

What is the ASLP-IC

Audiology & Speech-Language Pathology
Interstate Compact

ASLP-IC is an occupational licensure compact that:

- Addresses increased demand to provide/receive audiology and speech-language pathology services.
- Authorizes both telehealth and in-person practice across state lines in ASLP-IC states.
- Is similar in form and function to occupational licensure compacts for nursing, psychology, medicine, physical therapy and emergency medical services.

10 states

ASLP-IC is operational when **10** states enact the legislation for the compact.

Audiologists and speech-language pathologists licensed in their home state apply for a privilege to practice under the ASLP-IC. State lines are a barrier no more!

ASLP-IC states communicate and exchange information including verification of licensure and disciplinary sanctions.

ASLP-IC states retain the ability to regulate practice in their states.

Benefits

Increasing access to client, patient, and student care.

Certifying that audiologists and speech-language pathologists have met acceptable standards of practice.

Promoting cooperation between ASLP-IC states in the areas of licensure and regulation.

Facilitating continuity of care when clients, patients, and students relocate, travel.

Offering a higher degree of consumer protection across state lines.

Impacts

Allowing licensed audiologists and speech-language pathologists to practice face to face or through telehealth across state lines without having to become licensed in additional ASLP-IC states.

Permitting audiologists and speech-language pathologists to provide services to populations currently underserved or geographically isolated.

Allowing military personnel and spouses to more easily maintain their profession when relocating.
