description	Project Cost	Running Total	GF Cost	GF Running Total	Location (City)	House District
1		Atwood Building - Stairwell Pressurization	Life Safety pressurization provides air in stairwells to keep out smoke in case of fire.	\$ 1,100,000.00	\$ 1,100,000.00			Anchorage	20
2		Atwood Building - Elevator 2 & 3 Ropes	Urgent requirement - ropes are frayed beyond acceptable norms.	\$ 83,600.00	\$ 1,183,600.00			Anchorage	20
3		Atwood Building - Hot Water Tank Replacement	Atwood Building - Hot Water Tank Replacement.	\$ 84,700.00	\$ 1,268,300.00			Anchorage	20
4		Atwood Building - Old Pneumatic Control Replacement	Replace all old pneumatic controls with Siemens digital controls. Complete removal of pneumatic controls will allow for better HVAC control.	\$ 210,000.00	\$ 1,478,300.00			Anchorage	20
5		Court Plaza Building - Stairs	Construct stairs from parking lot to lower sidewalk. Stairs would bypass Telephone Hill.	\$ 140,000.00	\$ 1,618,300.00			Juneau	33
6		Court Plaza Building - Stairwell Doors	Replace stairwell doors, add relights, closers, and hardware.	\$ 178,000.00	\$ 1,796,300.00			Juneau	33
7		Fairbanks Regional Office Building - Loading Dock	Repair loading dock.	\$ 85,000.00	\$ 1,881,300.00			Fairbanks	1
8		Fairbanks Regional Office Building - Sprinkler System Replacement	Replace dated fire suppression system.	\$ 200,000.00	\$ 2,081,300.00			Fairbanks	1
9		Fairbanks Regional Office Building - Stair Treads	Replace worn carpeted stair treads.	\$ 45,000.00	\$ 2,126,300.00			Fairbanks	1
10		Fairbanks Regional Office Building - Carpeting	Replace original carpeting throughout.	\$ 111,000.00	\$ 2,237,300.00			Fairbanks	1
11		Fairbanks Regional Office Building - Window Re-caulking	Re-caulk all windows; seal structure from water/heat loss. This is required to prevent storm/floor damage.	\$ 75,000.00	\$ 2,312,300.00			Fairbanks	1
12		Juneau State Office Building - Boiler Replacement	Replace two boilers. The building cannot be occupied without functioning boiler.	\$ 150,000.00	\$ 2,462,300.00			Juneau	33
13		Juneau State Office Building - Elevator Fire Curtain Replacement	Replace elevator fire curtains on all floors. Existing curtains do not function correctly.	\$ 165,000.00	\$ 2,627,300.00			Juneau	33
14		Juneau State Office Building - Sky Bridge Doors Replacement	Replace all sky bridge doors and installed controlled key card access (x6). Doors do not seal properly and creates static pressure problems in the building.	\$ 83,000.00	\$ 2,710,300.00			Juneau	33
15		Juneau State Office Building - Atrium Window Replacement & Updates	Replace atrium windows and seals as needed; replace gutters and add flashing (3 sets). Gutters and flashing prevent flood/storm damage.	\$ 555,000.00	\$ 3,265,300.00			Juneau	33
16		Palmer State Office Building - Address Water Intrusion	Investigate and address water intrusion in basement Area E. This is required to prevent further water damage in basement during heavy rains and spring thaw.	\$ 50,000.00	\$ 3,315,300.00			Palmer	11
17		Palmer State Office Building - Gutter Installation	Snow retention above building doors. Install gutters to control drainage from roof. Required to prevent further water damage.	\$ 50,000.00	\$ 3,365,300.00			Palmer	11
18		Palmer State Office Building - Air Handler Unit Replacement	Remove failing AHU #3 and install new AHU. Required to prevent further damage to HVAC/environmental controls and increased costs.	\$ 83,000.00	\$ 3,448,300.00			Palmer	11
19		Palmer State Office Building - Garage Door Replacement	Replace garage doors.	\$ 22,000.00	\$ 3,470,300.00			Palmer	11
20		Palmer State Office Building - Transfer Switch	Design and install transfer switch for standby generator. Required to prevent storm damage such as in FY22.	\$ 235,000.00	\$ 3,705,300.00			Palmer	11
21		Alaska Office Building - Roof Replacement	Complete roof repair by replacement. Roof has exceeded its life span and needs replacement. #1 priority from FY 20.	\$ 100,000.00	\$ 3,805,300.00			Juneau	33
22		Alaska Office Building - Window Reseal	Reseal all windows and add touch-up paint. Required to prevent leakage/water intrusion.	\$ 100,000.00	\$ 3,905,300.00			Juneau	33
23		Nome State Office Building - Roof Replacement	Complete roof repair by replacement. Roof has exceeded its life span and needs replacement.	\$ 1,387,000.00	\$ 5,292,300.00			Nome	39

