Jobs Needed Most by AOGA Members Today:

Engineering:

All types of engineers are needed, petroleum, mechanical, electrical, chemical, and specialty engineering (fire systems, corrosion, automation, risk/process).

Crafts/Technicians:

Machinists were identified by almost every company as well as needs for instrumentation specialists, electricians and cyber security

And believe it or not, there is a need for more **attorneys**

Biggest Impediments to attracting workers for AOGA Members Today:

- Qualified people who want to live and work in Alaska, especially in remote locations
- Competition within the oil and gas industry and other similar industries
- Less interest in working for the oil and gas industry
- Need more high quality training and engineering programs
- Lack of recruitment and marketing
