Subject: HB99 - Opposition

I'm writing to express opposition to HB99.

Alaska does not need a law that allows LGBTQ+ people to sue people who refuse to participate in their way of life. We've all seen how this type of legislation is used to discriminate against religious freedoms with the example of the cake baker in Colorado who was sued and denigrated when he refused to bake a LGBTQ+ cake that conflicted with his religious beliefs. He had to go all the way to the US Supreme Court and after winning, they are coming after him again! See <https://www.cpr.org/2022/10/06/colorado-baker-case-discrimination-gender-transition-cake/>

Please don't open Alaska to this type of litigation. A man should not have grounds to sue because he is not be allowed to use a woman's bathroom, stay in a women's shelter, compete in woman's sports, etc. simply because he says he thinks he is a woman.

Thank you for your service.

I do not support HB 99.

Sexual orientation, will this include child predator pedophiles and groomers?

I do not support men invading in women spaces. Men identifying as women put in a women's prison have raped and assaulted women.

Protect women. Do not pass this.

Francesca

WRITTEN TESTIMONY

NAME: Windy Perkins
REPRESENTING: Self
BILL # or SUBJECT: HB 99
COMMITTEE: HCRA DATE: 04-18-2023

Please oppose this bill.

When boiled down to the facts this bill puts the public at risk. It is not in the best interest of businesses, churches, the public, children, our schools, or even the government.

Thank you for your consideration.

I would like to comment on house bill 99. This bill gives legal protections to people who are PRETENDING to be something they are not. There should not be a right to protection for "pretending".

We are all born with a biological gender, on a certain date, and of a certain race. The State issues a birth certificate saying as much. If the legislature feels that pretending needs legal protections then this bill should be amended to protect age identification and race identification. Alaskans should not only be able to change their gender and get a legal protection for that. It is just as logical to allow our citizens to change their age and race and then get legal protection for that change.

Hopefully the C&RA committee will have the sense to stall this stupidity and save more time for important items.

Written Testimony to HB99 to be sent to the Community and Regional Affairs committee:

I am solidly opposed to HB99 and request that you do not support it. It is far too ambiguous and could be interpreted to include forcing the LGBTQTA position on many hotly contested issues, like trans men in bathrooms, showers, and women's sports in public places.

I run a Bed and Breakfast and host events open to the public. I will not endure having forced inclusion of serving LGBTQTA activists on my property. Private schools and businesses hosting public events should not either. Florists, cakemakers, etc. shouldnt either. If the public schools are forced to accept LGBTQTA agendas, there will be a mass exodus of students.

Please refuse to be moved by the barage of angry loud voices from the small LGBTQTA community. Listen to reason and civility. Vote no on HB99.

Subject: Oppose HB 99 (Public Testimony)

Thank you for your service to Alaskans.

Please vote **NO on HB 99** that give special rights to someone's "gender identity" as this personal belief can be categorized as a religious belief that already has legal protection. Male gender people **cannot** be given legal access to public women's restrooms or lockers especially in schools where this will **compromise the safety of a female student** e.g. male teacher or student with a "female gender identity" entering a school girls (age 6-18) rest room or locker room with a shower. This has already occurred in the Mat-Su schools to the outrage of parents causing the School Board temporarily not allow this situation to happen. Special accommodations have been offered to students with a "gender identity" while not compromising the safety of 99% of the female students.

Do not approve HB 99, protect our female students.