FY2023 Deferred Maintenance Backlog Combined 1.23.2023

Dept Priority	Allocation	Project Title	Project Description	Project Cost	Running Total	GF Cost	GF Running Total	Location (City)	House District	
24		Alaska Office Building - AOB Roof Replacement	The Alaska Office Building needs to have the roof replaced. The roof has reached its useful life expectancy and is at risk of causing damage to the interior of the building due to leaks and damage.	\$ 800,000.00	\$ 6,092,300.00			Juneau	33	
25		Juneau State Office Building - Final Phase of SOB Fan Wall Project	The Juneau State Office building needs to finalize the last phase of the fan wall repair/replacement.	\$ 900,000.00	\$ 6,992,300.00			Juneau	33	
26		Atwood Building - Replacement of Exterior Window Gaskets	The exterior window gaskets at the Atwood Building are all original construction from 1982, and they have shown signs of degrading and separating from the corners of the windows, especially in areas with a lot of sun exposure. As these gaskets recede, they allow both air from inside to escape and water from outside to get in. If the gaskets completely fail, it can potentially cause a window to become loose and fall to the ground below, which is a life safety concern. The other concern is that the interior air that is heated in the winter and cooled in the summer at high utility costs leaks out of those degraded areas. Replacing these gaskets will not only ensure that the windows are no longer in danger of falling off of the building, but it will also help reduce utility costs by sealing them to prevent loss of heating and cooling from inside the building. This would ultimately demonstrate electric and natural gas utility savings that could also show substantial long term payback once this is finally completed.	\$ 850,000.00	\$ 7,842,300.00			Anchorage	20	
27		Juneau State Office Building - Willoughby Entrance Repairs	<p>The Willoughby Avenue entrance of the Juneau State Office Building is the main entry to Juneau's largest State-owned office building and serves as a thoroughfare between several Juneau Core Area parking lots and several other State-owned buildings. It is heavily trafficked by State employees, its customers, and the general public. If funding is not received to complete the necessary renovations, safety hazards will continue to worsen, and increased maintenance costs will be necessary to keep the entry operational.</p> <p>This project encompasses the complete replacement of the curtainwall entry, concrete slabs, stairs and ramps, and installation of in-stair snow melt system. The original steel and single pane glass entry is past its useful life and is deteriorating at an increased rate due to water intrusion. The glazing leaks in several areas which leads to rusting support columns and concrete cracking and buckling in numerous places creating tripping hazards. Maintenance cost for this entry continues to accumulate as attempts are made to fill concrete cracks, mark tripping hazards, and adjust entry doors to keep them operating correctly. During the winter season, this entry is the highest priority for maintenance staff for snow removal and grounds care.</p> <p>Replacement of the cracked concrete and installation of in-stair heating would greatly reduce maintenance costs during snow season, while greatly improving the safety of the area by reducing the slips and falls associated with winter weather. Replacement of the curtainwall entry using thermal glass panels will provide greater energy efficiency and climate control in the foyer.</p>	\$ 1,750,000.00	\$ 9,592,300.00			Juneau	33	FY22 PBF DM
28		NSOB - Crawlspace Ventilation	The Nome State Office Building is a two-story office building housing several State agencies. The Building has suffered two oil spills in recent history that have impacted the building, especially in its crawlspace. Odors from the crawlspace are evident in the first and second floors of the building. There is currently no exterior venting of the crawlspace. Granular activated carbon filter equipped air purifiers are currently being operated in the crawlspace and office areas to mitigate the odors. Installation of a mechanical ventilation system would isolate the crawlspace air movement from the occupied areas providing improved air quality to tenants.	\$ 200,000.00	\$ 9,792,300.00			Nome	39	FY22 PBF DM

