Hi,

I'd like to fist off thank you for your hard work in balancing the budget. I want to give you my opinion on SB 52. I want to ask you to consider voting yes to SB 52. We have been stagnant with our increases. Every other company in the world has a increased their working costs and have worked on their budgets accordingly. I would ;love to see the Alaska Government work like this.

Please consider the increase in BSA for our most vulnerable population.

Thank you,

MM
