**Subject:** SB-52 -BSA increase bill  
**Date:** Tuesday, April 11, 2023 6:44:00 PM

---

I'm approaching this as a health and social issue. Because of our climate and topography the local high school swimming pools end up becoming exercising centers, olympic training areas and everything in between. As a handicapped senior citizen, the Homer High School pool affords me a viable way to seriously exercise. I feel lucky to live here.

Remember you voluntarily signed up to make very hard decisions in exchange for 15 minutes of fame. I'm hoping this will turn out better than the debacle of the Yukon and Kuskokwim Rivers subsistence fisheries issues. There is no excuse for putting your constituents into a food insecurity situation.

I believe that government should be for the good of all in a solid educational system helping to make a more vibrant democracy, Raising the BSA to me is a no brainer.

Thank You  
Paul Medenciy