FY2023 Deferred Maintenance Backlog Combined 1.23.2023

Dept Priority	Allocation	Project Title	Project Description	Project Cost	Running Total	GF Cost	GF Running Total	Location (City)	House District	
29		Nome State Office Building - Concrete Wall Repairs	<p>The location of the Nome State Office Building on the Bering Sea indicates the need for special treatment of the concrete walls. The epoxy coating that was originally applied on the waterside of the first-floor walls to make the concrete waterproof has developed hairline cracks. These cracks compromise the waterproof coating which results in water intrusion from wind driven rain and sea spray.</p> <p>Repairs are needed immediately to stop the water intrusion and limit damage to the steel support structures within the concrete wall. This project will investigate the extent of the cracks and conclude with the proposal and implementation of a cost-effective repair solution.</p>	\$ 350,000.00	\$ 10,142,300.00			Nome	39	FY22 PBF DM
30		Palmer State Office Building- Upgrade Sprinkler Main	<p>The sprinkler main in the Palmer State Office Building was originally constructed in an area that does not maintain enough heat in the winter. Given regular periods of prolonged extreme cold, the sprinkler main has been found to regularly freeze and leak. Applying additional heat to the room would provide some assurance of proper function under normal conditions but does not guarantee performance under extreme cold conditions.</p> <p>This project seeks to correct the issue of freezing and water leakage by upgrading the sprinkler main. This would not only stop constant repairs to the system, but it would also ensure that the sprinklers will work as required in the event of a fire in the building.</p>	\$ 120,000.00	\$ 10,262,300.00			Palmer	11	
31		Palmer State Office Building - Roofing repairs	<p>The Palmer State Office Building (PSOB) completed a partial roof replacement project in 2012. There was a small section of the flat roof that was not included in the scope of the project. During the winter months last year that small section of roof started to leak during heavy rainstorms and during winter break-up.</p> <p>The PSOB has had damage caused by water leaks which required maintenance and clean up, so it has been determine that the roof section needs to be replaced. Completing the full roof replacement will ensure that the small unrepair section of the flat roof area will no longer leak and will have the same protection as the rest of the building.</p>	\$ 50,000.00	\$ 10,312,300.00			Palmer	11	
32		Community Building-Replace Boiler Stack	<p>The Community Building (CB) boiler stack has been a concern for several years. Several years ago, there was a stainless-steel sleeve installed inside the boiler stack which allowed the CB time before a full replacement was needed. Loss of this unit would be detrimental to day-to-day operations as it would impact the ability to control temperatures inside the facility.</p> <p>The boiler stack at the CB is completely degraded and at the end of its useful life, it is past the point of repair. Due to the inability to repair the current boiler stack anymore replacement of the stack is needed immediately. Failure of the boiler stack would likely create an office closure as we would be unable to heat the building until the unit replacement was completed. The project will also include the addition of damper controls which will increase boiler efficiency and improve the ability to control building air pressure.</p>	\$ 200,000.00	\$ 10,512,300.00			Juneau	33	FY22 PBF DM
33		Atwood Building - Plaza Repairs	<p>At the Atwood Building the natural settling and shifting of the concrete inside the building over time has caused cracks and breaks on the surface. If these cracks worsen or continue the concrete will continue to crack and shift.</p> <p>This can be repaired and corrected to alleviate the problem and stop the damage from getting worse. The repair and replacement would come from a combination of demo and installation of spacers in the concrete. If the problem is not corrected, the damage will continue to progress along with the cost to repair it.</p>	\$ 180,000.00	\$ 10,692,300.00			Anchorage	20

34		Douglas Island Building - Roof Safety Tie Downs	<p>Regularly scheduled roof inspections are an important part of preventative maintenance. Typical outcomes of these inspections include clearing the roof of vegetation, drain maintenance, and assessment of wear and tear. Currently at the Douglas Island Building, there is no economically feasible way to conduct these inspections as often as they should occur. Ladders and temporary fall protection must be set up each time maintenance personnel need to access the roof.</p> <p>Federal regulations require employers to protect their workers from falls if the work threshold height is 6 feet and greater. Tie down points are required for a worker to anchor their fall arrest equipment when working on roofs. A hatch leading to the roof and safety tie downs installed would allow maintenance personnel to conduct inspections on a regular basis. This project will provide cost-effective and long-term preventative maintenance that will increase the useful life of the roof component.</p>	\$ 250,000.00	\$ 10,942,300.00			Juneau	33	FY22 PBF DM
SUBTOTAL PBF ALLOCATED				\$ 10,942,300.00						
1		Juneau State Office Building - North Garage Replacement	Demolition and replacement of current North Garage structure to be replaced with larger parking structure to provide additional parking in Juneau Core Area for State employees and customers.	\$ 23,250,000.00	\$ 23,250,000.00			Juneau	33	
2		Juneau State Office Building - North Garage Renovation	Perform architecture/engineering, renovations to all levels and stairwells to include needed electrical, mechanical, sprinkler and structural work. Recently performed inspection and waiting on fee proposal for phased upgrades. Not needed if S205 is accomplished.	\$ 6,300,000.00	\$ 29,550,000.00			Juneau	33	
TOTAL UGF APPROPRIATION				\$ 29,550,000.00						
1		Dimond Courthouse - Replace Generator	<p>The Dimond Courthouse (DC) currently utilizes the original generator for backup during a power outage. The original generator does not have enough capacity to handle the full building load that is needed to accommodate additional security needs of the Court System. Currently during a power outage, the generator does not have the capacity to keep all the courtroom equipment running. The DC has 5 courtrooms, courtrooms A, B, C, & D in-court computers and servers are being powered by the backup generator. That leaves out enough capacity to add courtroom F and the communication closets. During a power outage the communication closets power down which in turn prevents the servers from communicating with the in-court courtroom computers.</p> <p>With the lack of capacity to power all the DC needs it has been determined that a full generator replacement would be needed. A full generator replacement would give the Dimond Courthouse enough capacity to keep the in-court computers, servers, and communication closets up and running. The generator replacement would also include replacement of associated controls and breaker panels.</p>	\$ 1,000,000.00	\$ 1,000,000.00			Juneau	33	
2		Nome State Office Building - Install A/C	<p>The Nome State Office building's (NSOB) HVAC system draws on outside air to cool the building. Over the last several years as temperatures increase in the summer months it has become very difficult to regulate inside temperatures. At times it has become nearly impossible to adequately cool the building to acceptable working temperatures which has created an uncomfortable work environment. On days when the outside air temperature rises, we are currently unable to maintain acceptable working conditions.</p> <p>Due to the inability to properly cool the building as the average outside temperatures in the summer increase it was determined that the HVAC system should be upgraded. A few years back during the NSOB remodel the windows were replaced and no longer open. The reason for that was because windows that do not open help building owners regulate inside temperatures. The installation of a cooling coil will allow cooling of the building which improve the climate control.</p>	\$ 800,000.00	\$ 1,800,000.00			Nome	39	FY22 PBF DM
3		Douglas Island Building - Generator Mounts/Enclosure Repair	The generator enclosure for the Douglas Island Building (DIB) standby generator have become badly corroded. The enclosure not only protects the generator and its parts, but it also reduces generator noise to a safe and acceptable level. The enclosure needs replacement to allow continued use of the generator. This project will restore the generator enclosure.	\$ 20,000.00	\$ 1,820,000.00			Juneau	33	FY22 PBF DM

