Approved By:	Josephine Stern, Assistant Commissioner	Date:	03/26/23
Agency:	Department of Health		

FISCAL NOTE ANALYSIS

STATE OF ALASKA
2023 LEGISLATIVE SESSION

BILL NO. HB058A

Analysis

This bill provides enhanced caregiver support for individuals with disabilities who are aging out of child foster care and would like to continue to reside in their familiar home setting. The bill established a new service type (adult home care) and residential setting type that may appeal to both recipients and their caregivers as an alternative care and living arrangement to current service and settings types.

The Division of Senior and Disabilities Services would administer the adult home care service by certifying and monitoring providers who offer the service, and approving support plans for those receiving the service. Adult home care providers would be reimbursed at a rate determined and set by the department. For this analysis, the department assumes the rate, and any additional services provided to individuals in the adult home care setting, will be similar to costs for services already provided to individuals leaving child foster care and receiving supports through the division. In some cases, the adult home care service will cost less than other services individuals may currently receive; in other cases, the adult home care service will be more expensive than other services individuals may currently receive. The department therefore assumes a net \$0 cost and savings from the bill.
