**Sponsor Statement**

**HB 130 Election Interference, Fraud, Misconduct**

*“An Act relating to the crimes of unlawful interference with an election, election fraud, and election official misconduct; and providing for an effective date.”*

HB 130 enhances election security by codifying the crime of unlawful interference of an election for anyone who intentionally tampers with ballots or machinery, creates the crime of election fraud, and adds to the crime of election official misconduct for sharing confidential election information.

This bill intends to restore public confidence in our elections by providing accountability of bad actors who seek to jeopardize the integrity of our elections from ballot to the tabulator.