4		Dimond Courthouse - Cooling Tower Installation	<p>The Dimond Courthouse is currently cooled by a chiller that utilizes water from the City and Borough of Juneau (CBJ) water system. Once this water is used by the chiller, it drains into the city sewer. As can be seen in the table below, our usage of CBJ water drastically rises during the summer months. If weather trends in Juneau continue to become warmer and drier, CBJ may start to limit the amount of water available for the purpose of cooling a building.</p> <p>With the installation of a cooling tower, water will be recirculated to remove heat from the system and eject it into the atmosphere through evaporation. The project provides a more efficient method to cool the building and avoids our inability to facilitate a comfortable work environment should water resources be limited in the future.</p> <p style="text-align: center;">FY19 Dimond</p> <p>Courthouse Water Usage in Gallons</p> <table border="1"> <tr><td>Jul-18</td><td>2,660.0</td></tr> <tr><td>Aug-18</td><td>1,310.0</td></tr> <tr><td>Sep-18</td><td>1,320.0</td></tr> <tr><td>Oct-18</td><td>135.0</td></tr> <tr><td>Nov-18</td><td>26.0</td></tr> <tr><td>Dec-18</td><td>22.0</td></tr> <tr><td>Jan-19</td><td>25.0</td></tr> <tr><td>Feb-19</td><td>30.0</td></tr> <tr><td>Mar-19</td><td>289.0</td></tr> <tr><td>Apr-19</td><td>291.0</td></tr> <tr><td>May-19</td><td>1,470.0</td></tr> <tr><td>Jun-19</td><td>1,659.0</td></tr> <tr><td>'19 Total :</td><td>9,237.0</td></tr> </table>	Jul-18	2,660.0	Aug-18	1,310.0	Sep-18	1,320.0	Oct-18	135.0	Nov-18	26.0	Dec-18	22.0	Jan-19	25.0	Feb-19	30.0	Mar-19	289.0	Apr-19	291.0	May-19	1,470.0	Jun-19	1,659.0	'19 Total :	9,237.0	\$ 775,000.00	\$ 2,595,000.00			Juneau	33	FY22 PBF DM

5		Palmer State Office Building - UST Removal	<p>The Palmer State Office Building (PSOB) current underground fuel tank was installed prior to the state's purchase of the property. The PSOB's underground fuel tank is a 10,000-gallon tank that was meant to supply generator fuel to the hospital, which was the building's use at the time of the purchase. The possibility of the tank leaking into the ground, along with the environmental impact of such an event, increases the desire to remove the tank even more. A long-term cost savings can also be recognized since the DEC requirements to maintain, monitor, and secure an underground storage tank would no longer be incurred.</p> <p>It is our recommendation to remove the tank from the ground and replace with a smaller above-ground tank. The PSOB does not have a need for a tank that size with the current use of the building. Removing and replacing this tank will allow the PSOB to maintain emergency power for the occupying offices during a power outage.</p>	\$ 180,000.00	\$ 2,775,000.00			Palmer	11	FY22 PBF DM																										
6		Linny Pacillo Office/Parking Garage- Repair Cracks	Repair expansion joint and crack leaks on levels 9 & 10.	\$ 152,250.00	\$ 2,927,250.00			Anchorage	20

41-Courts

ALASKA COURT SYSTEM DEFERRED MAINTENANCE PROJECTS LIST FY24 - FY28				
Priority	Court Dist.	Location	Project	Project Cost
1	3	Anchorage Nesbett Courthouse	Replace Spectator Seating: This project is to replace all spectator seating in roughly 20 courtrooms. The existing benches are showing high levels of wear and tear and the upholstery is stained. The upholstery is no longer able to be spot cleaned and stains are deep into the fabric. This quote is to replace all bench seating with new seating in all courtrooms plus a contingency.	450,000
2	3	Kenai Courthouse	Paint Interior: Patch and paint all interior areas of the courthouse to include installation/repair of chair rails.	200,000
3	3	Boney Parking Garage	Replace Second Floor Decking: The existing deck coating has failed allowing leakage from the top to the lower level and causing deterioration of the structural concrete below the coating.	450,000
4	4	Rabinowitz Courthouse	Building Doors and Woodwork: The building doors have begun to delaminate and are drastically different colors due to UV damage and other factors. These doors will need to be removed, sanded, restained, and rehung. Some doors will require full replacement due to major issues with delamination and damage. The building woodwork is also beginning to fade due to UV damage and would need to be addressed at the same time as the doors to maintain a uniform appearance.	400,000
5	3	Boney Courthouse	Building Generator: This project is to add funding for a previously funded project in the amount of \$350,000. The funding level is no longer sufficient to complete this project.	300,000
6	3	Palmer Courthouse	Chiller Replacement: This project is to supplement funding for an approved project. The original \$319,000 approved was insufficient.	250,000
7	1	DOT&PF New Southeast Facilities	Miscellaneous Repairs to SE Facilities: The court system has recently been transferred funding for a number of DOT&PF facilities to pay operating costs for the facilities. The majority of the facilities are 40+ years old and have extensive deferred maintenance needs. The court system is requesting a lump sum fund source in the event an emergency maintenance need arises in one of the facilities we are now paying for via RSA. We have recently assessed several of these facilities and they are in dire need of immediate maintenance and repair including painting, carpeting, door hardware, etc.	750,000

41-Courts

ALASKA COURT SYSTEM DEFERRED MAINTENANCE PROJECTS LIST FY24 - FY28				
Priority	Court Dist.	Location	Project	Project Cost
8	3	Kodiak Court & Office Building	Elevator Modernization: The elevator in this facility is original to the building and has not yet been modernized. This elevator should be upgraded to include a full modernization and cosmetic revamp to bring it up to current standards.	250,000
9	4	Rabinowitz Courthouse	Replace Old Fluorescent Lamps: Replace high maintenance, outdated, expensive fluorescent lamps with LEDs at light fixtures. LED provide energy savings and less maintenance, and many fluorescent lamps will be discontinued shortly.	150,000
10	4	Rabinowitz Courthouse	Replace Exterior Concrete: Replace deteriorated concrete and sealant at front plaza entry. Concrete that presented the most tripping hazards was replaced during FY19. Concrete currently has radiant heating which affects project costs.	250,000
11	3	Anchorage Nesbett Courthouse	Replace Deteriorating Countertops: The existing countertops in the Basement (2 each) and 1st floor (4 each) staff restrooms are badly stained and have damaged/lifting laminate, causing water to seep underneath the laminate and damage wood. Funding request includes a 15% contingency.	25,000
12	3	Snowden Administration Building	Replace Old Warehouse Lighting: Retrofit old inefficient and no longer manufactured T-12 light fixtures with LED compatible light fixtures in the Warehouse.	25,000
13	3	Snowden Administration Building	Replace Old Lighting at 444 "H" Street, and 820 West 4th: Replace old inefficient lamps with LED's and retro fit other fixtures as needed.	140,000
14	4	Delta Junction Courthouse	Replace Plumbing Fixtures: Plumbing fixtures are deteriorated, not in good working order, outdated and need to be repaired or replaced. Request includes a 15% design fee.	20,700
15	3	Snowden Administration Building	Code Required Structural Upgrades at the Warehouse: Provide new structural support to comply with current seismic code at the warehouse exterior walls. Updated to current project costs.	150,000
16	3	Snowden Administration Building	Building Envelope and Facade Repairs: Repair and replace façade of Snowden Building due to structural compromise from water infiltration.	475,000

41-Courts

ALASKA COURT SYSTEM DEFERRED MAINTENANCE PROJECTS LIST FY24 - FY28					
Priority	Court Dist.	Location	Project	Project Cost	
17	3	Snowden Administration Building	Warehouse Roof Replacement: Repair and replace the 40-year-old roof on the Snowden Warehouse.	75,000	
18	3	Anchorage Nesbett Courthouse	Update Building Controls: Replace the pneumatic controls in the Nesbett Courthouse with modern, reliable powered actuators.	450,000	
19	3	Kenai Courthouse	Replace Fire Panel: Replace aging fire panel and all related components.	65,000	
20	3	Kenai Courthouse	Parking Lot Upgrades: Judicial Services has reported issues with access to the facility with their vehicles due to the layout of the landscape. This request would remove existing landscape to make access to the facility easier without damaging vehicles and/or existing landscape.	75,000	
21	3	Snowden Administration Building	Bathroom Renovations: All bathrooms in the Snowden Admin Building require upgrades including replacement of sinks and fixtures, replacement of toilets, replacement of countertops, replacement of flooring/tile, and painting/patching.	225,000	
22	3	Anchorage Nesbett Courthouse	Bathroom Renovations: All bathrooms in the Nesbett Courthouse require upgrades including replacement of sinks and fixtures, replacement of toilets, replacement of flooring/tile, and painting/patching.	1,250,000	
23	3	Anchorage Nesbett Courthouse	Replace Sidewalk Heating Coils: Replace sidewalk heating coils at the Nesbett Courthouse to assist with snow/ice mitigation in the winter months.	200,000	
24	3	444 H Street	Miscellaneous Mechanical Upgrades: Replace boiler that is reaching its useful life as well as replace roof top units. Installation of VAV's for all offices will assist with energy consumption and staff's ability to control temperatures within their office spaces.	225,000	
25	3	Anchorage Nesbett Courthouse	Miscellaneous Mechanical Upgrades: Replace glycol and axiom tanks with plastic rather than galvanized, install new heat exchangers in all air handling units with closed glycol loops, retrofit remaining actuators to electronic, install new expansion tank bladders.	350,000	
26	3	Anchorage Nesbett Courthouse	Breaker Panel Upgrade: Install new main breaker, 2500amp.	35,000	

41-Courts

ALASKA COURT SYSTEM DEFERRED MAINTENANCE PROJECTS LIST FY24 - FY28				
Priority	Court Dist.	Location	Project	Project Cost
27	4	Rabinowitz Courthouse	Miscellaneous Interior Upgrades: Replace all countertops within the courthouse. Existing countertops have delaminated and the trim has suffered water damage. Paint all common area interior spaces to include hallways, lobbies, and general use employee areas. Update finishes on artwork installations to include restraining and protection for specific art pieces where the artist is no longer living.	300,000
28	3	Kodiak Court & Office Building	Replace Siding and Windows: Complete replacement of siding and windows in the Kodiak Courthouse. The current siding is faded and will begin to allow water intrusion in the future. The windows are double pane and have significant moisture between panes. This is allowing heat to seep from the facility during the winter months and does not allow for good energy efficiency.	550,000
29	3	Kodiak Court & Office Building	Miscellaneous Interior Upgrades: The facility is in need of painting in all common areas, replacement of stair trends, replacement of interior fixtures such as door hardware, signage, etc.	150,000
30	3	444 H Street	Bathroom Renovations: All bathrooms in 444 H Street require upgrades including replacement of sinks and fixtures, replacement of toilets, replacement of countertops, replacement of flooring/tile, and painting/patching.	35,000
31	3	Snowden Administration Building	Elevator Upgrade: Complete full upgrade to elevators in the facility to modernize and extend useful life.	150,000
32	3	444 H Street	Elevator Upgrade: Complete full upgrade to elevators in the facility to modernize and extend useful life.	90,000
33	3	Kodiak Court & Office Building	Controls Upgrade: Install direct digital controls which would allow for setbacks to be done on evenings and weekends. This upgrade could save energy and reduce heating costs, as well as provide better ability to control the heating and cooling systems thereby increasing occupant comfort.	250,000
34	3	Kodiak Court & Office Building	Upgrade Ventilation System: Many office areas lack sufficient ventilation for occupant comfort. This upgrade would revamp the existing system to provide additional cooling to office areas.	250,000
35	3	444 H Street	Upgrade Awning: Upgrade awning on 3 sides of the facility. The current awning allows for snow and ice to build up and then becomes a safety hazard for cars and pedestrians below.	50,000

41-Courts

ALASKA COURT SYSTEM DEFERRED MAINTENANCE PROJECTS LIST FY24 - FY28				
Priority	Court Dist.	Location	Project	Project Cost
36	3	Boney Courthouse	Electrical Upgrades: Boney Courthouse has a number of transformers that will be reaching their useful life and will begin to fail. This will be a phased project that will be requested over several fiscal years. Funding is for phase one of two.	3,000,000
37	1	Ketchikan Courthouse & Office Building	Repair/Replace Air Conditioning: The air conditioning in this facility is currently inoperable. The Summer of 2021 was extremely warm in Ketchikan with temperatures soaring into the 80's. During this time there was no cooling available to building occupants and the windows are not able to be opened to allow for better airflow and cooling.	750,000
38	3	Snowden Administration Building	Roof Repairs and Window Sealing: Repair roof edge that causes windows to leak. Additionally, all windows should be resealed to ensure no water intrusion occurs.	450,000
39	3	Boney Courthouse	Electrical Upgrades: Boney Courthouse has a number of transformers that will be reaching their useful life and will begin to fail. This will be a phased project that will be requested over several fiscal years. Funding is for phase two of two.	3,000,000

University of Alaska Anchorage		ANSEP Building	Replace Heating Glycol Boiler B-2, Lnote:100U1	\$193.2	\$48,406.0	\$193.2	\$48,406.0	Anchorage	19-J
University of Alaska Anchorage		ANSEP Building	Replace Hot Water Circulation Pump Cp-4, Lnote:1	\$5.1	\$48,411.0	\$5.1	\$48,411.0	Anchorage	19-J
University of Alaska Anchorage		ANSEP Building	Replace Main Fan Ahu-1, Lnote:200U1	\$262.0	\$48,673.0	\$262.0	\$48,673.0	Anchorage	19-J
University of Alaska Anchorage		ANSEP Building	Replace Mechanical Room Supply Fan, Lnote:100L	\$78.9	\$48,752.0	\$78.9	\$48,752.0	Anchorage	19-J
University of Alaska Anchorage		ANSEP Building	Replace North Entryway Heater, Lnote:100V1	\$6.1	\$48,758.0	\$6.1	\$48,758.0	Anchorage	19-J
University of Alaska Anchorage		ANSEP Building	Replace Piping, Lnote:	\$241.8	\$48,999.8	\$241.8	\$48,999.8	Anchorage	19-J
University of Alaska Anchorage		ANSEP Building	Replace South Entryway Heater, Lnote:100V2	\$6.1	\$49,005.9	\$6.1	\$49,005.9	Anchorage	19-J
University of Alaska Anchorage		ANSEP Building	Replace Supply Piping Building Distribution, Lnote:	\$282.2	\$49,288.1	\$282.2	\$49,288.1	Anchorage	19-J
University of Alaska Anchorage		ANSEP Building	Replace Walls Painting, Lnote:	\$90.0	\$49,378.1	\$90.0	\$49,378.1	Anchorage	19-J
University of Alaska Anchorage		ANSEP Building	Replace Waste Piping Drainage Piping & Drains, L	\$201.3	\$49,579.5	\$201.3	\$49,579.5	Anchorage	19-J
University of Alaska Anchorage		ANSEP Building	Upgrade Occupancy Sensors for Lighting, Lnote:	\$5.1	\$49,584.5	\$5.1	\$49,584.5	Anchorage	19-J
University of Alaska Anchorage		Arcade & Bridge Lounge	Recaulking Building Exteriors, Lnote:	\$18.2	\$49,602.7	\$18.2	\$49,602.7	Anchorage	19-J
University of Alaska Anchorage		Arcade & Bridge Lounge	Replace Arcade & Bridge Basement Fcu, Lnote:BO	\$5.1	\$49,607.8	\$5.1	\$49,607.8	Anchorage	19-J
University of Alaska Anchorage		Arcade & Bridge Lounge	Replace Arcade & Bridge First Floor Fcu, Lnote:10	\$5.1	\$49,612.8	\$5.1	\$49,612.8	Anchorage	19-J
University of Alaska Anchorage		Arcade & Bridge Lounge	Replace Arcade/Bridge Roof and Exterior Enclosur	\$500.0	\$50,112.8	\$500.0	\$50,112.8	Anchorage	19-J
University of Alaska Anchorage		Arcade & Bridge Lounge	Replace Building Distribution Building Wiring, Lnote	\$240.8	\$50,353.6	\$240.8	\$50,353.6	Anchorage	19-J
University of Alaska Anchorage		Arcade & Bridge Lounge	Replace Building Distribution Emergency Circuit Wi	\$60.7	\$50,414.3	\$60.7	\$50,414.3	Anchorage	19-J
University of Alaska Anchorage		Arcade & Bridge Lounge	Replace Fire Alarm Nac Circuit Power Supply, Lnot	\$63.7	\$50,478.0	\$63.7	\$50,478.0	Anchorage	19-J
University of Alaska Anchorage		Arcade & Bridge Lounge	Replace Fire Protection/ Egress Exit Signage, Lnot	\$6.8	\$50,484.9	\$6.8	\$50,484.9	Anchorage	19-J
University of Alaska Anchorage		Arcade & Bridge Lounge	Replace Fixtures/Lighting Indoor Lighting, Lnote:	\$128.5	\$50,613.3	\$128.5	\$50,613.3	Anchorage	19-J
University of Alaska Anchorage		Arcade & Bridge Lounge	Replace Fixtures/Lighting Outlets and Switches, Ln	\$26.3	\$50,639.6	\$26.3	\$50,639.6	Anchorage	19-J
University of Alaska Anchorage		Arcade & Bridge Lounge	Replace Floors Carpet, Lnote:	\$386.4	\$51,026.1	\$386.4	\$51,026.1	Anchorage	19-J
University of Alaska Anchorage		Arcade & Bridge Lounge	Replace Gutters & Leaders Leaders- Interior, Lnote	\$1.0	\$51,027.1	\$1.0	\$51,027.1	Anchorage	19-J
University of Alaska Anchorage		Arcade & Bridge Lounge	Replace Interior Doors & Doorways, Lnote:	\$55.6	\$51,082.7	\$55.6	\$51,082.7	Anchorage	19-J
University of Alaska Anchorage		Arcade & Bridge Lounge	Replace Openings Exterior Doors, Lnote:	\$63.7	\$51,146.5	\$63.7	\$51,146.5	Anchorage	19-J
University of Alaska Anchorage		Arcade & Bridge Lounge	Replace Openings Windows - Medium, Lnote:	\$499.7	\$51,646.2	\$499.7	\$51,646.2	Anchorage	19-J
University of Alaska Anchorage		Arcade & Bridge Lounge	Replace Structural Siding, Lnote:for insulated alumi	\$15.2	\$51,661.4	\$15.2	\$51,661.4	Anchorage	19-J
University of Alaska Anchorage		Arcade & Bridge Lounge	Upgrade to full electronic DDC - Hybrid system curr	\$12.1	\$51,673.5	\$12.1	\$51,673.5	Anchorage	19-J
University of Alaska Anchorage		Auto/Diesel Technology Building	2ea. 9348 switches, Lnote:	\$16.2	\$51,689.7	\$16.2	\$51,689.7	Anchorage	19-J
University of Alaska Anchorage		Auto/Diesel Technology Building	Install into Classrooms Fixtures/Lighting Occupanc	\$10.1	\$51,699.8	\$10.1	\$51,699.8	Anchorage	19-J
University of Alaska Anchorage		Auto/Diesel Technology Building	Recable Building, Lnote:	\$91.0	\$51,790.9	\$91.0	\$51,790.9	Anchorage	19-J
University of Alaska Anchorage		Auto/Diesel Technology Building	Replace 500 Gallon Diesel Above Ground Emerger	\$16.2	\$51,807.1	\$16.2	\$51,807.1	Anchorage	19-J
University of Alaska Anchorage		Auto/Diesel Technology Building	Replace Air Handler, Lnote:200U2	\$542.2	\$52,349.3	\$542.2	\$52,349.3	Anchorage	19-J
University of Alaska Anchorage		Auto/Diesel Technology Building	Replace Bathroom Renovations Locker Rooms, Ln	\$948.9	\$53,298.2	\$948.9	\$53,298.2	Anchorage	19-J
University of Alaska Anchorage		Auto/Diesel Technology Building	Replace Bathroom Renovations Med Bath - 4 to 5 l	\$284.3	\$53,582.4	\$284.3	\$53,582.4	Anchorage	19-J
University of Alaska Anchorage		Auto/Diesel Technology Building	Replace Building Distribution Automatic Transfer S	\$25.3	\$53,607.7	\$25.3	\$53,607.7	Anchorage	19-J
University of Alaska Anchorage		Auto/Diesel Technology Building	Replace Building Distribution Building Wiring, Lnote	\$499.7	\$54,107.5	\$499.7	\$54,107.5	Anchorage	19-J
University of Alaska Anchorage		Auto/Diesel Technology Building	Replace Building Distribution Circuit Breaker Panel:	\$52.6	\$54,160.1	\$52.6	\$54,160.1	Anchorage	19-J
University of Alaska Anchorage		Auto/Diesel Technology Building	Replace Building Distribution Emergency Circuit Wi	\$124.4	\$54,284.5	\$124.4	\$54,284.5	Anchorage	19-J
University of Alaska Anchorage		Auto/Diesel Technology Building	Replace Building Distribution Main Building Panels/	\$39.5	\$54,324.0	\$39.5	\$54,324.0	Anchorage	19-J
University of Alaska Anchorage		Auto/Diesel Technology Building	Replace Building Distribution Secondary Transform	\$124.4	\$54,448.4	\$124.4	\$54,448.4	Anchorage	19-J
University of Alaska Anchorage		Auto/Diesel Technology Building	Replace Compressor Air Shop, Lnote:100U5	\$16.2	\$54,464.6	\$16.2	\$54,464.6	Anchorage	19-J
University of Alaska Anchorage		Auto/Diesel Technology Building	Replace Door Overhead Electric East, Lnote:116	\$25.3	\$54,489.9	\$25.3	\$54,489.9	Anchorage	19-J

Dept. Priority	Allocation	Project Title	Project Description	Project Cost (\$00.0)	Running Total (\$00.0)	GF Cost (\$00.0)	GF Running Total (\$00.0)	Location (City)	House District
University of Alaska Anchorage	Auto/Diesel Technology Building	Auto/Diesel Technology Building	Replace Door Overhead Electric West, Lnote:116	\$25.3	\$54,515.2	\$25.3	\$54,515.2	Anchorage	19-J
University of Alaska Anchorage	Auto/Diesel Technology Building	Auto/Diesel Technology Building	Replace Door Overhead Electric, Lnote:105	\$25.3	\$54,540.5	\$25.3	\$54,540.5	Anchorage	19-J
University of Alaska Anchorage	Auto/Diesel Technology Building	Auto/Diesel Technology Building	Replace Elevator Passenger 1500 Lbs, Lnote:100E	\$505.8	\$55,046.3	\$505.8	\$55,046.3	Anchorage	19-J
